Sistema de Cooperativas de Crédito do Brasil -Sicoob

Combined financial statements at June 30, 2021 and independent auditor's report

(A free translation of the original in Portuguese)

Independent auditor's report

To the Management and Members Sistema de Cooperativas de Crédito do Brasil - Sicoob

Opinion

We have audited the accompanying combined financial statements of Sistema de Cooperativas de Crédito do Brasil - Sicoob ("Sistema Sicoob" or "Institution"), consisting of the entities listed in Note 2.5, which comprise the combined balance sheet as at June 30, 2021 and the combined statements of income, comprehensive income, changes in equity and cash flows for the six-month period then ended, and notes to the combined financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion, the combined financial statements referred to above present fairly, in all material respects, the combined financial position of Sistema de Cooperativas de Crédito do Brasil - Sicoob as at June 30, 2021, and its combined financial performance and cash flows for the six-month period then ended, in accordance with the guidelines for the preparation of combined financial statements established by Resolution 4,151 of the National Monetary Council (CMN), dated October 30, 2012, and the additional regulations issued by the Brazilian Central Bank (BACEN), as described in Notes 2 and 3.

Basis for opinion

We conducted our audit in accordance with Brazilian and International Standards on Auditing. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the combined financial statements section of our report. We are independent of the Institution in accordance with the ethical requirements established in the Code of Professional Ethics and Professional Standards issued by the Brazilian Federal Accounting Council, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

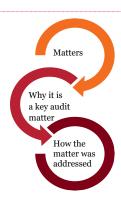

Emphasis of matter - Basis of preparation of the combined financial statements

We draw attention to Note 2 to the combined financial statements, which describes that the Institution's combined financial statements were prepared by management in order to meet the requirements of CMN Resolution 4,151/2012 as well as BACEN's additional regulations. Consequently, our report on these combined financial statements was prepared, exclusively, to meet these specific requirements and, therefore, may not be suitable for other purposes. Our opinion is not modified in respect of this matter.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current six-month period. These matters were addressed in the context of our audit of the combined financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Why it is a Key Audit Matter

How the matter was addressed in the audit

Provisions for expected losses from credit risks (Notes 3.8, 6.3.2, 6.3.3 and 22.2)

The provisions for expected losses from credit risks rely on Management's judgment.

The provisions for expected losses from credit risks are recorded in accordance with the regulatory requirements of the National Monetary Council (CMN) and the Brazilian Central Bank (BACEN), especially CMN Resolution 2,682/1999, and are based on the analyses of outstanding receivables.

Management continues to monitor possible effects from COVID-19 that may affect the operations and results.

This matter remained as an area of focus in our audit.

We updated our understanding and tested the internal controls that are significant to the calculation and recording of the provisions for expected losses from credit risks of Banco Cooperativo Sicoob S.A. including the : (i) credit approval policy; (ii) credit analysis; (iii) granting of credit and renegotiated transactions; (iv) determination of ratings score for risk of non recoverability; (v) processing and recording provisions; (vi) reconciliation of account balances with the analytical position; and (vii) preparation of the notes to the combined financial statements.

We conducted tests to determine the completeness of the database used for the provisions for expected losses from credit risks. We tested the methodology used for the provisions reflecting their respective ratings, assumptions applied and comparison of the account balances with the analytical reports.

We obtained an understanding of the procedures adopted by Management to monitor the COVID-19 impacts that may affect the operations and results.

We consider that the criteria and assumptions adopted by Management to calculate and record the provisions for expected losses from credit risks to be reasonable, in all material respects, in the context of the financial statements taken as a whole.

Why it is a Key Audit Matter

How the matter was addressed in the audit

Provisions for contingent liabilities (Notes 3.19 and 13)

The institutions comprising the Sistema Sicoob are parties to tax, labor and civil proceedings, at the administrative and judicial levels, arising from the normal course of their business.

These proceedings generally require a considerable length of time until a definitive resolution is reached involving complex procedural aspects, as per the relevant legislation.

Management must apply its judgment in determining the need and the measurement of a contingent liability which is reassessed periodically and as new developments occur.

This area matter continued to be an area of focus in our audit.

Our audit procedures included, among others, updating our understanding of and testing the processes for the identification and recording of contingent liabilities and disclosures in the explanatory notes.

We performed confirmation procedures with the law firms responsible for accompanying the administrative and judicial proceedings to evaluate Management's assessments, including for new events that occurred during the sixmonth period, and tested the completeness of information and sufficiency of the provisions.

We consider that the criteria and assumptions adopted by Management to determine and record the provisions for contingent liabilities to be reasonable, in all material respects, in the context of the financial statements taken as a whole.

Information technology environment

Banco Cooperativo Sicoob S.A. operates in a business environment that is highly dependent on reviewed the design and tested the operating technology, requiring a complex infrastructure to support the volume of transactions processed daily by its legacy systems.

The information technology risks inherent to the processing and control required to supporting the technology systems, including those legacy systems, may result in the incorrect processing of critical information, including that used in the preparation of the financial statements.

This matter remained an area of focus in our audit.

With the assistance of our system experts, we effectiveness of the internal controls related to the management of the information technology environment.

The procedures carried out involved a combination of control tests of the key processes related to information security, the development and maintenance of systems, and the operation of systems related to the infrastructure supporting the Banco Cooperativo Sicoob S.A. businesses.

We consider that the information technology general controls environment provides a reasonable basis to determine the nature, period and extent of our audit procedures on the financial statements.

Other information accompanying the combined financial statements and the auditor's report

The Institution's Management is responsible for the other information that comprises the Management Report.

Our opinion on the combined financial statements does not cover the Management Report, and we do not express any form of audit conclusion thereon.

In connection with the audit of the combined financial statements, our responsibility is to read the Management Report and, in doing so, consider whether this report is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement in the Management Report, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the combined financial statements

Management is responsible for the preparation and fair presentation of the combined financial statements in accordance with CMN Resolution 4,151/2012 as well as BACEN's additional regulations, the main criteria for which and respective accounting practices are described in Notes 2 and 3 to the combined financial statements, and for such internal control as management determines is necessary to enable the preparation of combined financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the combined financial statements, management is responsible for assessing the Institution's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Institution or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Institution's financial reporting process.

Auditor's responsibilities for the audit of the combined financial statements

Our objectives are to obtain reasonable assurance about whether the combined financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Brazilian and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Brazilian and International Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

• Identify and assess the risks of material misstatement of the combined financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Institution's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Institution's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the combined financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Institution to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the combined financial statements, including the disclosures, and whether these financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the combined financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current six-month period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

at June 30, 2021

To the Managers and Members of Sicoob,

We are pleased to present herein the Combined Financial Statements of Sistema de Cooperativas de Crédito do Brasil - Sicoob at June 30, 2021, which provides the current financial position and results of the expanded service network, with details of innovations in the area of information technology.

Macroeconomic Scenario

In the first six months of 2021, having been hit by COVID-19 pandemic, the global economy continued an upward trend that started in the second half of last year. The beginning of the vaccination process around the world and the gradual easing of restrictions in some regions provided an additional stimulus for the recovery of major economies, although specific outbreaks caused by new variants of the virus continue to cause concern over recent months.

In Brazil, GDP grew 1.2% in 1Q21 when compared to 4Q20 on a seasonally adjusted basis (1.0% in comparison with 1Q20). The highlight was the Agribusiness sector, which grew 5.7%, driven by the strong external demand and a favorable exchange rate. Industrial GDP increased by 0.7%, a performance that was boosted by the Extractive Industries (3.2%) and the Civil Construction sector (2.1%), while the Manufacturing Industry decreased by 0.5% in the period, affected by the shortage and high cost of inputs, as well as by the aftereffects of the strong growth recorded in the last half of 2020.

GDP for services grew at the modest rate of 0.4%, as the sector felt the restrictions caused by the second wave of the virus between March and April.

The labor market has shown signs of improvement, at least with respect to formal employment. According to data from the Ministry of the Economy (Caged), 1.5 million net jobs were created in the first six months of the year. All the key sectors showed a positive variation in the number of formal jobs: services (631 thousand), industry (340 thousand), commerce (234 thousand), civil construction (178 thousand) and agribusiness (152 thousand).

Lending operations were up throughout the first half of the year, recording a 1.7% increase over the second half of 2020 in seasonally adjusted terms, and an 8.0% year-on-year increase in real terms. The growth was driven by personal loans, which increased by 4.1% in the seasonally adjusted margin, while the margin of loans for legal entities decreased by 0.8%. In the personal banking portfolio, non-earmarked credit, more consumption-oriented, showed an increase in 2Q21, after the closure of activities at the end of 1Q21 due to the second wave of the pandemic. In the corporate banking portfolio, the reduction in the margin resulted from the end of the government assistance programs for companies, and the consequent reduction in the volume of directed credit. The external modalities also grew in the period, favored by the exchange rate devaluation.

Official inflation, measured by the Broad Consumer Price Index (IPCA), continued under pressure in the beginning of 2021; up to June the index increased by 3.77%, having exceeded the target for the whole year of 3.75%. Until June 2021, the index was primarily affected by the transportation sector (1.6 p.p. and increase of 8.2%), aggravated by a hike in fuel prices. The second major contribution was from the food sector (0.6 p.p., up 2.7%), driven by the rise in meat prices, followed by household expenses (0.5 p.p., up 3.3%), impacted by the higher prices of bottled gas.

In view of the faster recovery of the economy and the higher inflation rate, reflected also on the on the IPCA projections for 2021 and 2022, the Brazilian Central Bank started in March a process of monetary alignment. Once the Selic rate has ended 2020 at a record low rate of

at June 30, 2021

2%, the Monetary Policy Committee (COPOM) carried out three increases of 75 bps in the first half of the year, raising the base rate to 4.25% per year. The COPOM had already indicated its intention to adjust the Selic rate to a neutral level, which should be close to 7% by 2021, considering that the equilibrium real interest rate is estimated at approximately 3%, and inflation for next year is expected to be just below 4%.

In the international scenario, the main economies continued to recover, although at differing paces. In the United States, the strong annualized growth was recorded in the first and second quarters of 2021, of 6.3% and 6.5%, respectively, amidst a context of intense monetary and fiscal stimulus and as the effects of the pandemic waned, allowing for a resumption of activities.

Europe, on the other hand, was hit by a third wave of the pandemic at the beginning of the year, which required a return to restrictions in most countries, and resulted in a fall in GDP of 0.3% in the Eurozone and 1.6% in the UK in 1Q21. With the easing of restrictions, GDP in these regions is expected to have resumed growth in 2Q21. China has kept up the momentum, albeit leveling off. Despite the weak fundamentals of the 1st half of 2020, Chinese GDP showed strong annual expansion of 18.3% in 1Q21 and 7.9% in 2Q21.

In the domestic markets, asset values followed, to a great extent, the external trends, despite the internal turbulence, mostly of a political nature, which increased volatility. After closing 2020 at R\$ 5.20/US\$1.00, the BRL/USD exchange rate witnessed periods of great instability, reaching R\$ 5.80/US\$1.00 in the beginning of March. Since then, the global stabilization of the dollar exchange rate, the interest rate readjustment carried out by the Brazilian Central Bank, and signs of improvement in internal economic and fiscal conditions have allowed the Brazilian currency to recover, which closed the first half of the year at R\$ 5.00/US\$ 1.00.

In short, the first six-month period of 2021 was marked by the continued global recovery from the economic and health disruption caused by the COVID-19 pandemic, although the event and its impacts have not yet been fully overcome. In this respect, new waves of infection caused by variants of SARS-CoV-2, with recurrent peaks of cases and deaths in several regions around the world, have shown that total recovery will only be achieved once the vaccination programs are complete. Brazil mirrors the rest of the world, although further burdened by a turbulent political environment coupled by an already fragile fiscal environment. Brazil must move forward with its structural reforms to be able to deal with the challenges disrupting a balanced economic framework, and reduce interest rates which is fundamental for a gradual resumption of growth.

Sicoob

Sicoob, a Brazilian credit union system, has over 5.4 million members and 3.6 thousand service units operating throughout Brazil. The System is comprised of credit unions and supporting companies, which, together, provides the Sicoob members with services related to current account, credit, investment, credit cards, social security, consortium, insurance, bank collection, and merchant acquiring operations, among others. Despite not being a bank, Sicoob provides the same services as banking networks, operating as a financial credit union with the clients as the owners, and, therefore, share in the results.

Performance

a. Total assets

In June 2021, total assets amounted to R\$ 177.8 billion, a growth of 12.8% when compared to December 2020.

b. Loan portfolio

The loan portfolio net of provision was R\$ 96.2 billion, a significant increase of 14.6% in relation to the prior year's balance. With a total portfolio of R\$ 62.3 billion, loans and discounted notes grew by 9.8%. Financing increased by 24.0%, totaling R\$ 14.1 billion. The balance of rural and agribusiness financing totaled R\$ 24.3 billion at the end of June 2021, up 19.4% in comparison with 2020, while the provisions, which increased only 2.3%, totaled R\$ 4.8 billion.

at June 30, 2021

c. Expanded loan portfolio

The expanded loan portfolio, which includes credit card operations, guarantees and sureties honored, receivables on purchase of assets, and other receivables, totaled R\$ 103,0 billion, increasing by 26.9% in relation to December 2020.

d. Credit cards

Banco Sicoob, the issuer of cards for Sicoob and other credit union systems, closed the period with 8.62 million cards issued, of which 3.53 million with a built-in limit. The expansion of the card base through partner systems represented approximately 23% of total revenues.

e. Acquiring operations

In the first half of 2021, acquiring operations, which combine the Sicoob's customer base and those of partner systems, recorded an increase of 12% in the number of authorized licensees of the Sipag card machine, in comparison with the same period of 2020. Due to this increase in the customer base, year to date revenue totaled R\$ 17.3 billion, or up 25% in relation to the same period of last year.

f. Funding transactions - Deposits, LCA and LCI

Total deposits amounted to R\$ 121.4 billion in the period, increasing by 13.1% in relation to the R\$ 107.4 billion recorded at the end of last year. This growth reflects the high confidence of credit union members in the System's management, being significant in this current scenario affected by the pandemic. Time deposits (Bank Deposit Certificates (CDBs) and Credit Union Deposit Receipts (RDCs)) increased by 11.8%, from R\$ 61.0 billion in December 2020 to R\$ 68.1 billion in June 2021. The funds raised with Agribusiness Credit Notes (LCAs) and Real Estate Credit Notes (LCIs) also grew by 29.7%, from R\$ 6.5 billion in December 2020 to R\$ 8.5 billion in June 2021.

g. Equity

At the end of the first half of 2021, equity totaled R\$ 27.5 billion in the period, up 5.5% in relation to December 2020.

h. Surplus

Surpluses for the period totaled R\$ 2.3 billion, a 51.1% increase in comparison with the R\$ 1.5 billion recorded in June 2020.

Number of Sicoob members

The number of Sicoob members grew by 5.1%, from 5.1 million in December 2020 to 5.4 million in June 2021, witness to the interest in alternatives to the traditional banking system.

Also to be highlighted is the 6.8% increase in the number of members that are legal entities, which grew from 988 thousand in December 2020 to 1.1 million in June 2021, reflecting entrepreneurs' greater interest in the services provided by credit unions. Individual members totaled 4.3 million in the period, a 4.7% increase when compared to the 4.1 million registered in December 2020.

Business expansion and highlights

Technology has been one of the cornerstones of digital transformation and innovation at Sicoob, which received investments of R\$ 72 million up to June 2021. Objectives, in a stable environment, include achieving business growth, as also increasing operational efficiency, improved cybersecurity, managing risks, and adding new products and services to its portfolio, widening the number of beneficiaries enjoying the benefits and advantages that credit unions offer.

In common with the main industry trends and reflecting innovations and technological advances to deliver greater security to its members, Sicoob has obtained and renewed important certifications that ensure excellence in the use and experience of its products and services, such as:

at June 30, 2021

- PCI DSS (Payment Card Industry Data Security Standard) Certification, which is a set of standard rules designed to improve security in the processing of payment card data. The certification protocols provide merchants and cardholders with further protection and help fraud prevention;
- ISO/IEC 27001:2013 certification for the "Backup copies of business and corporate data". This important certification ensures a high level of information security by providing clear, secure and reliable information for management and decision making;
- Brazil Open Banking Certification (Based on FAPI 1 Advanced Final) from OpenID, which is one of the requirements to engage in Open Banking services.

Digital transformation

The technological planning cycle for the 2020 to 2022 period was launched with the objective of aligning the IT actions with the digital transformation initiative and other aspects foreseen in the Sicoob's Strategic Planning (PES). Pursuant to the 2020-2022 IT Plan, Sicoob's Digital Platform for Financial Services - SISBR, underwent major transformations during the first half of 2021.

Aiming to continuously improve the experience of the credit unions' members and employees, including within the COVID-19 pandemic, deliveries related to security and system evolution were made from January to June of this year, with highlights for:

- Creation of mechanisms to provide the services offered with increased security, reliability, efficiency, and agility:
 - o Inclusion of the facial recognition feature as one step in the password creation process of Sicoob Poupança (savings account) App;
 - o Unlocking mobile devices by means of QRCode at ATMs;
 - Actions of Prevention and Fight Against Fraud in Service Channels warning alert, retention and confirmation of digital transactions (PIX, TED and Payment Slips) that appear to be fraudulent.
- Systemic and structural developments to promote greater agility and efficiency in the contracting and use of services:
 - o Improvements in the Digital Membership for fraud score assessment, aiming to add further security to the process. Automated selection of the nearest credit union, based on the address informed by the client in the Sicoob App;
 - o Possibility of scheduling a PIX transaction in the Savings App, through the insertion of a communication channel for the user;
 - o Virtual Assistant Alice featuring access to PIX transactions, and a customized access on Sicoobnet for questions and complaints, providing an automated and user-friendly service;
 - o Improved functionality of the Sicoob App Personal and Corporate Access to prompt the generation of PIX Collection with due date;
 - PIX receipt solutions for members that are legal entities, seeking to offer a better experience in the use of Sicoob products and services through the management of PIX receipts, and the Application Programming Interface (API) for Receipts (Sicoob PIX API), aimed at medium- and large-sized companies;
 - Monitoring of credit proposals through Sicoob App;
 - o Monitoring of Savings card application by the credit union for a better user experience;
 - o Sicoob's Cognitive Journey:
 - ✓ Call handling automation: adjustments made to the SipagDirect App to enable automated handling of critical calls;
 - ✓ Automation of credit request management: adjustments made to Coopcerto's applications to enable such automation, aimed at centralizing at the Sicoob Cooperative Center (CCS) the processing of these requests for about 100 credit unions;
 - o DMC Project Debit MasterCard, which implemented in Sicoob Payments the global standard of Dual Message transactions, with capture of payment flows involving large amounts of cash, and market segmentation (Classic, Gold and Platinum), providing increased acceptance

at June 30, 2021

- worldwide, reducing operational costs for Sicoob, discouraging the use of cash, and improving the community's financial education;
- Sicoob' app Cooperativo: card management application for the credit unions that have a partnership with Sicoob and are not linked to any cooperative system;
- Availability of features for Individual Life, Women's Life, Simple Life, Corporate Life, and Credit Life Insurance.

Besides these mandatory and transformational business changes, Sisbr is undergoing constant architectural updates aimed at streamlining its technical evolution to foster the growth of Sicoob's business. Accordingly, the Credit solutions were moved to Sisbr's New Technological Platform, increasing resilience in the credit system's environment.

The actions follow the guidelines of Sicoob's strategic planning and are consistent with the objective of offering competitive financial solutions to the credit union's members.

Infrastructure

In line with the IT Capacity Plan, the main components of the infrastructure that processes Sisbr transactions related to service channels, backoffice solutions, and payment means were expanded for the purpose of ensuring better performance, quality and availability of operations, with emphasis on:

- Renewal of the MPLS network and new services;
- Renewal and expansion of the software-defined network (SD-WAN) (adjust);
- Renovation of the air conditioning system in the UPS room of SIG Datacenter;
- Expansion and optimization of the load balancing solution for Sisbr transactions between the two processing sites. Accordingly, the logical and physical segregation of the Service Channels allows each channel to work with individualized resources, providing greater performance and availability, and ensuring an isolation level to prevent any impact between them;
- Technological update of the Card Ecosystem environment (PCA and Exadata); and
- Installation of an Internet redundancy solution for Sicoob Payments.

The number of transactions processed increased by 95.04%, from 2.6 billion in the same period of last year to 5.08 billion in June 2021. The processing of card transaction authorizations increased by 53.38%, from 186 million to 285 million transactions.

The change in member's behavior were evident from the migration of in-person to digital transaction channels. 91.46% of all the transactions made by credit union members were carried out through digital channels, 76.93% of which, exclusively through Sicoob App. This scenario generated system efficiency gains through the reduction of expenditures on structures and administrative costs since the average unit cost of transactions on digital channels is lower than that of physical channels.

A period of innovations

To further protect Sicoob's main asset - its members' data - in an increasingly challenging scenario, new safeguards were created and processes instigated to mitigate security incidents.

Despite the challenge posed by the pandemic, which forced a radical change in the work method of CCS teams, whilst assuring the health and wellbeing of its employees, Sicoob continues improving its infrastructure and security to provide all the system users with a high-quality remote access experience, without compromising the CCS operations.

In February 2021, upon the launch of the Open Financial System (Open Banking Brazil), Sicoob signed the Contract of Adhesion, under which it accepts and adheres to the rules, procedures, and standards applicable to institutions participating in Open Banking in Brazil. The program is part of the institution's broader agenda, which aims to build the financial system of the future. As seen in its first phase, despite the still low number of institutions, the program already allows for the comparison between the prices of products and services offered. Through data sharing, it will be possible, for example, to shape customized

at June 30, 2021

business models for each member and enjoy the benefits of the cooperative environment in with a fair of judicial structure.

The PIX (instant digital payment) solution continues to be improved to maintain the engagement with the members by providing a more convenient, easy, and agile manner to carry out the transactions. The use of PIX transactions in the Savings App, a digital customer service with a human touch served by a virtual assistant Alice to answer PIX questions and receive complaints by means of the individualized access to Sicoobnet, the generation of the PIX Collection feature including the due date, and PIX receipt solutions for members that are legal entities are the highlights of this period.

Through a cooperation agreement with the Brazilian Federation of Banks (Febraban), Sicoob CCS entered into a partnership with the Federal Government to integrate the members' login authentication to the Gov.br platform of services. Sicoob was the first cooperative financial institution to perform this integration, which facilitates the access of individual members to the services provided by the Federal Government, as well as by the States and municipalities that are connected to the platform. This feature has enabled more than five million people to access the government's digital services with the same credentials used to log in Sicoob App.

In order to fulfill the commitment of providing Sicoob with structured products and processes integrated with Sisbr, the Partner + (*Parceiro* +) solution was launched. In addition to the systemic gain, Sicoob now features a new solution for financing of goods, products, and services, through a partnership with merchants.

Furthermore, the Governance Portal, a new module of the Sicoob's Digital Platform for Financial Services (SISBR), was made available to all Sicoob members as a tool to provide systemic controls, as well as to support the planning and organization of the issues to be discussed and decided at the Board of Directors' and Executive Board' meetings.

In line with the aim of offering competitive financial solutions to the members, the pension product Free Benefit Generating Life Plan (VGBL) was made available on Sisbr 2.0 and Sicoob App- Personal Access, and Corporate Life in Sisbr 2.0.

Finally, after 20 years since the implementation in the first credit union on September 1, 2001, SISBR continues committed to regularly updating its primary corporate tool for all its dimensions, implementing innovations and improvements in order to provide the credit unions and their members with the best technology for automation of financial services.

Service channels

Sicoob provides its members with a wide service network, featuring 3,523 branches in 1,934 Brazilian municipalities. In 304 of these municipalities, Sicoob is the only financial institution in operation. Service is also available through 6,104 Electronic Service Units (PAEs) owned by the Institution, and over 23 thousand ATMs shared with the Banco24Horas Network.

Sicoob's Digital Membership has been consolidating its position as an important channel for attracting new members. Most of the credit unions that have joined the process adopted permanent prospecting strategies through this channel, promoting a favorable result with a daily average of 903 new membership proposals in June, 2021.

The set of deliveries in the first six-month period of 2021 resulted in an increased volume of transactions carried out on Sicoob's service channels. The number of transactions performed through Sicoob's service channels grew by 95.04%, when compared to the same period of previous year The annual growth rate in the past five years, of 32.23%, is in line with the expansion of the System's businesses. Of the 5.08 billion transactions recorded, approximately 91.46% were carried out on digital channels (Mobile and Internet banking), and 8.54% on conventional channels (Cashier, ATM, and Correspondent banks).

at June 30, 2021

In the 1Q21 consistent with the financial market trends, Sicoob's transactions on digital channels accounted for over 91.46% of its total financial and non-financial operations, an increase of 7.72 points in comparison with 1Q20, which reflects the System's technological advances in terms of usability and security attributes.

The preferred channel for the system members to access the credit union products and services continues to be the Sicoob App. The number of transactions on this channel increased by 140.67% in the period, from 1.6 billion in the first half of 2020 to 3.9 billion in the same period of 2021. In terms of channel share, Sicoob App accounted for 76.93% of the transactions, an increase of 10.9 pp over the previous year.

The growing use of PIX by the members reached about 86.7 million transactions in the first half of 2021, accounting for a financial volume of approximately R\$134 billion. These figures confirm the great success of Sicoob in granting the credit unions and their members a secure, easy, and convenient access to this solution.

The fact that digital channels continue to take space from conventional channels portrays the higher confidence placed in Sicoob and the technological solutions offered by its Digital Platform for Financial Services - Sisbr, and results from the efforts of the credit unions to guide their members towards greater convenience in accessing the products and services available.

The increasing preference for the use of Sicoob App stems from the shift in the digital behavior of users, as well as from the great acceptance of the application, which continues to be the top rated among all financial institutions in Brazil, scoring 4.8 at the Apple Store and 4.7 at the Play Store.

New agreements

In the first half of 2021, new corporate agreements for the collection of bar-coded invoices/payment slips and pre-authorized debits were added to the Bank's portfolio, totaling 28 partnership agreements signed. Among the new partnership agreements were the Municipality of Buritis MG, the Municipality of Presidente Prudente SP, the Municipality of Ibitirama ES, the Municipality of Caxias do Sul RS, the Municipal Water and Sewage Department (DMAE) of Castanheira MT, the Municipality of Davinópolis GO, the Municipal Autonomous Water and Sewage Service (SAAEC) of Colina SP, Power generation and distribution company (COPREL) of Rio Grande do Sul, the Municipality of Santo Antônio do Monte MG, the Water and Sewage Service (SAE) of Ourinhos SP, the Municipal Autonomous Water and Sewage Service (SAAE) of Atibaia SP, Adyl Net Telecom of Rio Grande do Sul, and BEK Maceió, in Alagoas.

The portfolio of agreements, being a significant component of the Brazilian National Financial System, is available to Sicoob's credit unions, as well as to other systems and banking institutions.

Guarantor Credit Union Fund (FGCoop)

Deposits in credit unions are protected by the Guarantor Credit Union Fund (FGCoop), which guarantees deposits and credits maintained in individual credit unions or cooperative banks in the event of intervention or out-of-court liquidation of these institutions. Currently, the ceiling value of this protection is the same in force for depositors of other financial institutions covered by the Credit Guarantee Fund (FGC).

Code of ethics

All the members of Sicoob signed up to the Code of Ethics proposed by the Confederação Nacional das Cooperativas do Sicoob Ltda. ("Sicoob Confederation"), a commitment also assumed by all new employees that join the System.

at June 30, 2021

Institutional policy for social and environmental responsibility

This policy introduces the principles and guidelines that govern Sicoob's social and environmental actions in the conduction of its business and relations with stakeholders, and aim to contribute for the effective implementation of cooperative activities supported by sustainable development.

Sicoob Institute

Sicoob Institute, which is the Sicoob's agency for strategic social investment, was created in 2004, in the city of Maringá, State of Paraná, for the purpose of developing, sharing, and disseminating social methodologies through programs and projects based on three main pillars: Cooperativism and Entrepreneurship, Financial Citizenship and Sustainable Development.

These fundamentals enable the alignment between the social actions and Sicoob's strategic objectives and guidelines, the SDGs (Sustainable Development Goals), and the Regulators' agenda, particularly that of the National Strategy for Financial Education. This alignment, in turn, keeps the organization's focus and investments directed by the social and environmental responsibility guidelines, and responds to the internal and external aspects of the business - what the organization and the society expect from each other.

Sicoob Institute combines knowledge, experience and specialized professionals to qualify, unify and streamline the management of Sicoob's strategic social investment, and strengthen its community engagement. The performance of the Institute is supported by the Strategic Social Investment Committee, which is made up of leaders from all Sicoob entities.

Working closely with all Sicoob Entities - Central and Individual credit unions, Sicoob Confederation and Banco Sicoob Group, which are its sponsoring associates, Sicoob Institute mobilizes a great workforce that involves the participation of employees and leaders as volunteers to act as agents of change in the communities, sharing the values and principles of a cooperative culture and fostering entrepreneurship, financial citizenship and local sustainable development based on Sicoob's major Purpose of connecting people to promote financial justice and wealth, and contribute to a more collaborative world.

In addition, Sicoob Institute is the internal coordinator of Sicoob's Sustainability Agenda, and the agency responsible for the ongoing dialogue with communities, schools, educators, Third Sector organizations, sectoral bodies, sponsoring associates, and other relevant players for strengthening Sicoob's Environmental Social Guidelines.

Measures adopted by Sicoob to mitigate the effects of the COVID-19 pandemic on the life of its members and the community

Through its individual credit unions and second-and third-level entities, Sicoob has actively sought to manage within its community the effects of the COVID-19 pandemic, and since the onset of the pandemic, has donated over R\$ 10.2 million in hospital supplies, such as mechanical ventilators (respirators), individual protection equipment, hygiene and cleaning products, masks, sanitizing gel, disposable diapers for children and adults, basic food baskets for various charitable institutions, in addition to ambulance equipment, among others.

In addition to actions of a social nature, Sicoob has adopted a series of measures to lessen the impacts of the pandemic on the financial lives of its members, among which:

- Extended terms of installments for loan operations
- Increased number of loans granted with own resources, at lower rates;
- Full support to the federal credit granting programs, such as the line with BNDES resources under the Emergency Employment Support Program (PESE);
- Participation in the granting of loans to micro, small and medium enterprises, under the National Program of Support to Micro and Small Companies (PRONAMPE), the Emergency Credit Access

at June 30, 2021

Program (PEAC/FGI), in addition to partnership activities developed with Sebrae and the Micro and Small Business Guarantee Fund (FAMPE);

- Creation of emergency programs with own resources for legal entities, providing payroll and working capital financing;
- Establishment of a grace period for real estate financing;
- Flexibilization of the conditions for acquisition of consortium quotas;
- Reduction of payroll credit rates, both for employees of the public and private sectors;
- Renegotiation of lending operations; and
- Reduction and/or exemption of fees and tariffs.

During the year, R\$ 2.47 billion in emergency credit facilities were offered to meet the pandemic-related financial impacts transferred through the PESE and PEAC programs.

Ombudsman

Sicoob has an Ombudsman channel for communication between the credit unions and the users of the System's services, the framework of which is centralized at Banco Sicoob, and regulated by CMN Resolution 4,433/2015. The Ombudsman office has up to ten business days to respond to any occurrence reported, with the possibility of extending this deadline for an equal period.

Acknowledgments

We would like to thank our members, the central and individual credit unions, and Sicoob Confederation for their collaboration towards the achievement of the System's goals; our external partners for their trust in the solutions offered by Sicoob; and our employees for their dedication and commitment.

Note 1 - Operations

Sistema de Cooperativas de Crédito do Brasil - Sicoob ("Sicoob" or "System") comprises up to 360 first-level individual credit unions, which operate in 27 Brazilian States through 3,563 branches, and 1,070 Correspondent banks, in addition to 6,107 Electronic Service Units (PAEs) and over 23 thousand ATMs, providing services to 5.4 million members. The System also includes 16 central credit unions, Banco Cooperativo do Brasil S.A ("Banco Sicoob" or "Bank"), Confederação Nacional das Cooperativas do Sicoob ("Sicoob Confederation"), and the subsidiaries of the Bank or of the credit unions.

As a major participant in the Brazilian financial system, Sicoob as a financial credit union plays a key social role by providing support for the growth and development of the communities in which it operates. Sicoob delivers all types of banking products and services, shares its results with its members, and invests funds raised in the communities themselves, with the aim of fostering commercial and production activities, and creating jobs and income.

Banco Sicoob is controlled by the 16 central credit unions listed below: Sicoob Central ES, Sicoob Central BA, Sicoob Central Crediminas, Sicoob Goiás Central, Sicoob Central SC/RS, Sicoob SP, Sicoob Norte, Sicoob Planalto Central, Sicoob Central Cecremge, Sicoob Central Cecresp, Sicoob Central NE, Sicoob Central Rondon, Sicoob Central Unicoob, Sicoob Unimais, Sicoob Uni, and Sicoob Central Rio.

Banco Sicoob is a multi-service bank established pursuant to Resolution 2,193 of August 31, 1995, of the National Monetary Council (CMN), and is the controlling shareholder of Sicoob Distribuidora de Títulos e Valores Mobiliários ("Sicoob DTVM"), Ponta Administradora de Consórcios ("Consórcio Ponta"), Sicoob Pagamentos Ltda, which is responsible for processing Sicoob's credit cards, and Sicoob Participações em Seguridade S.A. ("Sicoob PAR"), holder of an equity interest in Sicoob Seguradora.

The central credit unions also established the Confederação Nacional das Cooperativas do Sicoob Ltda. ("Sicoob Confederation"), "), a third-level entity engaged in the provision of representation and oversight services, standardization of operational procedures, implementation of the internal control system, and information technology services.

Sicoob also manages Fundação Sicoob Previ ("Sicoob Previ"), a private pension entity established in November 2006 for the purpose of offering the participants and their dependents pension benefits that supplement those provided by the government's social security system.

Note 2 - Presentation of the combined financial statements

2.1. Combined financial statements

These combined financial statements ("financial statements") are the responsibility of Sicoob's Management, and have been prepared based on the individual financial statements of the Institutions that comprise the System. The financial statements have been prepared for the purpose of presenting, in a single set of accounting statements, the consolidated position of all activities carried out by Sicoob, through the entities that comprise the System.

Although they have been prepared based on the corporate, internal control and governance structures of each member of the System, and in compliance with the requirements for financial statement presentation and disclosure pursuant to the standards issued by the CMN and the Brazilian Central Bank (BACEN), these combined financial statements are not representative of the individual financial

at June 30, 2021

All amounts in thousands of reais, unless otherwise stated

statements of Sicoob members, and, consequently, the balances presented should not be used for calculations of dividends and taxes, performance assessments, or for any other corporate or statutory purposes, which should be based on each entity's financial statements.

CMN Resolution 4,151/2012 and BACEN Circular Letter 3,669/2013 establish procedures and requirements for the preparation and disclosure of combined financial statements of financial cooperative systems in Brazil.

These combined financial statements have been prepared in accordance with the accounting practices adopted in Brazil, based on Law 6,404/1976 and amendments introduced by Laws 11,638/2007 and 11,941/2009, the standards issued by BACEN and CMN for purposes of compliance with the Accounting Chart for Institutions of the National Financial System (COSIF), as well as the Technical Pronouncements issued by the Accounting Pronouncements Committee (CPC), approved by the monetary authority, as presented in Note 3.21.

2.2. Segregation of assets and liabilities between current and non-current

Receivables and payables with terms up to 360 days are classified as current assets or liabilities, and those with longer terms are classified as non-current, according to the explanatory notes.

2.3. Approval of the combined financial statements

The Executive Board of Sicoob CCS submitted these combined financial statements to the Board of Directors, which approved them on October 14, 2021.

2.4. Criteria used in the combination of balances

The balance sheet and income statement balances of the institutions that comprise Sicoob were included in the preparation of these combined financial statements, and the balances of transactions carried out between these institutions were excluded.

2.5. Entities that comprise Sicoob included in the combined financial statements

Pursuant to Article 4 of CMN Resolution 4,151/2012, a cooperative system is comprised of individual cooperatives, central cooperatives, a credit confederation, a cooperative bank, as well as other financial institutions or entities authorized to operate by the Brazilian Central Bank, except for consortium administrators directly or indirectly linked to these institutions by means of an equity interest or actual control of operations, characterized by joint administration/management, or by operations in the market under the same trademark or trade name. Pursuant to determination of the Brazilian Central Bank, from June 30, 2021, these combined financial statements include the Confederação Nacional das Cooperativas do Sicoob Ltda. ("Sicoob Confederation"), Ponta Administradora de Consórcios ("Consórcio Ponta"), and Administradora de Consórcio Unicoob Ltda. ("Unicoob Consórcios"), subsidiary of a central credit union.

Also in compliance with the aforementioned determination, Sicoob Participações em Seguridade S/A ("Sicoob PAR") and Sicoob Pagamentos (formerly Cabal Brasil Ltda.), both subsidiaries of Banco Cooperativo Sicoob - S/A, were not included in these combined financial statements. The subsidiaries of central credit unions were also excluded from these combined financial statements (Note 9).

Sicoob Previ, although being part of the System as Sicoob's private pension entity, was not included in these combined financial statements.

In addition, Article 6 of BACEN Circular Letter 3,669/2013 establishes that all the investment funds in which the entities that comprise a cooperative system have or retain substantial risks and rewards, in any form, must be included in the combined trial balance. Therefore, these combined financial statements include the funds, whether managed by Sicoob DTVM or not, in which Banco Sicoob or the credit unions retain substantial risks and rewards.

at June 30, 2021

All amounts in thousands of reais, unless otherwise stated

The following institutions were included in the preparation of the combined financial statements, in accordance with CMN Resolution 4,151/2012:

• Banco Cooperativo Sicoob S.A. ("Banco Sicoob" or "Bank"): a multi-service bank established pursuant to CMN Resolution 2,193/1995, was authorized to operate by BACEN on July 21, 1997, and started activities on September 1, 1997.

Banco Sicoob was created to provide financial, technical and operational services to credit unions, pursuant to Article 88 of Law 5,764/1971.

• Sicoob Distribuidora de Títulos e Valores Mobiliários ("Sicoob DTVM"): a limited liability company engaged mainly in the management of investment funds by entering into contracts or charging a commission.

Sicoob DTVM is engaged in the subscription of securities for resale, either on a stand-alone basis or in a consortium with other authorized companies; intermediation of public offerings and distributions of securities in the market; and purchase and sale of securities on its own account or on behalf of third parties, in compliance with the regulations issued by CMN, BACEN, and CVM in their respective areas of competence.

Sicoob DTVM manages the funds listed in items (i) and (ii) of the "Investment funds" group.

- Confederação Nacional das Cooperativas do Sicoob Ltda. ("Sicoob Confederation"): a third-level entity under the control of the central credit unions, Sicoob Confederation is engaged in the provision of representation and oversight services, standardization of operational procedures, implementation of the internal control system, and information technology services for all Sicoob's entities.
- Ponta Administradora de Consórcios Ltda. ("Consórcio Ponta"): headquartered in Brasilia, Consórcio Ponta, subsidiary of Banco Sicoob, operates as an administrator of consortium groups for the acquisition of movable and immovable goods and services, which started operations on March 3, 1972. Sicoob, through the individual credit unions, is the main partner of Consórcio Ponta in the distribution of its products to the members of the System.
- Administradora de Consórcio Unicoob Ltda. ("Unicoob Consórcios"): controlled by Sicoob Central Unicoob, the consortium administrator was established, pursuant to authorization of the Brazilian Central Bank issued on May 19, 2010, to meet the needs of the individual credit unions affiliated to the central. Unicoob Consórcios operates in the automobile, motorcycle, real estate, and service segments foreseen in the regulation.
- **Sicoob's central credit unions:** these are independent financial institutions authorized to operate by the Brazilian Central Bank, comprised of at least three affiliated individual credit unions, and engaged in integrating the System's credit unions at both regional and state levels.

Sicoob has 16 central credit unions (Note 1), which act proactively to prevent and correct situations of risk to the safety and soundness of the credit unions and the System. The following services are among those provided by central credit unions: centralization of the funds raised by their credit unions; standardization and oversight of operating systems and control of deposits and loans; auxiliary supervision; education and training; adoption of corrective measures; legal advice, communication advice; common procurement; exchanges for quality and professional training.

• **Sicoob's individual credit unions:** these are non-bank financial institutions authorized to operate by the Brazilian Central Bank, resulting from an association of individuals formed to meet their financial needs, both as users and owners of the credit union's products and services.

at June 30, 2021

All amounts in thousands of reais, unless otherwise stated

In accordance with CMN Resolution 4,434/2015, individual credit unions are classified based on their specific operations, as follows: Full, Classic, or Capital and Loans.

Individual credit unions classified under the Full category can carry out all the operations inherent in credit unions. Those classified as Classic credit unions, among other restrictions, are not authorized to operate with foreign currency, foreign exchange variation, or derivatives. The credit unions classified as of Capital and Loans are non-depository institutions, whose funding arises exclusively from the capital paid by its members.

Sicoob's individual credit unions, in accordance with the classification provided for in CMN Resolution, are distributed as follows:

Classification	Number
Classic	338
Capital and Loans	13
Full	9
Total	360

• **Investment funds:** the following investment funds were considered in the preparation of these combined financial statements:

(a) Funds in which the central and/or individual credit unions retain substantial risks and rewards:

- Minascoop Fixed-income investment fund Private Credit
- Bancoob Centralização Fixed-income investment fund Private Credit
- Sicoob Institucional Fixed-income investment fund Private Credit
- Sicoob SP Fixed-income investment fund Private Credit (a)
- Sicoob SP Fixed-income investment fund Private Credit (a)
- (a) Investment fund created in 2020.

(b) Funds in which Banco Sicoob retains substantial risks and rewards:

- Sicoob Previdenciário Fixed-income investment fund IMA-B
- Sicoob Agências Real estate investment fund
- Sicoob Multi-market investment fund (a)
- Sicoob Ações (shares) investment fund (a)
- (a) Since June 2020, no entity of the System retains substantial risks and rewards in these funds.

2.7. Changes in the system

The following inclusions, mergers and exclusions of credit unions took place in the first six-month period of 2021:

2.7.1 Inclusions

System	Credit union
Sicoob Uni	Sicoob Unisp

2.7.2 Mergers

System	Merged credit union	System	Merging credit union
Sicoob BA	Sicoob Credmed	Sicoob Cecremge	Sicoob Credicom
Sicoob SP	Credicana	Sicoob SP	Sicoob Coopecredi
Sicoob Cecremge	Sicoob Credfenas	Sicoob Cecremge	Sicoob Saromcredi
Sicoob Rio	Sicoob Credicor/RJ	Sicoob Rio	Sicoob Coopvale

2.7.3 Exclusions

System	Credit union
Sicoob Cecremge	Coopaço
Sicoob Cecremge	Coopertim
Sicoob Cecremge	Credisam
Sicoob Cecresp	Morlan
Sicoob Cecresp	Coopluiza
Sicoob Cecresp	Crediabc
Sicoob Cecresp	SKF
Sicoob Cecresp	Usicred
Sicoob Cecresp	Barracred Cosan

at June 30, 2021

All amounts in thousands of reais, unless otherwise stated

2.8. Eliminations among Sicoob's entities

2.9. Events after the reporting period

Events that took place between the latest balance sheet date and the date of authorization for their issuance, as classified follows:

- **Adjusting events:** are those that provide further evidence of conditions existing at the end of the reporting period, and result in adjustments to the financial statements; and
- **Non-adjusting events:** are indicative of a condition that arose after the end of the reporting period and do not result in adjustments to the financial statements.

Note 3 - Summary of significant accounting policies

3.1. Accounting estimates and judgments

The preparation of combined financial statements in accordance with the Brazilian accounting practices described in Note 3 requires Management to exercise its judgment to determine and record the accounting estimates, where applicable. Significant items subject to the application of estimates and assumptions include the valuation of the recoverable amounts of property and equipment and intangible assets, the provision for loan losses, the estimated realization of tax assets, the provision for cash outflows in connection with tax, labor and civil contingencies, and the valuation of securities and derivative financial instruments. The settlement amounts of the transactions may differ from the estimates presented in the combined financial statements due to inaccuracies inherent in their determination process. The estimates and assumptions are reviewed on a half-yearly basis to reflect the best available information.

at June 30, 2021

All amounts in thousands of reais, unless otherwise stated

3.2. Determination of results of operations

The results of operations are determined on the accrual basis of accounting. Service revenue, typical to the financial system, is recognized as the service is rendered to the member or third party.

3.3. Foreign currency

Monetary assets denominated in foreign currency were translated into Brazilian Reais at the exchange rate in effect on the balance sheet date, and currency translation differences were recorded in the statement of income for the period.

3.4. Cash and cash equivalents

Cash and cash equivalents comprise cash in local and foreign currency, and short-term interbank investments maturing in up to 90 days from the investment date, and subject to immaterial risk of change in fair value. Cash and cash equivalents are used by Sicoob to manage its short-term obligations (Note 4).

3.5. Short-term interbank investments

Short-term interbank investments are stated at the amount of the investment or acquisition, plus income earned up to the balance sheet date, and consist of transactions backed by federal government securities, as disclosed in Note 6.2.

3.6. Marketable securities

Where applicable, securities are classified into the following categories, based on a set of criteria for registration and valuation of security portfolios, defined by BACEN Circular Letter 3,068/2001, and in accordance with management's intention regarding their use:

- (a) Trading securities securities acquired to be frequently and actively traded, adjusted to market value with a corresponding entry to profit or loss for the period.
- **(b) Held-to-maturity securities -** securities acquired to be held to maturity, based on financial capacity studies, accounted for at acquisition cost plus any income earned.
- (c) Available-for-sale securities securities that are not classified as "trading securities" or "held-to-maturity securities". These securities are adjusted to market value, and the result of the adjustment, net of tax effects, is recorded in a separate account in equity. Gains and losses, where applicable, are recognized in the statement of income.

The methodology for the marking-to-market of securities was established in compliance with consistent and verifiable criteria, which take into consideration the average trading price on the day of the calculation or, in the absence thereof, pricing models that reflect the probable net realizable value.

Income from marketable securities, irrespective of the category in which they are classified, is accrued on a daily pro-rata basis, under the exponential or straight-line method, based on the return clauses and acquisition cost distributed over the term of the investment, and recognized directly in the statement of income for the period.

When available-for-sale securities are sold, the difference between the selling price and the initial acquisition cost, adjusted for accrued income, is considered as the result of the transaction, and recognized on the transaction date within "Gains (losses) on securities".

3.7. Derivative financial instruments

In compliance with BACEN Circular Letter 3,082/02, derivative financial instruments are measured at market value at least at the time of preparation of the monthly trial balances and balance sheets. Any appreciation or depreciation is recognized directly in income or expense accounts for the respective derivative financial instrument (Note 6.1.1).

at June 30, 2021

All amounts in thousands of reais, unless otherwise stated

3.8. Provisions for expected credit losses

The provision for expected credit losses is calculated based on Management's judgment concerning the risk level, considering the analysis and rating of the borrower and the transaction, in compliance with the parameters established in CMN Resolution 2,682/99. This Resolution requires a periodic analysis of the loan portfolio, as well as the classification of the operations into nine levels, of which "AA" corresponds to the lowest risk level and "H" the highest risk level. These rules also apply to the provisions for guarantees provided, recorded within liabilities.

Income from lending operations overdue for more than 60 days, irrespective of their risk level, is only recognized in profit or loss after it has been received.

Operations classified as risk level "H" are transferred to the offsetting account, with the corresponding debit entry to the provision account, six months after their classification into this risk level. Renegotiated operations are maintained at the same risk level in which they were classified before the renegotiation, and operations which had been previously recorded as losses start to be classified as risk level "H". These operations are only transferred to the lowest risk level category after significant amortization has occurred, or when new relevant facts justify a change in their risk classification. Any gains arising from renegotiations are only recognized as income when effectively received. The provisions for expected credit losses, which are considered sufficient by Management, complies with the minimum requirement established in the aforementioned Resolution.

3.9. Investments

Investments are recorded at acquisition cost, and equity interests in subsidiaries and associates are accounted for under the equity method (Note 9).

3.10. Property and equipment

Property and equipment are recorded at acquisition, formation or construction cost, including interest and other capitalized financial charges (Note 10). Depreciation is calculated on a straight-line basis, in accordance with the following annual rates, based on the useful lives of the assets: properties in use - 5%; equipment in use - 10%; vehicles and data processing equipment - 20%.

Other expenditures are capitalized only when they can be associated with an increase in the economic benefits related to the asset. Any other type of expenditure is expensed in the statement of income when incurred.

3.11. Intangible assets

These correspond to rights acquired in intangible assets that are intended for the maintenance of the entities that comprise Sicoob or used for this purpose, as disclosed in Note 11. Intangible assets with a defined useful life are usually amortized on a straight-line basis during an estimated period of economic benefit. Intangible assets, which comprise software acquired from third parties, are amortized at an annual rate of 20%.

3.12. Impairment test

Items of property and equipment as well as intangible assets are subject to the annual impairment test in accordance with CPC 01 (R1). If there is clear evidence that the assets are not stated at their recoverable amount, the impairment loss is recognized in profit or loss for the period reducing, consequently, the balances of the items in which such losses were identified (Notes 10 and 11).

3.13. Other current and non-current assets

These are stated at net realizable value.

3.14. Deposits

These comprise demand deposits, savings account deposits, time deposits, which include credit union deposit receipts (RDCs) and bank deposit certificates (CDBs), interbank deposits, and notice deposits (Note 12.1).

at June 30, 2021

All amounts in thousands of reais, unless otherwise stated

Savings accounts earn interest at rates established by the regulation in force and are recorded at the amount of the deposit plus any income earned in the period.

The funds from time deposits (RDC and CDB) are stated at the amount raised, plus any accrued income, on a *pro-rata* daily basis, at floating or fixed rates, and are redeemable at a pre-established date.

3.15. Repurchase agreement obligations

These obligations are stated at known or determinable amounts, which include accrued charges and monetary variations, net of the corresponding unrecognized expenses, where applicable (Note 12.2).

3.16. Borrowing and onlending obligations

Borrowings and onlendings are stated at known or determinable amounts, including accrued charges and monetary variations, net of the corresponding unrecognized expenses, where applicable, and comprise mainly funding obtained from government agencies such as the National Bank for Economic and Social Development (BNDES)/Government Agency for Machinery and Equipment Financing (FINAME), Ministry of Agriculture, Livestock and Food Supply (MAPA)/Funcafé, and Constitutional Funds (Note 12.5).

3.17. Employee benefits - Supplementary pension plan

Banco Sicoob provides a defined contribution pension plan to the entire Sicoob network. The sponsor's monthly contributions to the plan are recognized as an expense in the statement of income for the period.

3.18. Income tax and social contribution

The provision for income tax was calculated at the rate of 15%, plus a 10% surtax. The social contribution for Banco Sicoob was set up at the rate of 20% for the months from January to June, and 25% as from July, computed on taxable income calculated as per the prevailing tax laws. For credit unions, the social contribution was determined at the rate of 15% for the months from January to June, and 20% as from July.

Income tax credits were calculated in accordance with the aforementioned tax rates. Upon the increase in the social contribution rate, from July to December 2021, under the provisions of Law 14,183/21, the relating credits were recognized at the rates corresponding to the expected use.

Tax credits are recognized considering the expected generation of future taxable income, over a maximum period of ten years, pursuant to CMN Resolution 4,842/2020. The expected generation of future taxable income is supported by a technical study prepared by Management and updated on a half-yearly basis.

3.19. Contingent assets and liabilities and legal obligations

Provisions are recognized in the balance sheet when Sicoob has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of funds will be required to settle the obligation. Provisions are recorded based on the best estimates of the risk involved (Note 13.1.2).

The recognition, measurement, and disclosure of provisions and contingent assets and liabilities are carried out in accordance with CMN Resolution 3823/2009, which requires financial institutions and other institutions authorized to operate by BACEN to comply with Technical Pronouncement CPC 25, issued by the Accounting Pronouncements Committee (CPC), as follows:

(a) Contingent assets - Contingent assets are not recorded, except when backed by real guarantees or final court decisions, for which a favorable outcome is virtually certain. Contingent assets for which a favorable outcome is classified as probable are only disclosed in the notes to the financial statements.

at June 30, 2021

All amounts in thousands of reais, unless otherwise stated

- **(b) Contingent liabilities** Contingent liabilities are recognized by Management under the advice of legal advisors, the nature of the lawsuits, similarities with previous proceedings, and the complexity of the lawsuits, when the risk of an unfavorable outcome is classified as probable, generating an outflow of funds to settle the obligation, and the amounts involved can be measured reliably. The lawsuits for which an unfavorable outcome is classified as possible are only disclosed in the notes to the financial statements when considered material on a stand-alone basis.
- (c) Legal obligations These are obligations that derive from a contract, through implicit or explicit terms, a law or other legal instrument, which should be recognized by the member entities of Sicoob.

3.20. Other current and non-current liabilities

These are stated at known or estimated amounts including, where applicable, the corresponding charges and monetary variations incurred.

3.21. Technical Pronouncements - CPCs

The National Monetary Council (CMN) has approved the adoption of the following Technical Pronouncements issued by the CPC. The pronouncements applicable to institutions authorized to operate by the Brazilian Central Bank were adopted in the preparation of these combined financial statements:

- CPC 00 (R2) Basic conceptual pronouncement approved by CMN Resolution 4,144/2012;
- CPC 01(R1)- Impairment of assets approved by CMN Resolution 3,566/2008;
- CPC 03 (R2)- Statement of cash flows approved by CMN Resolution 4,720/2019;
- CPC 05 (R1) Related-party disclosures approved by CMN Resolution 4,636/2018;
- CPC 10 (R1) Share-based payments approved by CMN Resolution 3,989/2011;
- CPC 23 Accounting policies, changes in accounting estimates and correction of errors approved by CMN Resolution 4,007/2011;
- CPC 24 Events after the reporting period approved by CMN Resolution 3,973/2011;
- CPC 25 Provisions, contingent liabilities and contingent assets approved by CMN Resolution 3,823/2009;
- CPC 33 (R1) Employee benefits approved by CMN Resolution 4.424/2015; and
- CPC 46 Fair value measurement approved by CMN Resolution 4,748/2019.

The other Technical Pronouncements issued by CPC will be applied upon approval by the National Monetary Council. However, the following CPCs have been partially adopted by CMN through the issue of the following standards:

- CPC 02 (R2) Effects of changes in exchange rates and translation of financial statements CMN Resolution 4,524/2016;
- CPC 04 (R1) Intangible assets CMN Resolution 4,534/2016; and
- CPC 27 Property, plant and equipment CMN Resolution 4,535/2016.

Note 4 - Cash and cash equivalents

Cash and cash equivalents, presented in the statement of cash flows, are as follows:

Cash and cash equivalents	Note	6/30/2021	12/31/2020
Available funds		1,582,997	1,381,431
Local currency		1,535,613	1,349,977
Foreign currency		47,384	31,454
Cash equivalents		22,662,348	27,214,855
Short-term interbank investments	(a)	22,661,407	27,213,874
Investments in savings account deposits		941	981
Total		24,245,345	28,596,286

at June 30, 2021

All amounts in thousands of reais, unless otherwise stated

(a) Investments classified as cash equivalents are those maturing in less than 90 days from the date of issue, and which are not subject to significant changes in value and interest rates. They are comprised of repurchase agreements entered into by Banco Sicoob with other institutions of the Brazilian National Financial System.

Note 5 - Compulsory deposits with the Brazilian Central Bank

Balances	6/30/2021	12/31/2020
BACEN - Instantaneous payments	51,721	91,729
BACEN - Compulsory reserves in cash	4,812	6,661
BACEN - Mandatory payments	1,646,593	1,418,962
Other deposits with the Brazilian Central Bank	1,778	1,245
Total	1,704,904	1,518,597
Current	1,704,904	1,518,597
Non-current	-	-

The result from compulsory investments In the first six-month period of 2021 amounted to R\$ 19,789 (R\$ 22,741 at December 31, 2020).

Note 6 - Financial assets

6.1. Marketable securities and derivative financial instruments

Securities are classified as "available for sale", "held-for-trading" and "held to maturity". Their market value was calculated considering the following parameters:

- (a) Federal government securities (LTNs, LFTs, NTNs) the index disclosed by the Brazilian Association of Capital and Financial Markets Institutions (ANBIMA) is used.
- **(b) National Treasury Certificates (ECTNs)** securities relating to renegotiations of rural credit transactions assumed from credit unions, whose face value is equivalent to the amount of debt, restated at the rate of 12% p.a. plus the General Market Price Index (IGPM) variation.
- (c) Investment funds (FIs) the value of the fund shares on the last working day, disclosed by the fund's administrators, is used.
- (d) Investment funds (FIDC) subordinated shares the latest price disclosed by the fund's administrator for the subordinated share, which represents the fair value of the fund's net assets, is used.
- **(e) Private securities** are marked to market periodically, using an in-house methodology that considers primarily the prices available on liquid markets. Alternatively, fair values are calculated based on a method that considers the average spreads (for similar private securities) adopted for Sicoob's own portfolio, in accordance with the size of the issuer.
- (f) Derivative financial instruments the methodology for the marking-to-market of securities was established in compliance with consistent and verifiable criteria, which take into consideration the average trading price on the day of the calculation or, in the absence thereof, pricing models that reflect the probable net realizable value in accordance with the characteristics of the derivative.

Marketable securities, including derivative financial instruments and short-term interbank investments, are held under the custody of [B]³ or SELIC, except for investment fund shares for which records are kept by the respective administrators.

Securities classified as "held to maturity" are supported by a study that proves the financial capacity and Management's intention to hold them to maturity.

The credit unions are released from the obligation to classify the securities held in their portfolios into the three categories foreseen in Circular Letter 3,068/2001. Accordingly, for purposes of presentation of the combined financial statements, the securities held by these credit unions were classified as "Available for sale", since they do not fit into the other categories.

at June 30, 2021

	159,483	137,247	132,058	105,612	

8.3. Expected realization of tax credits

Based on a study conducted by Management, which considered the expected generation of future taxable income, the tax credits will be realized in up to ten years, as follows:

Years	Nominal amount	Present value
2021	106,957	101,648
2022	41,924	37,366
2023	24,735	20,701
2024	20,626	16,208
2025	38,598	28,480
2026 to 2030	63,890	44,263
Total tax credits	296,730	248,666

The present value of tax credits was calculated considering the projected SELIC rate for the years of realization.

⁽a) Third-level credit union established by Sicoob's central credit unions for the purpose of safeguarding the interests of the System, through the standardization, oversight, and integration of operation, financial, regulatory, and technological procedures. This credit union also defines communication and marketing policies and strategies, mainly as regards the Sicoob brand. Sicoob Confederation started to be included in the combined financial statements at June 30, 2021 for compliance with Official Letter 34133/2020-BCB/DESUC. Accordingly, the balance of investments is zero when compared to December 31, 2020.

⁽b) Subsidiary of Banco Sicoob, operator of Mastercard, Visa and Cabal credit cards.

⁽c) Investment in Sicoob Participações em Seguridade S.A. - Sicoob PAR Seguridade, subsidiary of Banco Sicoob, holder of an equity interest in Sicoob Seguradora.

⁽d) Sicoob's Consortium Administrator, subsidiary of Banco Sicoob.

⁽e) Investments held by two Sicoob's central credit unions.

⁽f) Relates to investment property held by a real estate investment fund.

Note 13 - Provisions for contingencies and legal obligations

13.1. Contingencies

The entities that comprise Sicoob are parties to tax-related lawsuits and administrative proceedings. These lawsuits are classified by Management under the advice of internal and external legal counsel according to the likelihood of a successful outcome, and taking into consideration the nature and specifics of each lawsuit, as well as former decisions of higher courts.

The provisions for lawsuits are recognized, measured and disclosed as follows:

A provision is recognized only when:

- (a) Sicoob's entities have a present legal or constructive obligation as a result of past events;
- (b) it is probable that an outflow of resources will be required to settle the obligation; and
- (c) the amount of the obligation can be estimated reliably. In the event any of the above conditions is not met, the provision is not recognized.

Based on these assumptions, where it is probable that a present obligation exists at the balance sheet date, Sicoob records a provision, and, where this is not probable, the contingent liability is disclosed, unless the possibility of an outflow of resources is considered remote.

Management believes that the provision recorded is sufficient to cover any probable losses arising from the existing lawsuits, as shown below:

13.1.1 Lawsuits classified as involving risk of probable loss

The contingencies classified as involving risk of probable loss basically arise from labor and tax lawsuits and administrative proceedings inherent in the normal course of business, filed by third parties, former employees and public agencies.

13.1.2 Deposits in court and provisions for contingencies

	6/30/2021			12/31/2020

13.1.4. Nature of lawsuits classified as involving risk of probable loss

The nature of lawsuits classified by the legal advisors as involving risk of probable loss is described below:

- (a) Tax these lawsuits are being discussed at the administrative level and relate to tax assessment notices received from the Federal Revenue Service with respect to Corporate Income Tax (IRPJ), Social Contribution on Net Income (CSLL), Social Integration Program (PIS), and Social Contribution on Revenues (COFINS) levied on returns from financial investments, as well as to the increase in the COFINS tax rate.
- **(b) Civil** these lawsuits basically relate to contractual terms, registration of clients with credit protection services, and pain and suffering.
- (c) Labor relate mainly to lawsuits filed by former employees disputing severance pay.

13.1.5 Schedule of expected cash outflows

Due to the nature of the existing contingencies and the complexity of Brazilian legal environment, estimating a reasonable schedule for the future settlement of the lawsuits can be difficult.

13.1.6 Contingencies classified as involving risk of possible loss

Lawsuits classified as involving risk of possible loss are not recognized, and are only disclosed when the amount involved is material. This classification includes:

- (a) civil lawsuits claiming pain and suffering, and material damages caused by the credit unions;
- (b) civil lawsuits claiming improper collection and registration with credit protection services;
- (c) civil lawsuits challenging contractual reviews of lending operations;
- (d) civil lawsuits discussing Banco Sicoob's joint liability in relation to deposits made into credit unions;
- (e) civil lawsuits discussing Banco Sicoob's civil liability for an error made by a credit union;
- (f) labor lawsuits;
- (g) tax and social security administrative proceedings (Accident Prevention Factor (FAP), Scholarships and Social Integration Program (PIS));
- (h) lawsuit filed by the Bank for annulment of a tax assessment notice. The tax assessment notice intended to be annulled through the aforementioned action for annulment refers to the amount deducted by Banco Sicoob from the tax base in 2008. The deduction arose from the compensatory nature of the amount paid by Banco Sicoob, as decided at an Extraordinary General Meeting, due to a flaw in the provision of services under the Bank's responsibility.

at June 30, 2021

All amounts in thousands of reais, unless otherwise stated

13.1.7 Total contingencies classified as involving risk of possible loss

Management, under the advice of Sicoob members' legal counsel estimates the possible risk of loss at R\$ 924,631 (R\$ 648,964 in 2020).

13.2. Provisions for guarantees provided

The guarantees provided by Sicoob's entities through financial charges relating to endorsements and sureties totaled R\$ 9,353,834 at June 30, 2021 (R\$ 8,747,535 at December 31, 2020). Provisions recorded in liabilities totaled R\$ 251,258 at June 30, 2021 (R\$ 235,595 at December 31, 2020).

Income from guarantees provided amounted to R\$ 2,580 in the period (R\$ 3,919 at June 30, 2020).

The provisions recorded for guarantees provided are subject to the same criteria established in Resolution 2,682/1999 for classifying the credit risk posed by the borrowers. Expenses incurred with provisions for guarantees totaled R\$ 127,428 at June 30, 2021 (R\$ 236,388 at June 30, 2020). In the same period, provisions of R\$ 115,809 (R\$ 291,199 at June 30, 2020) were reversed.

- (b) Relate mainly to amounts received for the payment of public utility companies and agreements, such as: electricity and gas, water supply and sewage treatment, and telecommunications, among others.
- (c) Relates to payment orders pending settlement which had not been cleared up to June 30, 2021.
- (d) Relates to amounts in checks and other documents received.
- (e) Relates to provisions for the payment of expenses such as water, electricity, gas, rental, communication, publicity and advertising, among others.
- (f) Relates mainly to amounts received for payment of collection documents.
- (g) Relates to fund shares held by non-members of Sicoob.
- (h) Relates to guarantee funds for assets and deposits, established by central credit unions.

Note 15 - Equity

15.1. Share capital

Capital is comprised of units equivalent to R\$ 1.00 each, and each member of the System is entitled to one vote, irrespective of the number of units held.

During the reporting period, capital paid up by members increased by R\$ 738,766, (R\$ 737,600 at June 30, 2020). Write-offs of capital totaled R\$ 767,645 in the period (R\$ 481,075 at June 30, 2020).

The number of members at June 30, 2021 and December 31, 2020 was as follows:

Members	6/30/2021	12/31/2020
Individuals	4,300,813	4,107,883
Legal entities	1,055,523	987,795
Total	5.356.136	5.095.678

15.2. Capital reserves

This reserve is formed by statutory appropriations of surpluses, at a percentage established in the bylaws, and is used to offset losses and support the credit unions' activities. Capital reserves comprise reserve fund, reserves for expansion, reserves for contingencies, legal reserve and other reserves, which totaled R\$ 4,439 at June 30, 2021 (R\$ 99,796 at December 31, 2020).

15.3. Revenue reserves

Revenue reserves are comprised of the reserve fund, reserves, reserves for expansion, and others. In the first six-month period of 2021, the amount of R\$ 215,794 was transferred to the reserve fund (R\$ 1,418,176 at December 31, 2020), and R\$ 541,187 was transferred to other reserves (R\$ 505,354 at December 31, 2020).

at June 30, 2021

All amounts in thousands of reais, unless otherwise stated

15.4. Dividends

The shareholders of Banco Sicoob are entitled to mandatory minimum dividends corresponding to 5% of adjusted profit for the year. Banco Sicoob approved the distribution of dividends totaling R\$ 5,591, equivalent to R\$ 5.50 per thousand shares (R\$ 7,649, equivalent to R\$ 7.62 per thousand shares, at December 31, 2020).

15.5. Interest on capital

Interest on capital is computed on the balance of paid-up capital and adjusted by the SELIC rate, limited to 12% per year, as established by Law 5,764/1971.

The percentage used to adjust the members' balance of paid-up capital may vary among the credit unions. Expenses with interest on capital for the period is recorded in the combined statement of changes in equity as allocation of surplus for the period. Interest on capital is paid on the last day of the year, either through a deposit on current account, or as paid-in capital.

The provision for expenses with interest on capital for the period totaled R\$ 76,081 (R\$ 84,346 at June 30, 2020).

15.6. FATES - Fund for Technical, Educational and Social Assistance

As provided for in Law 130/2009, this fund is intended for educational activities and the provision of assistance to the credit unions' members, their relatives, and employees. Funds arising from activities unrelated to the core business of the credit unions, as well as at least 5% of the net surplus for the year, are allocated to FATES, as provided for in the bylaws. The amounts payable are recognized within a specific line item in liabilities, in accordance with the Accounting Chart for Institutions of the National Financial System (COSIF). The amounts allocated to FATES in the first six-month period of 2021 totaled R\$ 7,334 (R\$ 7,755 at June 30, 2020).

15.7. Losses

Pursuant to Supplementary Law 130/2009, the losses computed by credit unions for the six-month period are by funds from the Legal Reserve. In the event of insufficiency of funds, the losses will be apportioned among the members and covered by future years' surpluses, upon approval by the general meeting.

15.8. Surplus for the period

Surpluses are distributed and allocated in accordance with each entity's bylaws, and in compliance with BACEN standards, as approved at the Annual General Meeting. Surplus for the period totaled R\$ 2,203,841 (R\$ 1,424,309 at June 30, 2020).

15.9. Other comprehensive income (loss)

Adjustments from the mark-to-market of available-for-sale securities, net of the income tax and social contribution effects (Note 8.1), and applicable only to securities held by Banco Sicoob. The effects of these adjustments resulted in the negative amount of - R\$ 51,871 (- R\$ 6,025 in December 2020), net of tax effects.

15.10. Approval of appropriations

The appropriations of surplus from the previous year are carried out up to the end of April of the following year, in accordance with these legislation in force and the bylaws of central and individual credit unions. Surpluses are allocated to make up reserve funds, to FATES, to set up reserves, to increase capital, or to be distributed to the members' current account, net of tax effects.

Due to the COVID-19 pandemic, some of the credit unions' meetings scheduled to be held by the end of April were postponed to July 31, 2020 in accordance with Provisional Measure (MP) 931/2020. The same MP provided for the holding of remote meetings and the extension of the mandates of the Board of Directors and the Statutory Audit Board. Therefore, many Sicoob's members opted to conduct virtual meetings through the MOOB App.

at June 30, 2021

All amounts in thousands of reais, unless otherwise stated

The surplus from previous year, in the amount of R\$ 109,274, was distributed to the members. Capital increase with surplus totaled R\$ 793,315.

The amounts above are included in the balances before eliminations.

(a) Funds in which Sicoob no longer retains substantial risks and rewards.

18.4. Remuneration of the key management personnel

Key management personnel include the directors and officers. The maximum aggregate compensation payable to the Board of Directors and Executive Board is established at General Shareholders' Meetings, which are held annually. The compensation paid or payable to officers and directors for their services is shown below:

Balances	6/30/2021	6/30/2020
Fees	224,958	202,515
Social charges	49,879	44,210
Total	274 837	246.725

18.5. Transactions with Management

Balances	Note	6/30/2021	12/31/2020
Lending operations	(a)	1,858,683	389,658
Deposits	(b)	3,490,122	2,299,040

Total		6,269,500	3,280,700

⁽a) The provisions for loan losses amounted to R\$ 30,444 at June 30, 2021 (R\$ 4,609 at December 31, 2020), at rates from 0.08% to 19.90% and maturing from 1 to 480 months

Note 19 - Other information

19.1. Management of third-party funds

Third-party funds managed by Sicoob DTVM at June 30, 2021 were as follows:

Management of third-party funds	6/30/2021	12/31/2020
Portfolio of marketable securities	39,451,215	29,581,651
Investment funds	8,436,306	7,369,057
Total	47.887.521	36.950.708

⁽b) Include demand deposits, savings account deposits, and time deposits (RCDs). Time deposits are linked to DI floating rates and have no minimum investment period.

⁽c) Transactions with preponderantly floating rates linked to the DI with minimum investment period of 90 days, after which the amount can be redeemed.

⁽d) Rates and terms not applicable.

at June 30, 2021

All amounts in thousands of reais, unless otherwise stated

The combined amount of the portfolio of securities managed by Sicoob DTVM comprises federal government and private securities, and totaled R\$ 37,279,170 at June 30, 2021 (R\$ 27,606,856 at December 31, 2020).

Total funds managed relating to combined investment funds amounted to R\$ 4,685,253 at June 30, 2021 (R\$ 4,173,990 at December 31, 2020).

The financial statements of the combined investment funds are audited annually by other auditors, for compliance with CVM's specific rules to which they must abide.

19.2. Agreements for offsetting payables against receivables with the same financial institution

As established by CMN Resolution 3,263/2005, Banco Sicoob has investments in financial institutions which allow it to offset payables against receivables held with these institutions. The amounts receivable and payable are stated in the balance sheet in the respective line items, under assets and liabilities.

19.3. Insurance (unaudited)

The System's assets are insured against risks at amounts deemed sufficient by Management to cover potential losses, taking into consideration the nature of its activities.

19.4. Employee benefits - Private pension plan

The credit unions that comprise Sicoob are sponsors of the Sicoob Private Pension Foundation (Sicoob Previ). At June 30, 2021, the contribution to Sicoob Previ totaled R\$ 7,872 (R\$ 8,205 at June 30, 2020).

19.5. Apportionment of Sicoob Confederation expenses

The expenses incurred by Sicoob Confederation are apportioned among Sicoob's credit unions, in accordance with policy established in 2017. The following expenses are eligible for apportionment:

- (a) Technology: expenses with depreciation and amortization, personnel, data processing, outsourced personnel, communication, technical services, security and others; and
- **(b) Other areas:** expenses with depreciation and amortization, personnel, administrative expenses, rentals and condominium fees, communication, technical services, and others.

Expenses apportioned between the System's members totaled R\$ 176,036 in the period (R\$ 161,917 at June 30, 2020), as shown in Note 17.2.

19.6. Profit sharing

Sicoob offers profit sharing to its employees, which is calculated in accordance with the Collective Labor Agreement. Up to June 30, 2021, profit sharing totaling R\$ 87,063 (R\$ 63,587 at June 30, 2020) had been accrued.

Note 20 - Operational limits - Basel Accord

In accordance with CMN Resolutions 4,192 and 4,193, both of 2013, financial institutions authorized to operate by BACEN must calculate and maintain reference equity (PR) consistent with the risks of its activities. Accordingly, each entity that comprises the System must comply with the provisions of these Resolutions.

at June 30, 2021

All amounts in thousands of reais, unless otherwise stated

Note 21 - Sicoob's centralized risk and capital management

21.1. Risk management

The risk management framework of Sicoob, which is performed on a centralized basis at Sicoob Cooperative Center (CCS), seeks to identify, measure, evaluate, monitor, report, manage, control and mitigate the risks inherent in its activities, based on established policies, strategies, processes and limits.

The institutional policy for the integrated risk and capital management, as well as the related guidelines are approved by the Board of Directors of CCS.

The integrated risk management covers, at least, the credit, market, interest rate variation, liquidity, operational, socio-environmental, and business continuity risks and ensures, on an ongoing and integrated basis, that the risks are managed in accordance with the levels defined in the Risk Appetite Statement (RAS).

The risk management process is segregated, and the organizational structure involved ensures specialization, representation, and rationality, with proper dissemination of risk management information and culture across the Institution.

The procedures in place ensure the timely reporting, to the governance bodies, of data relating to normal and atypical situations with respect to risk policies, as well as the application of stress tests to assess critical situations, which would require the adoption of contingency measures.

This centralized risk and capital management framework is consistent with the nature of the operations and the complexity of the products and services offered, as well as proportional to the extent of the Sicoob's entities exposure to risks and does not relieve the credit unions of their responsibilities.

21.1.1 Operational risk

The operational risk management guidelines are recorded in the Institutional Policy for Operational Risk Management, approved by the Executive Board and the Board of Directors, which defines consistent procedures, metrics and actions for all Sicoob's entities.

The operational risk management process consists of a qualitative and quantitative assessment of operational risks through stages involving identification, assessment, treatment, documentation, and storage of information on operational losses incurred and recovered, and the performance of tests on control, communication and information systems.

Operational losses are reported to the Operational Risk and Business Continuity Management (GCN) department, which interacts with the managers of the respective areas and formally identifies the causes of losses, adjusts the controls in place, and determines the need for improving processes, which may also require the implementation of new controls.

The results are submitted to the Executive Board and Board of Directors of CCS.

The capital allocation methodology used to compute the portion of operational risk (RWAopad) is the Basic Indicator Approach (BIA).

21.1.2 Credit risk

The credit risk management guidelines are outlined in the Institutional Policy for Credit Risk Management, approved by the Executive Board and the Board of Directors, which defines consistent procedures, metrics and actions for all Sicoob's entities.

at June 30, 2021

All amounts in thousands of reais, unless otherwise stated

The CCS is responsible for managing Sicoob's credit risk, by standardizing processes and methodologies intended to analyze the risk posed by counterparties and transactions, and monitoring the assets exposed to credit risk.

In order to mitigate such risk, the CCS makes use of risk analysis and rating models based on quantitative and qualitative data that support the risk calculation process and the establishment of credit limits for borrowers, with a view to maintaining the high quality of the portfolio. Periodic tests are performed on these models, ensuring their consistency with the economic and financial condition of the borrowers. The portfolio exposure to default, and the respective ratings assigned to the operations are also monitored, in accordance with CMN Resolution 2,682/1999.

The credit risk management framework requires the adoption of the following procedures:

- a) definition of policies and strategies, including risk limits;
- **b)** validation of systems, models and internal procedures;
- c) estimation (using consistent and prudent criteria) of losses associated with credit risk, and comparison between the estimated and actually incurred losses;
- d) specific monitoring of related-party transactions;
- e) procedures for monitoring loan portfolios;
- f) identification and treatment of troubled assets;
- **g)** systems, routines and procedures to identify, measure, assess, monitor, report, control, and mitigate the exposure to credit risk;
- h) monitoring and reporting of risk appetite limits;
- i) periodic submission of managerial information to the governance bodies;
- j) responsibility for calculating the level of the provision for expected credit losses;
- **k)** creation of models to assess the counterparty credit risk, according to the transaction and the public involved, which take into consideration specific characteristics of the borrowers, as well as industry-related and macroeconomic aspects;
- 1) application of stress tests intended to identify and assess the Institution's potential vulnerabilities;
- m) establishment of credit limits for each counterparty and overall limits by portfolio or credit line;
- **n)** specific risk assessment for new products and services.

Internal credit risk management standards include an organizational and regulatory structure, risk rating models for borrowers and operations, overall and individual limits, use of computer systems, and system-based monitoring to validate models and compliance of processes.

21.1.3 Market and interest rate risks

The guidelines for management of market and interest rate risks are recorded in the Institutional Policy for Credit Risk Management, approved by the Executive Board and the Board of Directors, which defines consistent procedures, metrics and actions for all Sicoob's entities.

Sicoob's framework for managing market and interest rate risks is consistent with the nature of its operations and the complexity of the products and services it offers, as well as proportional to the extent of the Sicoob's entities exposure to risks.

Sicoob's market and interest rate risks are managed by a specialized department, which ensures that risks are managed in accordance with the levels defined in the Risk Appetite Statement (RAS) and the guidelines provided for in the institutional policies and manuals.

The system adopted by Sicoob for measuring, monitoring and controlling market and interest rate risks is based on the use of widely known tools, which rely on the best risk management practices, and cover all the positions held by the Institution.

at June 30, 2021

All amounts in thousands of reais, unless otherwise stated

For the market risk portions in the trading portfolio RWAjur1, RWAjur2, RWAjur3, RWAjur4, RWAcam, RWAcom, and RWAacs, the methodologies used are based on regulations issued by the Brazilian Central Bank.

The interest rate risk of the banking portfolio (IRRBB) is managed through the use of good practices and consolidated assessment models, such as the economic value, income from financial intermediation, and value at risk approaches.

- a) Economic Value of Equity (EVE) approach: this methodology consists of assessing the effect of changes in interest rates on the present value of the cash flows of instruments included in the banking portfolio;
- **b)** Non-interest Income (NII)) approach: this methodology consists of assessing the effect of changes in interest rates on the result of financial intermediation included in the banking portfolio;
- c) Value-at-Risk (VaR) approach: estimates the maximum loss over a specific time horizon, under normal market conditions, and at a given confidence interval.

The monitoring of market and interest rate variation risks is carried out by means of periodical reports prepared by the specialized department and submitted to the governance bodies, committees, and senior management, which include, based on each Sicoob entity's profile, at least:

- **a)** the value at risk and the use of the banking portfolio's limit, under the economic value, financial intermediation result, and value at risk approaches;
- **b)** the value at risk and the use of the trading portfolio's limit, under the standardized approaches provided by the Brazilian Central Bank;
- c) an analysis of mismatches between asset and liability flows, segregated by maturity and risk factors;
- d) a sensitivity analysis to assess the impact on the market value of the portfolio's cash flows when subject to a parallel increase of one (1) basis point in the yield curve;
- e) result of the embedded gains and losses (EGL);
- f) stress tests;
- g) test of adherence to the risk measurement methodologies; and
- h) a contingency plan.

In addition, stress tests are performed on the banking and trading portfolios to assess the risk sensitivity to stress scenarios.

The mismatch between current assets and current liabilities, in the combined balance sheet, totaling R\$ 48.4 billion at June 30, 2021, does not pose any risk to the System in view of the following: i) 34.32% of non-current assets consist of highly liquid federal government securities; ii) 55.47% of the deposits is obtained through Credit Union Deposit Receipts (RDCs) from members of the credit unions; and iii) tests conducted periodically show the stability/renewal of short-term liabilities.

21.1.4 Liquidity risk

The liquidity risk management guidelines are recorded in the Institutional Policy for Financial Centralization Management and Institutional Policy for Liquidity Risk Management, approved by the Executive Board and the Board of Directors, which define consistent procedures, metrics and actions for all Sicoob's entities.

The liquidity risk management framework of Sicoob is consistent with the nature of its operations and the complexity of the products and services it offers, as well as proportional to the extent of its exposure to risks.

at June 30, 2021

All amounts in thousands of reais, unless otherwise stated

Sicoob's liquidity risk is managed by a specialized department, which ensures that the entities' risk is managed in accordance with the levels defined in the Risk Appetite Statement (RAS) and with the guidelines provided for in the institutional policies and manuals.

The liquidity risk management of Sicoob's entities complies with the aspects and standards set out by the regulatory authorities and are constantly improved and aligned with good management practices.

The following procedures are used to manage liquidity risk:

- **a)** monitoring, through periodic reports submitted to the governance bodies, committees and senior management, addressing at least:
 - minimum liquidity limit;
 - projected cash flow;
 - application of stress scenarios;
 - definition of contingency plans;
- **b)** performance of tests to assess the liquidity risk control systems;
- c) preparation of reports that allow for the timely identification and correction of control weaknesses and management of liquidity risks;
- **d)** preparation of a contingency plan containing the strategies to be adopted to ensure the continuity of activities and limit losses arising from liquidity risks.

Quarterly stress tests are performed for various scenarios, with a view to identifying any deficiencies and atypical situations that could compromise the liquidity of Sicoob's entities.

21.1.5 Social and environmental risk

The guidelines for social and environmental risk management are set out in the Institutional Policy for Socio-Environmental Responsibility (PRSA), approved by the Executive Board and the Board of Directors, which defines consistent procedures, metrics and actions for all Sicoob's entities.

For the eligibility of operations, the process of socio-environmental risk management includes the evaluation of potentially negative socio-environmental impacts, including in relation to reputational risk, such as:

- a) sectors at greater exposure to socio-environmental risk;
- b) credit lines and borrowing facilities at greater exposure to socio-environmental risk; and
- c) amount of debt balance in lending operations at greater exposure to socio-environmental risk.

The proposals of counterparties fined for environmental crimes are reviewed by a specific approval level.

Sicoob does not carry out transactions with counterparties included in the list of employers that have subjected workers to slavery-like conditions, or exploited child labor.

21.2. Business continuity management

The business continuity management guidelines are recorded in the Institutional Policy for Business Continuity Management, approved by the Executive Board and the Board of Directors, which defines consistent procedures, metrics and actions for all Sicoob's entities.

The process of business continuity management requires the performance of the following activities:

- a) identification of the possibility of stoppage of activities;
- **b)** assessment of the results and consequences (potential impacts) to the entity that may arise from the stoppage of activities;

at June 30, 2021

All amounts in thousands of reais, unless otherwise stated

- c) definition of the strategy of recovery in the event of incidents;
- **d)** planned continuity of operations (assets, including people, processes and systems), involving procedures for the periods before, during and after the stoppage; and
- e) transition between the contingency and the resumption of the normal course of business (end of the event).

The Impact Analysis (AIN) is performed by CCS with the aim to identify the system's critical processes and define strategies for their continuity, in order to protect the organization from prolonged interruptions that could threaten business continuity. This analysis is based on financial, legal, and reputation impacts.

Business Continuity Plans are prepared annually and include the key procedures to be performed to ensure the maintenance of activities in the event of contingencies. These Plans are classified into: Operational Continuity Plan (OCP), and Disaster Recovery Plan (DRP).

The effectiveness of the Business Continuity Plans is tested annually.

21.3. Capital management

Capital management Sicoob's entities is an ongoing forward-looking process that aims to assess the institutions' capital requirements, considering Sicoob's strategic goals for a minimum time horizon of three years.

The guidelines for ongoing monitoring and control of capital are included in Sicoob's Institutional Policy for Capital Management, to which all the Sicoob members have formally adhered.

The capital management process relies on a set of methodologies that enable the Sicoob Cooperative Center to identify, assess, and control major exposures, so as to maintain a capital level compatible with the risks incurred by Sicoob's entities. A specific capital plan in place provides for capital targets and forecasts that consider the strategic goals, the main sources of capital and the contingency plan. Additionally, severe events and extreme market conditions are simulated, and the related results and impacts on the capital framework are submitted to the Executive Board and Board of Directors.

Note 22 - Supplementary information

22.1. Change in the corporate name of Banco Cooperativo do Brasil S/A - Bancoob and subsidiaries

As a result of the restructuring process involving the third-level entities, and in view of the strategic repositioning and strengthening of the Sicoob brand, the corporate name of Banco Cooperativo do Brasil - S/A - Bancoob was changed to Banco Cooperativo Sicoob S/A - Banco Sicoob.

For these same reasons, Bancoob DTVM, Bancoob PAR, and Cabal Brasil Ltda. also had their names changes to Sicoob DTVM, Sicoob PAR, and Sicoob Pagamentos, respectively.

22.2. Effects of the COVID-19 pandemic

In 2020, the global economy was adversely affected by COVID-19, which was declared to be a pandemic by the World Health Organization (WHO).

Sicoob implemented measures to manage operations and provide support for the employees, associates and communities, and monitors, on a permanent basis, potential impacts of the pandemic that may affect its operations and results. In addition to the actions of regulatory and governmental entities to promote the safety of its people and organizations. Sicoob's Crisis Committee and Crisis Group

at June 30, 2021

All amounts in thousands of reais, unless otherwise stated

was mandated to monitor the effects of the pandemic, assessing its effects and impacts on operations, and providing the System's institutions with strategic, operational, and business guidance, among others. The following are highlighted:

- Creation of the Sicoob Crisis Committee to handle this matter effectively, ensuring a uniform approach and timely dissemination of information to internal and external audiences.
- Prioritizing working from home.
- Provision of ongoing guidance specific to employees working from home, on how to conduct operations and assistance to the credit union members.
- Holding of virtual General Shareholders' Meeting and support for the credit unions to hold virtual Extraordinary Shareholders' Meetings;
- Search for tools to support the work from home needs;
- Suspension of all air travels.
- Replacement of in-person meetings with video conferences.
- Enhanced cleaning of the environments and areas.
- Encouragement of the use of digital tools and channels to access services on the Internet or cell phones.
