Sistema de Cooperativas de Crédito do Brasil -Sicoob

Combined financial statements at December 31, 2023 and independent auditor's report

(A free translation of the original in Portuguese)

Independent auditor's report

To the Management and Members Sistema de Cooperativas de Crédito do Brasil - Sicoob

Opinion

We have audited the accompanying combined financial statements of Sistema de Cooperativas de Crédito do Brasil - Sicoob ("Sistema Sicoob" or "Institution"), consisting of the entities listed in Notes 2.5 and 2.6, which comprise the combined balance sheet as at December 31, 2023 and the combined statements of income, comprehensive income, changes in equity and cash flows for the year and six-month period then ended, and notes to the combined financial statements, including the significant accounting policies and other explanatory information.

In our opinion, the combined financial statements referred to above present fairly, in all material respects, the combined financial position of Sistema de Cooperativas de Crédito do Brasil - Sicoob as at December 31, 2023, and its combined financial performance and cash flows for the year and six-month period then ended, in accordance with the guidelines for the preparation of combined financial statements established by Resolution 4,151 of the National Monetary Council CMN, dated October 30, 2012, and the additional regulations issued by the Brazilian Central Bank (BACEN), whose main criteria and accounting practices are described in Notes 2 and 3.

Basis for opinion

We conducted our audit in accordance with Brazilian and International Standards on Auditing. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the combined financial statements section of our report. We are independent of the Institution in accordance with the ethical requirements established in the Code of Professional Ethics and Professional Standards issued by the Brazilian Federal Accounting Council, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of matter - Basis of preparation of the combined financial statements

We draw attention to Note 2 to the combined financial statements, which describes that the Institution's combined financial statements were prepared by management in order to meet the requirements of CMN Resolution 4,151/2012, as well as BACEN's additional regulations. Consequently, our report on these combined financial statements was prepared, exclusively, to meet these specific requirements and, therefore, may not be suitable for other purposes. Our opinion is not modified in respect of this matter.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the combined financial statements for the current year. These matters were addressed in the context of our audit of the combined financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Why it is a key audit matter

How the matter was addressed in the audit

Provisions for expected losses associated with credit risk (Notes 3.8, 6.3.2, 6.3.3 and 21.1.2)

The estimate of the provisions for expected losses associated with credit risk involves significant internal controls for the calcular and recognition of the provisions for expected realization of the loan portfolio based on past experience, current scenario and future expectations and specific risks of the loan portfolios.

We updated our understanding of and test significant internal controls for the calcular and recognition of the provisions for expectations associated with credit risk of Banco Cooperativo Sicoob S.A., mainly: (i) approximately approxim

The provisions for expected losses associated with credit risk are recorded in accordance with the regulatory requirements of the National Monetary (v) processing and recording of provision (vi) reconciliation of account balances we analytical position; and (vii) preparation notes to the combined financial stateme Resolution 2,682, and are based on the analyses of outstanding receivables (past due and not yet due).

Accordingly, this area remained as an area of focus in our audit, since the use of judgment in the calculation of the provision for expected losses associated with credit risk could result in significant variations in its estimate.

We updated our understanding of and tested the significant internal controls for the calculation and recognition of the provisions for expected losses associated with credit risk of Banco Cooperativo Sicoob S.A., mainly: (i) approval of the credit policy; (ii) credit analysis; (iii) credit granting and renegotiated transactions; (iv) attribution of rating considering the risk of the recoverable amount of transactions; (v) processing and recording of provisions; (vi) reconciliation of account balances with the analytical position; and (vii) preparation of the notes to the combined financial statements.

We conducted tests to verify the integrity of the database used to calculate the provisions for expected losses associated with credit risk, in addition to tests to verify the application of the calculation methodology for these provisions in relation to the ratings attributed, the assumptions adopted, as well as the comparison of the account balances with the analytical reports.

Additionally, the audit procedures in relation to provisions for expected losses associated with credit included the communication and sending instructions to the auditors of the Sistema Sicoob entities, and audited by other independent auditors, on a sample basis, with the aim of discussing the audit risks identified, the focus, scope and timing of the work. Therefore, we analyze the communications and reports received from these auditors and discuss the procedures performed and the results achieved.

Why it is a key audit matter

How the matter was addressed in the audit

We consider that the criteria and assumptions adopted by Management to determine and record provisions for expected losses associated with credit risk are reasonable and consistent with the information analyzed in our audit.

Provisions for contingent liabilities (Notes 3.19 and 13)

The institutions comprising the Sistema Sicoob are party to tax, labor and civil proceedings, at the updating of our understanding and tests related administrative and judicial levels, resulting from their normal course of business.

The determination of the likelihood of loss involves judgment by management, which counts on the support of its internal and external legal advisors.

In general, these proceedings are only concluded after a lengthy period and involve not only discussions on merits, but also complex procedural aspects, in accordance with applicable legislation.

The decision to recognize a contingent liability and the measurement bases require the judgment Additionally, we performed confirmation of management, which is periodically reassessed, including when preparing the financial statements, and considering new events. This matter remained as an area of focus in our audit.

Our audit procedures included, among others, the to the identification, the recognition of contingent liabilities and their disclosures in the explanatory notes to the combined financial statements.

The audit procedures in relation to provisions for contingent liabilities included communicating and sending instructions to the auditors of the Sistema Sicoob entities, and audited by other independent auditors, on a sample basis, with the aim of discussing the audit risks identified, the focus, scope and timing of the work. Therefore, we analyze the communications and reports received from these auditors and discuss the procedures performed and the results achieved.

procedures with the legal advisors responsible for accompanying the judicial and administrative proceedings, on a sample basis, to confirm the assessment of the loss prognosis, including considering the main new events that occurred in the period, the completeness of information and the value of provisions, comparing with the analytical reports that originate the accounting balances.

We consider that the criteria and assumptions adopted by management to determine and record the provisions for contingent liabilities are reasonable and consistent with the information analyzed in our audit.

Information technology environment

Banco Cooperativo Sicoob S.A. has a business environment that is highly dependent on technology, requiring a complex infrastructure to support the high volume of transactions processed daily by its several systems.

With the assistance of our system experts, we reviewed our evaluation of the design and tested the operating effectiveness of the internal controls related to the management of the information technology environment.

Why it is a key audit matter

The risks inherent to information technology, associated with the processes and controls that support the technology systems, in view of the legacy systems and existing technology environments, may result in the incorrect processing of critical information, including those used for the preparation of the Combined financial statements. This matter remained an area of focus in our audit.

How the matter was addressed in the audit

Our audit procedures comprised a combination of control tests of the key processes related to information security, the development and maintenance of systems, and the operation of computers related to the infrastructure that supports the Banco Cooperativo Sicoob S.A. and its subsidiaries.

As a result of our work, we consider that the technology environment processes and controls provided a reasonable basis to determine the nature, period and extent of our audit procedures for the financial statements.

Other information accompanying the combined financial statements and the auditor's report

The Institution's management is responsible for the other information that comprises the Management Report.

Our opinion on the combined financial statements does not cover the Management Report, and we do not express any form of audit conclusion thereon.

In connection with the audit of the combined financial statements, our responsibility is to read the Management Report and, in doing so, consider whether this report is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement in the Management Report, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the combined financial statements

Management is responsible for the preparation and fair presentation of the combined financial statements in accordance with CMN Resolution 4,151/2012, as well as BACEN's additional regulations, the main criteria for which and respective accounting practices are described in Notes 2 and 3 to the combined financial statements, and for such internal control as management determines is necessary to enable the preparation of combined financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the combined financial statements, management is responsible for assessing the Institution's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Institution or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Institution's financial reporting process.

Auditor's responsibilities for the audit of the combined financial statements

Our objectives are to obtain reasonable assurance about whether the combined financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Brazilian and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these combined financial statements.

As part of an audit in accordance with Brazilian and International Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the combined financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Institution's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Institution's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the combined financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Institution to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the combined financial statements, including the disclosures, and whether these financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the combined financial statements.
 We are responsible for the direction, supervision and performance of the Sistema Sicoob audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current year and are

therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

December 31, 2023

(A free translation of the original in Portuguese)

To the Managers and Members of Sicoob

We are pleased to present the Combined Financial Statements of Sistema de Cooperativas de Crédito do Brasil – Sicoob as at December 31, 2023, which discloses the highlights of its performance and the significant events during the year.

Macroeconomic scenario

In 2023, the global landscape was significantly influenced by the reversal of the inflationary shock. This shift was primarily attributed to the implementation of tightened monetary policies by major central banks, which extended until the middle of the year. These measures played a crucial role in tempering inflationary pressures on a global scale. Notably, the two largest economies, the US and China, demonstrated robust performance throughout the year. Meanwhile, Brazilian growth surpassed expectations for the third consecutive year, driven especially by the agribusiness sector.

Domestic economic activity performed well, with a 2.9% GDP increase. The agribusiness sector emerged as a standout performer, propelled by robust grain harvests and a rebound in beef production. Household consumption experienced growth, while gross fixed capital formation saw a decline. Despite maintaining positive figures, the labor market exhibited less momentum compared to the previous year.

With respect to the credit sector, concessions remained stable, with noteworthy attention on debt renegotiations spurred by the "Desenrola Brasil" program. Delinquency rates gradually decreased from July onwards. In the capital market, domestic issuances decreased overall, except for the growth of hybrid funds.

Inflation as measured by the IPCA slowed down to 4.6% in 2023, and the General Market Price Index (IGPM) registered deflation of 3.2%, reversing previous pressures. Brazilian Central Bank started to gradually reduce the Selic rate, which ended the year at 11.75%. The local fiscal scenario worsened, with the Central Government running a deficit of R\$230.50 billion, as a result of increased expenditures and reduced revenue.

The external accounts were positive, achieving a record surplus in the trade balance. The global scenario was marked by the end of monetary tightening cycles in the US and the Eurozone, with international markets displaying an appetite for risk, particularly in the S&P 500. In Brazil, after an initial bout of volatility, assets improved following the approval of the fiscal framework, which led to an upgrade in the sovereign rating. The US dollar was down, and the Ibovespa was up 22.2%.

In summary, the positive trend in the Brazilian economy persisted in 2023, despite the challenges. Government actions and political stability contributed to the recovery of assets, while at the global level, the focus remained on inflation and the end of monetary tightening cycles.

December 31, 2023

Sicoob

Sicoob is part of the largest credit union system in Brazil, with over 7,773,028 members and 4,609 service units spread throughout the Brazilian territory. The system is comprised of credit unions and supporting companies, which, together, provide the Sicoob members with services related to current account, credit, investment, credit card, social security, consortium, insurance, bank collection, and acquiring operations by electronic payment means. Despite not being a bank, Sicoob provides the same services as banking networks, operating as a financial credit union owned by the clients themselves, who therefore, share the results, either direct or indirectly, since part of these earnings is earmarked for community projects.

Performance

a. Total assets

In December 2023, total assets reached R\$ 298.4 billion, a growth of 25.6% when compared to December 31, 2022, mainly driven by lending operations and investments in marketable securities.

b. Loan portfolio

The loan portfolio net of provision reached R\$ 158.8 billion, a significant increase of 13% in relation to December 2022. Loans and discounted bills grew by 14,5%, with a total portfolio of R\$ 96.9 billion. Financing increased by 8.6%, totaling R\$ 22.3 billion. The balance of rural and agribusiness financing totaled R\$ 48.1 billion at the end of the six-month period, while the provisions increased by 34.8%, totaling R\$ 9.4 billion.

c. Expanded loan portfolio

The expanded loan portfolio, which includes credit card operations, guarantees and sureties honored, receivables on purchase of assets, and other receivables, totaled R\$ 171,7 billion, net of provision, displaying a 13.6% increase in relation to December 2022.

d. Credit cards

The card issuance segment of Banco Sicoob, comprising cards issued by Sicoob and other credit union systems, reached 11.80 million cards issued at the end of 2023. The expansion of the card base through partner credit union systems accounted for approximately 16% of total operations.

The volume of purchases with cards increased by 16% in relation to 2022, reaching R\$ 105.24 billion. Considering only transactions carried out using the credit function, the volume reached R\$ 60.53 billion.

e. Acquiring operations

In 2023, acquiring operations, which combine the Sicoob customer base and those of partner systems, recorded an increase of 47.70% in the number of authorized licensees of the Sipag card machine when compared to 2022.

The higher number of establishments in the customer base increased the accumulated revenue to R\$45.59 billion, or a year-on-year growth of 11.47%.

December 31, 2023

f. Funding transactions - Deposits, LCA and LCI

Total deposits amounted to R\$ 182.3 billion in the year, up 23.3% when compared to the R\$ 147.9 billion recorded at the end of last year. This result reflects the high confidence level of credit union members in the System's management. Time deposits (Bank Deposit Certificates (CDBs) and Credit Union Deposit Receipts (RDCs)) increased by 24.4%, from R\$ 89.3 billion in December 2022 to R\$ 111.1 billion in December 2023. The funds raised with Agribusiness Credit Notes (LCAs) and Real Estate Credit Notes (LCIs) also grew by 52.1%, from R\$ 26.0 billion in December 2022 to R\$ 39.6 billion in December 2023.

g. Equity

Equity totaled R\$ 46.1 billion on December 31, 2023, an increase of 21.3% over last year. This increase was mainly due to the higher share capital and the formation of reserves.

h. Surplus

Surplus for the year, deducted from interest on equity in the amount of R\$1.9 billion, totaled R\$6.4 billion on December 31, 2023, up 15.2% compared to the R\$5.6 billion recorded at the end of 2022.

Increase in the number of Sicoob members

During the year, the number of Sicoob members grew by approximately 12%, with over 1.2 millions new members, a clear demonstration of society's interest in alternatives to the traditional banking system. The number of members that are legal entities reached 1,544,861, accounting for 20% of Sicoob's membership base.

Sicoob provides its members with a wide service network, featuring 4,609 branches in 2,382 Brazilian municipalities. It should be noted that in 401 of these municipalities, Sicoob is the only financial institution in operation, with full assistance to the general public (comfortable premises, open from Monday to Friday, offering all products and services and providing personal support). Service is also available through 7,881 Electronic Service Units (PAEs) owned by the Institution, and over 24 thousand ATMs shared with the Banco24Horas Network.

The opening of new accounts has been simplified and made available through the Bank's digital channels. New associations now benefit from a faster mechanism, which reduces the time between the application for opening an account and the full use of the new account. In 2023, Sicoob's digital channel - Sicoob App received approximately 285,000 associations.

The set of deliveries in 2023 increased the volume of transactions carried out by members on Sicoob's service channels, recording a 19% growth over the previous year. Over the past five years, the compound annual growth rate of transactions carried out through Sicoob's service channels has been of 40% per year. Of the more than 17 billion transactions recorded in 2023 (over 14 billion in 2022), approximately 95% were carried out on digital channels (cell phone and Internet banking), and approximately 5% on traditional channels (Cashier, ATMs, and correspondent banks). In the annual comparison, digital channels increased by 1.34% in relation to 2022, reflecting the System's technological advances, particularly in terms of usability and security, in line with the trends in the financial market.

December 31, 2023

The Sicoob App, which continued to be the preferred channel for the system members to access the credit union products and services, accounted for 83% of the transactions, up 2.1% over 2022. This scenario generates system efficiency gains, by avoiding expenditures on structures and administrative costs, as the average unit cost of transactions through digital channels is lower than that of in-person channels. The growing preference for the Sicoob App stems from the user behavior shift towards digital platforms, as well as from the high acceptance of the application, which continues to be one of the best rated in the financial market, scoring 4.8 at both the Apple Store and the Play Store.

The number of card transaction authorizations increased by 13.58%, from 722 million to more than 820 million transactions.

The increasing use of Pix (Brazilian instant payment method) by credit union members reached 1.3 billion transactions in 2023, accounting for a financial volume of approximately R\$ 1.3 trillion. These figures confirm Sicoob's successful initiative of providing the credit unions and their members with a secure, easy, and convenient access to Pix.

The fact that digital channels continue to take space from traditional channels reflects the greater confidence placed in Sicoob and the technological solutions offered by its Digital Platform for Financial Services - Sisbr, as well as the credit unions' efforts to provide their members with guidance on how to better use the products and services available.

Information Technology and Digital Transformation

Technology has been one of the cornerstones of digital transformation and innovation at Sicoob, which allocated more that R\$ 814 million for this purpose in 2023, being R\$229 million for investments and R\$585 million for operational costs. This allowed not only the growth of business but also the increase in operational efficiency, the expansion of cybersecurity, risk management, and the development of new products and services, enabling more people to benefit from the advantages offered by credit unions.

Several challenges had to be faced during the year, starting with ensuring the stability of our technological environment, which is key to our operations. Thanks to the efforts and dedication of our teams, and the investments made by the credit unions, we not only overcame these challenges, but achieved high levels of availability, performance, and quality at Sicoob's Digital Platform for Financial Services (Sisbr).

On the other hand, countless new solutions have been included in the various Sisbr modules and Sicoob's service channels, always giving priority to the business expansion and security, and to an improved experience for our members and employees. Furthermore, we continued involved in the major transformations that the financial system has undergone in recent years, of which Pix and Open Finance are the main examples.

We took on the challenge of insourcing acquiring operations, which proved to be a great success. Sispag 2.0 has been attracting significant attention from our members, who recognized its reliability and viewed the new business model as an opportunity to benefit from this important solution.

Among the several deliveries made in 2023 in Sicoob's main business line (lending operations), the following stand out: the launch of the new BNDES Platform; improvements made to the Rural Credit Platform and Agribusiness Digital Credit, which have helped Sicoob become one of the main

December 31, 2023

agribusiness financing agents in Brazil; the launch of CPR-F; the credit contracting on digital channels, with the anticipation of resources from the FGTS anniversary withdrawal; and the availability of Digital Vehicle Credit for legal entities on Sicoob App. Sicoob also announced its participation in the "Desenrola Brasil" program, a Federal Government initiative that aims to help the Brazilian population "get rid of debts" by facilitating the payment of amounts due to financial organizations.

Sicoob's Investment Platform was enhanced with the launch of the Home Broker product, which enables trading in shares and other financial assets listed on the Bolsa Brasil Balcão (B3) directly through digital channels.

In the Foreign Exchange business line, the launch of the International Transfer product makes it possible for individual cooperative members to send and receive funds to and from abroad, as well as to track and check the history of their transactions via Sicoob App.

The Commercial Panel, a tool used by the sales team, has been improved and now has a complete overview of members' financial status, both in the credit union and in the financial market, through the integration with the Open Finance system. Our Digital Service Platform has been relaunched, now more robust, integrated with Alice, our virtual assistant, and the WhatsApp corporate channel, which also allows transactions to be made using Al.

The MOOB App has consolidated its position as the credit unions' institutional digital communication channel with their members. Furthermore, it has made attendance at meetings more accessible by broadcasting AGMs and EGMs and has enabled members to vote on issues that are relevant to setting the current and future agenda for credit unions.

Sicoob has been at the forefront of *Open Finance* by addressing all regulatory issues and leveraging on the solution's scalability to make important innovations available to its members. After the financial aggregator, we launched the smart onboarding, an open finance feature that enables the digital association of new members; we also became the first credit union to be approved as a Payment Transaction Initiator (ITP), making it possible for our clients to transfer money via Pix between accounts of different institutions.

We have reached a significant milestone in innovation and improvement of the financial services offered to our members, by making intelligent use of the data shared on *Open Finance* and making the app "Minhas Finanças" available. A centralized view of our members' finances, including details of current account and card transactions, can now be found in a single place. All these advances lead to a more efficient and personalized financial management, tailored to meet the needs of each credit union member. The journey of investment data sharing in line with the new phase of Open Finance is also available.

The contactless technology, which allows purchases to be made by simply tapping the card on a machine, has also experienced significant growth. Our members made more than 109 million transactions using this feature, a growth of more than 71% and a turnover of approximately R\$ 11 billion.

December 31, 2023

Building solutions for the present with an eye on the future, we made available the New Developers Portal, which has enabled the generation of digital businesses by thousands of our members who have integrated their solutions to Sicoob, through APIs, thus creating a fluid, fast, dynamic and safe connection for carrying out financial transactions.

With a view to further improving the experience of our members in the digital environment, the Super App Sicoob was launched. This is a cutting-edge, user-friendly and intuitive application that allows members to manage their financial life in a single application, which consolidates a range of solutions under the "beyond banking" concept. The young generation was also targeted, with the launch of the Digital Association and the customization of the Super App for children and teenagers up to the age of 17.

Cybersecurity continued to be a priority for Sicoob. The implementation of a new layer of protection in the Super App, featuring algorithms that generate alerts and protect members against fraud and electronic scams, was one of the most noteworthy initiatives. Banco Sicoob was one of the first financial institutions to join the new service for blocking stolen cell phones developed by the Ministry of Justice and Public Security (MJSP), known as "Celular Seguro" [Safe Cell Phone]. In 2023, we established in 2022, our Security Operation Center (SOC), which was designed to operate both preventively and proactively, monitoring the CCS cyber environment, focused on safeguarding the assets of our organization, and ensuring data security and protection. We also launched the Systemic Risk Management and Cybersecurity Project, which aims to raise the credit unions' maturity level in this important area.

In line with the IT Capacity Plan, the main components of the infrastructure that processes Sisbr transactions related to service channels, backoffice solutions, and payment means were improved and expanded to ensure better performance, quality and availability of operations. We have made significant progress in our cloud journey by migrating 100% of our analytics solution to our main cloud partner. This transition allows for greater scalability and paves the way for innovation and agility in new developments.

In setting out the strategy for the future, we approved the new IT Plan for the period 2024 to 2026, aligned with Sicoob's Systemic Strategy Pact, bearing in mind the mission of making Sisbr's technological platform increasingly fast, connected and intelligent. We remain focused on streamlining our technological solutions, with the migration of applications to Sisbr 3.0, the creation of other credit lines, products and solutions (Credit Assignment, FIDC, Astec Digital, Anticipation to Suppliers, Finep); on improving our own acquiring operation (Sipag 2.0); on the automation of the Shared Services Center (CSC); on the evolution of the Bank Collection process; on the regulatory agenda of PIX, Open Finance and Drex; on the launch of the new Internet/Office Banking; on the further development of payment and receipt means; on the automation of manual processes in the credit unions; on the development of products and services for the benefit of our members; on digital transformation; and, above all, on improving the experience of members and employees in their use of technological solutions.

December 31, 2023

Awards

In recognition for being constantly aligned with the main industry trends and in search of innovations and technological advances to deliver greater comfort to its members, the bank was awarded major prizes in 2023, namely:

Forbes' ranking of Best Financial Institutions

• In 2023, Banco Sicoob was voted as the third best financial institution in the World's Best Banks ranking, one of the most respected lists in the corporate world, created by Forbes in partnership with the market research company Statista. A total of 415 institutions were evaluated, based on a public survey, considering the opinions of 48,000 people from 32 different countries. The evaluation criteria include aspects such as customer service, digital services, financial advice, and trust in institutions.

LinkedIn Talent Awards

• In March 2023, Sicoob was acknowledged by LinkedIn Talent Awards as one of the three best companies in Brazil in the "Best Employer Brand" category". The awarding process involved more than 5,000 clients of LinkedIn solutions in Brazil, and awarded those with an attractive and engaging employer brand and a comprehensive Career Page. Metrics such as engagement, outreach and the completion of the "day to day" tab were used.

"Estadão Finanças Mais" Award

 In October 2023, Sicoob was ranked first in the Banks - Financing category at the 7th edition of the "Estadão Finanças Mais" award. In addition, Sicoob stood out in the Forbes awards, scoring 3rd place among the best financial institutions in Brazil. In "Valor 1000", a special edition published by the magazine Valor Econômico, Sicoob reached the Top 10 in the category of Brazil's 100 largest banks.

Banking Transformation Award

• In December 2023, Sicoob was acknowledged as Bank of the Year, the highest accolade in the 19th edition of the Banking Transformation Awards, organized by Cantarino Brasileiro (a communication agency dedicated to the financial sector). Sicoob was also awarded recognition in two other categories: as the best Embedded Finance solution, with the Sicoob Developers Portal; and secondly, for the quality delivered in the Client Service category, which placed the case Anticipation of Receivables - Sicoob App among the finalists.

Sicoob participated in the 49th edition of CONARH (the largest Human Resources event in Latin America), with an entourage made up of 180 people management professionals from different parts of Brazil.

Sicoob was finalist for the ABBC Award, with the presentation of the Sicoob App's protection package against scams, and took part in several events focused on cybersecurity, such as the Exercise Cyber Guardian 5.0, organized by the Cyber Defense Command (ComDCiber) of the Brazilian Armed Forces; SANS Community Night; the IBM Resiliency Experience; and the Misp Workshop, always in search of innovation and protection for its members.

December 31, 2023

In addition, Sicoob is included in the Brazilian Central Bank's list of large and medium-sized financial institutions, payment institutions, credit unions, public banks, crypto asset service developers, financial market infrastructure operators and payment arrangement providers selected to take part in the pilot project for the Digital Brazilian Real, the new digital currency model under study by the Central Bank. The consortium formed by Sicoob and other credit union systems issued tokens for the Brazilian digital currency named Drex, under the Brazilian Central Bank's pilot program.

New agreements

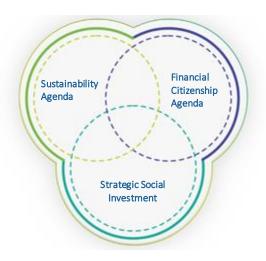

In 2023, new corporate agreements for the collection of bar-coded invoices/payment slips and direct debits were signed, totaling 909 partnership agreements. Among the new agreements, following should be highlighted: SEFAZ PI, SEFAZ RR, DETRAN MS, SEFAZ BA (GNRE), SABESP Olímpia SP, COSANPA PA, Municipal Government of Guarujá SP, Municipal Government of Maceió AL, Municipal Government of Giruá RS, Municipal Government of Juscimeira MT, Municipal Government of Toledo PR, Municipal Government of Itumbiara GO, Municipal Government of Rio Branco AC, SAAE Baixo Guandu ES, and SAAE Oliveira MG.

The portfolio of agreements, which is highly relevant to the National Financial System (SFN), is available to Sicoob's credit unions, as well as to other systems and banking institutions.

Citizenship and Sustainability

In the Systemic Strategic Planning (2020/2030) and in the Systemic Strategy Pact (2021/2023), the "Citizenship and Sustainability" aspect reflects the challenges faced to fulfill the Bank's purpose, and to positively enhance the economic, social and environmental impact on the credit unions and the communities in which Sicoob operates, through cooperative education, financial citizenship, and sustainable development of the business and the society.

To ensure that these challenges are effectively tackled, the Sicoob Cooperative Center (CCS) has a "Citizenship and Sustainability" department, responsible for managing three agendas that are relevant to the business and the stakeholders: Sustainability Agenda, Financial Citizenship Agenda and Strategic Social Investment/Sicoob Institute.

December 31, 2023

Sicoob Sustainability Agenda

The financial sector plays an essential role in the process of raising and allocating capital in support of a more sustainable economy. The Brazilian Central Bank - aligned with the global sustainability agenda, and in concert with other central banks and best practices - has inserted the topic in its strategic agenda, as one of the five dimensions of the BC# Agenda, and has developed, over the recent years, a series of specific measures and standards, with emphasis on CMN Resolution 4,945/2021¹ and BCB Resolution 139/2021².

The Sicoob Sustainability Agenda, a corporate project aimed at fostering sustainable practices in the organization, was established in order for Sicoob to comply with its role as a promoter of sustainable practices. Within the scope of the project, significant deliveries have been made since 2022, such as, for example, the creation of the <u>Sustainability Committee</u>; preparation of the <u>Sustainability Plan</u>; publication of <u>Commitments</u> with Sustainable Development; and publication of the Social, Environmental and Climate Responsibility Policy – <u>PRSAC</u> (CCS Resolution 125/2022).

In 2023, Sicoob implemented the Sustainability Plan in all central credit unions and the Sicoob Cooperative Center (CCS). This initiative, which aimed to foster engagement and commitment to the Plan, was conducted through workshops coordinated by the Citizenship and Sustainability department, in partnership with the Finance and Integrated Risk Management departments. These events were also meant to raise awareness about sustainability among the leaders and professionals of the central credit unions. Afterwards, the credit unions received individual guidance on how to improve the Plan drawn up at the workshops.

A document that underpins <u>Sustainability Plan</u>, presenting its objectives, background and design process, was disclosed by Sicoob.

With a view to providing transparency to the strategies and actions taken to manage these risks, Sicoob also published the Report on Social, Environmental and Climate-related Risks and Opportunities (GRSAC)

The CCS Governance function has approved the institutional sustainability indicators, consisting of 40 indicators that monitor Sicoob's performance in its seven material sustainability topics. These indicators are reported to the CCS governance bodies every six months.

The Sicoob Greenhouse Gas (GHG) Inventory Project was submitted to the Brazilian Central Bank with the purpose of mapping the climate impacts of the Institution's activities. This project, in line with Official Letter 21014-2023-BCB-DESUC, will be implemented in 2024, using 2023 as the baseline. To ensure feasibility, a working group has been set up in the CCS.

In order to keep central and individual credit unions informed about new developments related to sustainability, 16 editions of the monthly newsletter "*Papo Sustentável*" [Sustainable Chat] were published.

Sicoob was an active player at COP28, where the Director of Systemic Coordination and Institutional Relations attended ceremonies to celebrate important commitments, such as the Amazon Finance Network (IDB/IFC) and the Brazilian Philanthropy Commitment on Climate Change (GIFE).

¹ Provides for the Social, Environmental and Climate Responsibility Policy (PRSAC).

² Provides for the Social, Environmental and Climate Responsibility Policy (PRSAC).

December 31, 2023

During the event, we also contributed to the Panel Credit Unions Allied with Environmental Sustainability and Food Security, organized by the OCB System and Apex, which stressed the role of the Credit Union System in the sustainability agenda.

Last but not least, Sicoob's 2022 Sustainability Report was chosen as a best practice in the areas of Thoroughness, Alignment, Sustainability Governance and Strategy by the World Business Council for Sustainable Development (WBCSD), in collaboration with the Brazilian Business Council for Sustainable Development (CEBDS) and the Report Group. This acknowledgment underscores the Institution's commitment to providing a comprehensive and collaborative view of its sustainable practices, consolidating its leading position in the corporate responsibility arena. The accolade was officially published in the final edition of Reporting Matters, (RELATORIO Reporting Matters CEBDS.pdf), evidencing Sicoob's ongoing commitment to transparency and excellence in sustainable reporting.

<u>Sicoob Sustainability Report</u>, which has been complying with the reporting standards of the Global Reporting Initiative (GRI) since its first edition in 2018, reflects our commitment to sustainability.

System-based Financial Citizenship Agenda

Sicoob's Financial Citizenship Agenda has the purpose of monitoring the activities related to financial education and inclusion carried out by the credit unions, in an integrated manner with Sicoob's Systemic Strategy Pact, BCB communiqué 34.201, of 12/9/2024, as well as CMN-BCB Joint Resolution No. 8, of 21/12/2024.

By fostering financial education, Sicoob contributes to the soundness and efficiency of the National Financial System (SFN), providing benefits for both the institutions operating in the financial sector and the citizens. Such is the importance of this aspect that the Central Bank's strategic agenda - Agenda BC# - includes Education as a topic that "aims to raise awareness so that everyone becomes a market participant and develops the habit of saving".

The relevance of this issue has gained prominence in recent years with the enactment of laws to guarantee access to financial education. In 2021, the Over-indebtedness Law ³updated the Consumer Defense Code⁴, granting consumers the "right to responsible credit practices, financial education and prevention of over-indebtedness". In 2023, the "Desenrola Brasil" ⁵Law requires financial institutions to "adopt financial education measures for their consumers in order to prevent the default of operations and avoid the over-indebtedness of individuals".

In compliance with the provisions of the "Desenrola Brasil" Law, as well as following up on the work started in Communiqué 34.201, of 12/9/2019, the National Monetary Council, together with the Brazilian Central Bank, published Joint Resolution No. 8, of 21/12/2023, which provides for financial education measures to be adopted by financial institutions, payment institutions and other financial institutions authorized to operate by the Brazilian Central Bank, among which the following stand out:

³ BRAZIL. Law 14.181, of July 1, 2021. Available at: https://www.planalto.gov.br/ccivil-03/ ato2019-2022/2021/lei/l14181.htm. Access on: 1/11/2024

⁴ BRAZIL. Law 8.078, of September 11, 1990. Available at: https://www.planalto.gov.br/ccivil-03/leis/l8078compilado.htm. Access on: 1/11/2024

⁵ BRAZIL. Law 14,460 of October 3, 2023. Available at: https://www.planalto.gov.br/ccivil_03/_ato2023-2026/2023/lei/L14690.htm. Access on: 1/11/2024

December 31, 2023

the establishment of a financial education policy (Art. 3, CMN-BCB Joint Resolution No. 8-2023) and monitoring and control mechanisms (Art. 4, CMN-BCB Joint Resolution No. 8-2023).

Sicoob's System-based Financial Citizenship Agenda is built on this background. In 2023, Sicoob implemented:

- Sicoob's Financial Citizenship Policy, approved by the Board of Directors of Sicoob Confederation and Banco Sicoob on April 25, 2023;
- Sicoob's Commitments with Financial Citizenship, approved by the Board of Directors of Sicoob Confederation and Banco Sicoob on June 30, 2023;
- Plan for Evaluating and Monitoring the System-based Financial Citizenship Agenda, approved by the Board of Directors of Sicoob Confederation and Banco Sicoob on June 21, 2023,

Comprised of indicators and goals in line with the following aspects: Systemic Performance, Financial Education, Financial Inclusion, and Business Value.

This Plan is expected to consolidate data to support the development of a "Financial Education Score for Members of Sicoob Credit Unions" template, which may be used by Sicoob members from June 2024.

Strategic Social Investment / Sicoob Institute

Sicoob Institute, a private non-profit institution deemed of public utility, is the Sicoob's strategic social investment agency, founded in 2004, for the purpose of developing and sharing social methodologies by means of programs, projects and other initiatives aimed at increasing Sicoob's positive social impact on the communities where it operates.

Headquartered in Brasília (DF), the Institute operates in close collaboration with Central Credit Unions, Individual Credit Unions, and entities that make up the Sicoob Cooperative Center (CCS). The integration of all levels and the system-base alignment create a broad interactive and operational network that enables the Institute's initiatives to be implemented on a large scale in all the regions where Sicoob is present.

The Governance Framework of Sicoob Institute is based on the best practices of cooperative governance and on the governance principles applicable to Third Sector organizations The Institute's architecture includes both executive and non-executive bodies that combine the necessary skills, resources, and tools to maximize the positive impact of its activities on the communities.

The Institute's activities are driven by the mission of spreading the cooperative culture and contributing to the sustainable development of communities. The scope of its activities is grounded on the 5th and 7th principles of cooperative systems, namely, education, training and information, and interest for the community, respectively, as well as on the Regulatory Bodies' strategic agenda, particularly in relation to the Financial Education Strategy and the 2030 Agenda for Sustainable Development promoted by the United Nations (UN).

December 31, 2023

The Institute's core activities were defined based on the alignment between the social return of the business and the challenges that credit unions face in promoting social justice and financial inclusion. Its portfolio of programs and projects comprises initiatives that are integrated across the following themes: Cooperativism and Entrepreneurship, Financial Citizenship and Sustainable Development. These three strategic lines of action guide the planning, development, implementation, and investment of available resources in initiatives that comply with Sicoob's social responsibility standards.

Social Actions in 2023 - Highlights

| | Note | 12/31/2023 | 12/31/2022 |
|---|------|-----------------|-----------------|
| Number of people reached* | (a) | R\$ 8.3 million | R\$ 3.8 million |
| Number of people benefited* | (b) | R\$ 2 million | R\$ 1.6 million |
| Beneficiaries of the cooperativism and entrepreneurship theme | | 1,308,814 | 654,000 |
| Beneficiaries of the financial citizenship theme | | 757,087 | 942,000 |
| Registered volunteers | | 11,023 | 7,284 |
| Dedicated volunteer hours | | 44,332 | 24,406 |

⁽a) number of people reached through communication actions (information published in the press - radio, TV and newspaper) and/or social media (Facebook, Instagram, etc.).

In 2023, the Financial Citizenship program reached 757,000 people, and 1.3 million people benefited from the Cooperativism and Entrepreneurship program, through the Sicoob Institute's Portfolio of initiatives, as well as from other activities, such as Global Money Week (GMW), National Financial Education Week (ENEF), Cooperativism Week and World Investor Week (WIW).

Guarantor Credit Union Fund (FGCoop)

Deposits in credit unions are protected by the Guarantor Credit Union Fund (FGCoop), which guarantees deposits and credits maintained in individual credit unions or cooperative banks in the event of intervention or out-of-court liquidation of these institutions. Currently, the ceiling value of this protection is the same in force for depositors of other financial institutions covered by the Credit Guarantee Fund (FGC).

Code of ethics

All the members of Sicoob signed up to the Code of Ethics proposed by the Sicoob Cooperative Center, a commitment also assumed by all new employees who join the System.

Institutional policy for social and environmental responsibility

This policy introduces the principles and guidelines that govern Sicoob's social and environmental actions in the conduction of its business and relations with stakeholders and aim to contribute for the effective implementation of cooperative activities supported by sustainable development.

⁽b) total number of people directly benefited by the program and/or action.

December 31, 2023

Ombudsman

The Sicoob Ombudsman channel is a vehicle of communication between the credit unions and the users of their products and services, intended for those who may not have been satisfied with the solution provided by the usual customer service channels. Regulated by CMN Resolution 4,860/2020, CVM Resolution 43/2021 and CNSP Resolution 445/2022, its structure is centralized at Banco Sicoob and shared by Sicoob entities.

Based on the outcome of the situations that have been monitored, Sicoob's ombudsman function presents, every six months, suggestions to improve the routines and procedures developed by the management areas of Sicoob Cooperative Center and the credit unions, in line with the interests and satisfaction of the members.

Acknowledgments

We would like to thank our members, the central and individual credit unions, and Sicoob Confederation for their collaboration towards the achievement of the System's goals; our external partners for their trust in the solutions offered by Sicoob; and all our employees for their dedication and commitment.

Note 1 – Operations

Sistema de Cooperativas de Crédito do Brasil - Sicoob ("Sicoob" or "System") is made up of 335 first-level individual credit unions, which operate in 27 Brazilian states, featuring 4,609 branches, and 947 Correspondent banks, in addition to 7,890 Electronic Service Units (PAEs) and over 24 thousand ATMs, providing services to more than 7.7 million members. The System also includes 14 central credit unions, Banco Cooperativo do Brasil S.A ("Banco Sicoob" or "Bank"), Confederação Nacional das Cooperativas do Sicoob ("Sicoob Confederation"), and the subsidiaries of the Bank or of the credit unions.

Banco Sicoob is under the control of 14 central credit unions: Sicoob Central ES, Sicoob Central BA, Sicoob Central Crediminas, Sicoob Nova Central, Sicoob Central SC/RS, Sicoob SP, Sicoob Norte, Sicoob Central Cecremge, Sicoob Central Cecresp, Sicoob Central NE, Sicoob Central Rondon, Sicoob Central Unicoob, Sicoob Uni, and Sicoob Unimais Rio.

Sicoob is a multi-service bank established pursuant to Resolution 2,193 of August 31, 1995, of the National Monetary Council (CMN), and the controlling shareholder of Sicoob Distribuidora de Títulos e Valores Mobiliários ("Sicoob DTVM"), Sicoob Administradora de Consórcios Ltda. ("Sicoob Consórcios"), Sicoob Pagamentos Ltda., which is responsible for processing Sicoob's credit cards, and Sicoob Participações em Seguridade S.A. ("Sicoob PAR"), holder of 50% equity interest in Sicoob Seguradora.

The central credit unions also established the Confederação Nacional das Cooperativas do Sicoob Ltda. ("Sicoob Confederation"), "), a third-level entity engaged in the provision of representation and oversight services, standardization of operational procedures, implementation of the internal control system, and information technology services.

Sicoob also manages Fundação Sicoob Previ ("Sicoob Previ"), a private pension entity established in November 2006 for the purpose of offering the participants and their dependents pension benefits that supplement those provided by the government's social security system.

Note 2 - Presentation of the combined financial statements

2.1. Preparation of the combined financial statements

These combined financial statements ("financial statements") are the responsibility of Sicoob's Management and have been prepared based on the individual financial statements of the Institutions that comprise the System. The financial statements have been prepared for the purpose of presenting, in a single set of accounting statements, the consolidated position of all activities carried out by Sicoob, through the entities that comprise the System.

Although these combined financial statements have been prepared based on the corporate, internal control and governance structures of each member of the System, and in compliance with the requirements for financial statement presentation and disclosure pursuant to the standards issued by the CMN and the Brazilian Central Bank (BACEN), they are not representative of the individual financial statements of Sicoob members, and neither can the information herein be used for calculations of dividends and taxes, performance assessments, or for any other corporate or statutory purposes, which should be based on each entity's individual financial statements.

December 31, 2023

All amounts in thousands of reais, unless otherwise stated

CMN Resolution 4,151/2012 and BACEN Circular Letter 3,669/2013 establish procedures and requirements for the preparation and disclosure of combined financial statements of financial cooperative systems in Brazil.

These combined financial statements have been prepared in accordance with the accounting practices adopted in Brazil, based on Law 6,404/1976 and amendments introduced by Laws 11,638/2007 and 11,941/2009, the standards issued by BACEN and CMN for purposes of compliance with the Accounting Chart for Institutions of the National Financial System (COSIF), as well as the Technical Pronouncements issued by the Accounting Pronouncements Committee (CPC), approved by the monetary authority (Note 3.21).

2.2. Segregation of assets and liabilities between current and non-current

Receivables and payables with terms up to 360 days are classified as current assets or liabilities, and those with longer terms are classified as non-current, according to the corresponding explanatory notes.

2.3. Approval of the combined financial statements

The Executive Board of Sicoob CCS submitted these combined financial statements to the Board of Directors, which approved them on April 18, 2024.

2.4. Criteria used in the combination of balances

The balance sheet and income statement balances of the entities that comprise Sicoob were included in the preparation of these combined financial statements; the balances of transactions carried out between these entities were excluded.

2.5. Entities that comprise Sicoob included in the combined financial statements

Pursuant to Art. 4 of CMN Resolution 4,151/2012, a cooperative system is made up of individual cooperatives, central cooperatives, a credit confederation, a cooperative bank, as well as other financial institutions or entities authorized to operate by the Brazilian Central Bank, except for consortium administrators directly or indirectly linked to these institutions by means of an equity interest or actual control of operations, characterized by joint administration/management, or by operations in the market under the same trademark or trade name. Pursuant to determination of the Brazilian Central Bank, from June 30, 2021, these combined financial statements include the Confederação Nacional das Cooperativas do Sicoob Ltda. ("Sicoob Confederation"), Sicoob Administradora de Consórcios ("Sicoob Consórcios"), and Administradora de Consórcio Unicoob Ltda. ("Unicoob Consórcios"), subsidiary of a central credit union.

Also in compliance with the aforementioned determination, Sicoob Participações em Seguridade S/A ("Sicoob PAR") and Sicoob Pagamentos (formerly Cabal Brasil Ltda.), both of them subsidiaries of Banco Cooperativo Sicoob - S/A, were not included in these combined financial statements. The subsidiaries of central credit unions were also excluded from these combined financial statements (Note 9).

Sicoob Previ, although being part of the System as Sicoob's private pension entity, was not included in these combined financial statements.

December 31, 2023

All amounts in thousands of reais, unless otherwise stated

In addition, Art.6 of Circular Letter 3,669/2013 establishes that all the investment funds in which the entities that comprise a cooperative system have or retain substantial risks and rewards, in any form, must be included in the combined trial balance. Therefore, these combined financial statements include the funds, whether managed by Sicoob DTVM or not, in which Banco Sicoob or the credit unions retain substantial risks and rewards.

The following institutions were included in the preparation of these combined financial statements, in accordance with CMN Resolution 4,151/2012:

• Banco Cooperativo Sicoob S.A. ("Banco Sicoob" or "Bank"): Multiple service bank established pursuant to Resolution 2,193/1995, was authorized to operate by BACEN on July 21, 1997, and started activities on September 1, 1997.

Banco Sicoob was created to provide financial, technical and operational services to credit unions, pursuant to Article 88 of Law 5,764/1971.

• Sicoob Distribuidora de Títulos e Valores Mobiliários Ltda. ("Sicoob DTVM"): A sole proprietorship limited company under the control of Banco Cooperativo Sicoob S/A, Sicoob DTVM operates in the management of third parties' funds by entering into contracts or charging a commission.

Sicoob DTVM is engaged in the subscription of securities for resale, either on a stand-alone basis or in a consortium with other authorized companies; intermediation of public offerings and distributions of securities in the market; and purchase and sale of securities on its own account or on behalf of third parties, in compliance with the regulations issued by CMN, BACEN, and CVM in their respective areas of competence.

Sicoob DTVM manages the funds listed in items (i) and (ii) of the "Investment funds" group.

- Confederação Nacional das Cooperativas do Sicoob Ltda. ("Sicoob Confederation"): A third-level entity under the control of the central credit unions, Sicoob Confederation is engaged representation and oversight services, standardization of operational procedures, implementation of internal control system, and information technology services for all Sicoob's entities.
- Sicoob Administradora de Consórcios Ltda. ("Sicoob Consórcios"): Sicoob Consórcios, a subsidiary of Banco Cooperativo Sicoob, is a sole proprietorship limited company headquartered in Brasilia, which started operations on July 3, 1972, mainly engaged in the administration of consortium groups for the acquisition of movable and immovable goods and services, Sicoob, through the individual credit unions, is the main partner in the distribution of its products to the members of the System.
- Administradora de Consórcio Unicoob Ltda. ("Unicoob Consórcios"): Subsidiary of Sicoob Central Unicoob, the consortium administrator was established, pursuant to authorization of the Brazilian Central Bank issued on May 19, 2010, to meet the needs of the individual credit unions affiliated to the central. Unicoob Consórcios operates in the automobile, motorcycle, real estate, and service segments, pursuant to the regulations.

December 31, 2023

All amounts in thousands of reais, unless otherwise stated

• **Sicoob's central credit unions:** These are independent financial institutions authorized to operate by the Brazilian Central Bank, made up of at least three affiliated individual credit unions, engaged in integrating the System's credit unions at both regional and state levels.

Sicoob has 14 central credit unions (Note 1), which act on a proactive manner to prevent and correct situations that pose risk to the safety and soundness of the credit unions and the System. The following services are among those provided by central credit unions: centralization of the funds raised by their credit unions; standardization and oversight of operating systems and control of deposits and loans; auxiliary supervision; education and training; adoption of corrective measures; legal advice, communication advice; common procurement; exchanges for quality and professional training.

• Individual credit unions: These are non-bank financial institutions authorized to operate by the Brazilian Central Bank, resulting from the association of individuals formed to meet their financial needs, both as users and owners of the credit union's products and services.

In accordance with CMN Resolution 5,051/2022, individual credit unions are classified based on their specific operations, as follows: Full, Classic, or Capital and Loans.

Individual credit unions classified under the Full category can carry out all the operations inherent in credit unions. Those classified as Classic credit unions, among other restrictions, are not authorized to operate with foreign currency, foreign exchange variation, or derivatives. The credit unions classified as of Capital and Loans are non-depository institutions, whose funding arises exclusively from the capital paid by its members.

Sicoob's individual credit unions, in accordance with the classification provided for in CMN Resolution, are distributed as follows:

| Classification | Number |
|-------------------|--------|
| Classic | 315 |
| Capital and Loans | 10 |
| Full | 10 |
| Total | 335 |

• **Investment funds:** The following investment funds were considered in the preparation of these combined financial statements:

(a) Funds in which central and/or individual credit unions retain substantial risks and rewards:

- Minascoop Fixed-income investment fund Private Credit
- Sicoob Institucional Fixed-income investment fund Private Credit
- Sicoob Liquidez Master Fixed-income investment fund Private Credit
- Sicoob Cecresp Fixed-income investment fund Private Credit

(b) Funds in which Banco Sicoob retains substantial risks and rewards:

- Sicoob Previdenciário Fixed-income investment fund IMA-B (a)
- Sicoob Agências Real estate investment fund

2.9. Events after the reporting period

These are events that took place between the base date of the financial statements and the date of authorization for their issuance, classified as:

- Adjusting events: relate to events that evidence conditions existing at the base date of the financial statements; and
- **Non-adjusting events**: relate to events evidencing conditions that did not exist on the base date of the financial statements.

December 31, 2023

All amounts in thousands of reais, unless otherwise stated

Note 3 – Summary of significant accounting policies

3.1. Accounting estimates and judgments

The preparation of combined financial statements in accordance with the accounting practices described in Note 3 requires Management to use its judgment to determine and record accounting estimates, where applicable. Significant items subject to the application of estimates and assumptions include the valuation of the recoverable amounts of property and equipment and intangible assets, the provision for loan losses, the estimated realization of tax assets, the provision for cash outflows in connection with tax, labor and civil contingencies, and the valuation of securities and derivative financial instruments. The settlement amounts of the transactions may differ from the estimates presented in the combined financial statements due to inaccuracies inherent in their determination process. The estimates and assumptions are reviewed on a half-yearly basis, to reflect the best available information.

3.2. Determination of results of operations

The results of operations are determined on the accrual basis of accounting. Service revenue, typical to the financial system, is recognized as the service is rendered to the member or third party.

3.3. Foreign currency

Monetary assets denominated in foreign currency were translated into Brazilian reais at the exchange rate in effect on the balance sheet date, and currency translation differences were recorded in profit or loss for the year.

3.4. Cash and cash equivalents

Cash and cash equivalents comprise cash in local and foreign currency, and short-term interbank investments maturing in up to 90 days from the investment date, and subject to immaterial risk of change in fair value. Cash and cash equivalents are used by Sicoob to manage its short-term obligations (Note 4).

3.5. Short-term interbank investments

Short-term interbank investments are stated at the amount of the investment or acquisition, plus income earned up to the balance sheet date, and consist of transactions backed by federal government securities (Note 6.2).

3.6. Marketable securities

Where applicable, securities are classified into three specific categories, based on a set of criteria for registration and valuation of security portfolios, defined by BACEN Circular Letter 3,068/2001, and on Management's intention to use them, int accordance with the following recognition criteria:

- (a) Trading securities securities acquired to be frequently and actively traded, adjusted to market value with a corresponding entry to profit or loss for the period.
- **(b) Held-to-maturity securities -** securities acquired to be held to maturity, based on financial capacity studies, accounted for at acquisition cost plus any income earned.
- (c) Available-for-sale securities securities that are neither classified as trading nor as held-to-maturity. These securities are adjusted to market value, and the result of the adjustment, net of tax effects, is recorded in a separate account in equity. Where applicable, gains and losses are recognized in the statement of income.

December 31, 2023

All amounts in thousands of reais, unless otherwise stated

The methodology used for the mark-to-market of securities was determined in compliance with consistent and verifiable criteria, which take into consideration the average trading price on the day of the calculation or, in the absence thereof, pricing models that reflect the probable net realizable value.

Income from securities, irrespective of the category in which they are classified, is accrued on a daily *pro-rata* basis, under the exponential or straight-line method, based on the return clauses and acquisition cost distributed over the term of the investment, and recognized directly in the statement of income for the period.

When available-for-sale securities are sold, the difference between the selling price and the initial acquisition cost, adjusted for accrued income, is considered as the result of the transaction, and recognized on the transaction date as "Gains (losses) on securities".

3.7. Derivative financial instruments

In compliance with BACEN Circular Letter 3,082/2002, derivative financial instruments are measured at market value at least at the time the monthly trial balances and balance sheets are prepared. Any appreciation or depreciation is recognized directly in income or expense accounts for the respective derivative financial instrument (Note 6.1.1).

3.8. Provisions for expected credit losses

The provision for expected credit losses is calculated based on management's judgment concerning the risk level, considering the analysis and rating of the borrower and the transaction, in compliance with the parameters established in CMN Resolution 2,682/1999. This Resolution requires a periodic analysis of the loan portfolio, as well as the classification of its operations into nine levels, of which "AA" is the lowest risk level and "H" the highest risk level. These rules also apply to the provisions for guarantees provided, recorded within liabilities.

Income from lending operations overdue for more than 60 days, irrespective of their risk level, is only recognized in profit or loss after it has been received.

Operations classified as "H" risk level are transferred to the offsetting account, with the corresponding debit entry to the provision account, six months after their classification into that risk level. Renegotiated operations are maintained at the same risk level in which they were classified before the renegotiation, and operations which had been previously recorded as losses start to be classified as "H" risk level. These operations are only transferred to a lower risk level category after significant amortization has occurred, or when new relevant facts justify a change in their risk classification. Any gains arising from renegotiations are only recognized as income when actually received. The provisions for expected credit losses, which are considered sufficient by management, comply with the minimum requirement established in the aforementioned Resolution.

3.9. Investments

Investments are recorded at acquisition cost, and equity interests in subsidiaries and associates are accounted for under the equity method (Note 9).

December 31, 2023

All amounts in thousands of reais, unless otherwise stated

3.10. Property and equipment

Property and equipment items are recorded at acquisition, formation or construction cost, including interest and other capitalized financial charges (Note 10). Depreciation is calculated on a straight-line basis, in accordance with the following annual rates, based on the useful lives of the assets: properties in use - 5%; equipment in use - 10%; vehicles and data processing equipment - 20%.

Other expenditures are capitalized only when they can be associated with an increase in the economic benefits related to the asset. Any other type of expenditure is expensed in the statement of income when incurred.

3.11. Intangible assets

These correspond to rights acquired that are intended for the maintenance of Sicoob entities, or used for this purpose (Note 11). Intangible assets with a defined useful life are usually amortized on a straight-line basis during an estimated period of economic benefit. Intangible assets comprise software acquired from third parties and are amortized at an annual rate of 20%.

3.12. Impairment test

Items of property and equipment as well as intangible assets are subject to the annual impairment test in accordance with CPC 01 (R1). If there is clear evidence that the assets are not stated at their recoverable amount, the impairment loss is recognized in profit or loss for the period reducing, consequently, the balances of the items in which such losses were identified (Notes 10 and 11).

3.13. Other current and non-current assets

These are stated at net realizable value.

3.14. Deposits

These comprise demand deposits, savings account deposits, time deposits, which include credit union deposit receipts (RDCs) and bank deposit certificates (CDBs), interbank deposits, and notice deposits (Note 12.1).

Savings accounts earn interest at rates established by the regulation in force and are recorded at the amount of the deposit plus any income earned in the period.

The funds from time deposits (RDC and CDB) are stated at the amount raised, plus any accrued income, on a pro-rata daily basis, at floating or fixed rates, and become redeemable on a pre-established date.

3.15. Repurchase agreement obligations

These obligations are stated at known or determinable amounts, which include charges and monetary variations incurred, net of the corresponding unrecognized expenses, where applicable (Note 12.2).

3.16. Borrowing and onlending obligations

Borrowings and onlendings are stated at known or determinable amounts, including accrued charges and monetary variations, net of the corresponding unrecognized expenses, where applicable, and comprise mainly funding obtained from government agencies such as the National Bank for Economic and Social Development (BNDES)/Government Agency for Machinery and Equipment Financing (FINAME), Ministry of Agriculture, Livestock and Food Supply (MAPA)/Funcafé, and Constitutional Funds (Note 12.5).

December 31, 2023

All amounts in thousands of reais, unless otherwise stated

3.17. Employee benefits - Private pension plan

Banco Sicoob provides a defined contribution pension plan to the entire Sicoob network. The sponsor's monthly contributions to the plan are recognized as an expense in the statement of income for the period.

3.18. Income tax and social contribution - tax credits and deferred tax liabilities

The provision for income tax was calculated at the rate of 15%, plus a 10% surtax. The provisions for social contribution, which were computed at rates that vary according to the legal nature of each company, are described below: Banco Sicoob - 20%; Credit Unions and Sicoob DTVM – 15%; and Sicoob Consórcios – 9%.

Both, income tax and social contribution were calculated based on taxable profit, in compliance with the legal provisions in force.

Income tax and social contribution credits were calculated in accordance with the tax rates. Tax credits are recognized considering the expected generation of future taxable profit, over a maximum period of ten years, pursuant to BCB Resolution 15/2020 for Sicoob Consórcios and CMN Resolution 4842/2020 for the other companies. The expected generation of future taxable profit is supported by a technical study prepared by management and updated on a half-yearly basis.

The tax credits recorded and presented in Sicoob's combined financial statements arise from those recorded at Banco Sicoob, Sicoob DTVM, and Sicoob Consórcios.

3.19. Contingent assets and liabilities and legal obligations

Provisions are recognized in the balance sheet when Sicoob has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of funds will be required to settle the obligation. Provisions are recorded based on the best estimates of the risk involved. (Note 13.1.2).

The recognition, measurement, and disclosure of provisions and contingent assets and liabilities are carried out in accordance with CMN Resolution 3,823/2009, which requires financial institutions and other institutions authorized to operate by BACEN to comply with Technical Pronouncement CPC 25, issued by the Accounting Pronouncements Committee (CPC), as follows:

- (a) Contingent assets Contingent assets are not accounted for, except when backed by real guarantees or final court decisions in which a favorable outcome is virtually certain. Contingent assets for which a favorable outcome is classified as probable are only disclosed in the notes to the financial statements.
- (b) Contingent liabilities Contingent liabilities are recognized based on the opinion of legal advisors, the nature of the lawsuits, similarities with previous proceedings, and the complexity of the lawsuits, when the risk of an unfavorable outcome is classified as probable, generating an outflow of funds to settle the obligation, and the amounts involved can be measured reliably. The lawsuits for which an unfavorable outcome is classified as possible are only disclosed in the notes to the financial statements when considered material on a stand-alone basis.
- (c) Legal obligations These are obligations that derive from a contract, through implicit or explicit terms, a law or other legal instrument, which should be recognized by Sicoob's entities.

December 31, 2023

All amounts in thousands of reais, unless otherwise stated

3.20. Other current and non-current liabilities

These are stated at known or estimated amounts including, where applicable, the corresponding charges and indexation accruals.

3.21. Technical Pronouncements - CPCs

The National Monetary Council (CMN) has approved the adoption of the following Technical Pronouncements issued by the CPC. The following pronouncements applicable to institutions authorized to operate by the Brazilian Central Bank were adopted in the preparation of these combined financial statements:

- CPC 00 (R2) Basic conceptual pronouncement approved by CMN Resolution 4,924/2021;
- CPC 01(R1)- Impairment of assets approved by CMN Resolution 4,924/2021;
- CPC 03 (R2) Statement of cash flows approved by CMN Resolution 4,910/2021;
- CPC 05 (R1) Related-party disclosures approved by CMN Resolution 4,818/2020;
- CPC 10 (R1) Share-based payments approved by CMN Resolution 3,989/2011;
- CPC 23 Accounting policies, changes in accounting estimates and correction of errors approved by CMN Resolution 4,924/2021;
- CPC 24 Events after the reporting period approved by CMN Resolution 4,818/2020;
- CPC 25 Provisions, contingent liabilities and contingent assets approved by CMN Resolution 3,823/2009;
- CPC 33 (R1) Employee benefits approved by CMN Resolution 4,877/2020; and
- CPC 46 Fair value measurement approved by CMN Resolution 4,924/2021.

The remaining Technical Pronouncements issued by CPC will be applied when approved by the National Monetary Council. The following CPCs have been partially adopted by CMN through the issue of the following standards:

- CPC 02 (R2) Effects of changes in exchange rates and translation of financial statements CMN Resolution 4,524/2016;
- CPC 04 (R1) Intangible assets CMN Resolution 4,534/2016; and
- CPC 27 Property, plant and equipment CMN Resolution 4,535/2016.

Note 4 - Cash and cash equivalents

Cash and cash equivalents, presented in the statement of cash flows, are broken down as follows:

| Cash and cash equivalents | Note | 12/31/2023 | 12/31/2022 |
|---|------|------------|------------|
| Available funds | | 1,768,917 | 1,457,802 |
| Local currency | | 1,724,614 | 1,433,855 |
| Foreign currency | | 44,303 | 23,947 |
| Cash equivalents | | 23,373,600 | 13,959,504 |
| Short-term interbank investments | (a) | 23,373,595 | 13,957,738 |
| Investments in savings account deposits | | 5 | 1,766 |
| Total | | 25,142,518 | 15,417,306 |

⁽a) Investments classified as cash equivalents are those maturing in up to 90 days from the date of issue, and which are not subject to significant changes in value and interest rates. They are comprised of repurchase agreements entered into by Banco Sicoob with other institutions of the Brazilian National Financial System.

December 31, 2023

All amounts in thousands of reais, unless otherwise stated

Note 5 – Compulsory deposits with the Brazilian Central Bank

| Breakdown | 12/31/2023 | 12/31/2022 |
|--|------------|------------|
| BACEN - Instantaneous payments | 93,309 | 116,450 |
| BACEN - Compulsory reserves in cash | 40 | 3,117 |
| BACEN - Mandatory payments | 2,497,557 | 2,244,553 |
| Other deposits with the Brazilian Central Bank | 33,999 | 3,140 |
| Total | 2,624,905 | 2,367,260 |
| Current | 2,624,905 | 2,367,260 |
| Non-current | - | - |

Compulsory investments in the year amounted to R\$ 186,696 (R\$ 163,462 at December 31, 2022).

Note 6 – Financial assets

6.1. Marketable securities and derivative financial instruments

Securities are classified as "available for sale", "held-for-trading" and "held-to-maturity". Their market value was calculated considering the following parameters:

- (a) Federal government securities (LTNs, LFTs, NTNs) the index disclosed by the Brazilian Association of Capital and Financial Markets Institutions (ANBIMA) is used.
- **(b) Investment funds (FIs)** the value of the fund shares on the last working day, disclosed by the fund's administrators, is used.
- (c) Private securities are marked to market periodically, using an in-house methodology that considers primarily the prices available on liquid markets. Alternatively, fair values are calculated based on a method that considers the average spreads (for similar private securities) adopted for the own portfolio, in accordance with the size of the issuer.
- **(d) Derivative financial instruments** the methodology used for the mark-to-market of securities was established in compliance with consistent and verifiable criteria, which consider the average trading price on the day of the calculation or, in the absence thereof, pricing models that reflect the probable net realizable value in accordance with the characteristics of the derivative.

Marketable securities, including derivative financial instruments and short-term interbank investments, are held under the custody of B3 or the Special System for Settlement and Custody (SELIC), except for investment fund shares for which records are kept by the respective administrators.

Securities classified as "held to maturity" are supported by a study that proves the financial capacity and Management's intention to hold them to maturity.

The credit unions are released from the obligation to classify the securities held in their portfolios into the three categories foreseen in Circular Letter 3,068/2001. Accordingly, for purposes of presentation of the combined financial statements, the securities held by these credit unions were classified as "Available for sale", since they do not fit into the other categories.

| | 158,590 | 121,417 | 164,270 | 129,107 | |

8.3. Expected realization of tax credits

Based on a study conducted by management, which considered the expected generation of future taxable profit, the tax assets will be realized within ten years, as follows:

| Years | Nominal amount | Present value |
|-------------------|----------------|---------------|
| 2024 | 65,944 | 60,733 |
| 2025 | 46,050 | 38,938 |
| 2026 | 26,583 | 20,716 |
| 2027 | 28,391 | 20,392 |
| 2028 | 29,406 | 19,467 |
| 2029 to 2033 | 84,911 | 51,807 |
| Total tax credits | 281,285 | 212,053 |

The present value of tax credits was calculated considering the SELIC rate projected for the realization years.

December 31, 2023

All amounts in thousands of reais, unless otherwise stated

Note 9 - Investments

The investments in Sicoob Pagamentos, Sicoob PAR, Minaseg Corretora, and Sancor Seguros are valued at the equity method of accounting. Results from these equity interests were included in the combined statement of income, within "Equity in the results of subsidiaries and associates".

Note 13 - Provisions for contingencies and legal obligations

13.1. Contingencies

The entities that comprise Sicoob are parties to tax-related lawsuits and administrative proceedings. These lawsuits are classified by internal and external legal advisors according to the likelihood of a successful outcome, and taking into consideration the nature and specifics of each lawsuit, as well as former decisions of higher courts.

The provisions for lawsuits are recognized, measured and disclosed as follows:

A provision is recognized only when:

- (a) Sicoob's entities have a present legal or constructive obligation as a result of past events;
- (b) it is probable that an outflow of resources will be required to settle the obligation; and
- (c) the amount of the obligation can be estimated reliably. In the event any of the above conditions is not met, the provision is not recognized.

Based on these assumptions, where it is probable that a present obligation exists at the balance sheet date, Sicoob records a provision, and, where this is not probable, the contingent liability is disclosed, unless the possibility of an outflow of resources is considered remote.

Management understands that the provision recorded is sufficient to cover any losses arising from the existing lawsuits, as shown below.

13.1.1 Lawsuits classified as involving probable risk of loss

The contingencies classified as involving risk of probable loss basically arise from labor and tax lawsuits and administrative proceedings inherent in the normal course of business, filed by third parties, former employees and public agencies.

13.1.2 Deposits in court and provisions for contingencies

December 31, 2023

All amounts in thousands of reais, unless otherwise stated

13.1.4 Nature of lawsuits classified as involving probable risk of loss

The nature of lawsuits classified by the legal advisors as involving probable risk of loss is described below:

- (a) Tax these lawsuits are being discussed at the administrative level, and relate to tax assessment notices received from the Federal Revenue Service with respect to Corporate Income Tax (IRPJ), Social Contribution on Net Income (CSLL), Social Integration Program (PIS), and Social Contribution on Revenues (COFINS) levied on returns from financial investments, as well as to the increase in the COFINS tax rate.
- (b) **Civil** these relate basically to contractual terms, registration of clients with credit protection services, and pain and suffering.
- (c) **Labor** relate mainly to lawsuits filed by former employees disputing severance pay.

13.1.5 Schedule of expected cash outflows

Due to the nature of existing contingencies and the complexity of Brazilian legal environment, there are uncertainties that make it difficult to estimate a schedule for the future settlement of the lawsuits.

13.1.6 Contingencies classified as involving possible risk of loss

Lawsuits classified as involving possible risk of loss are not recognized, and are only disclosed when the amount involved is material. This classification includes:

- (a) civil proceedings claiming pain and suffering and material damage caused by the credit unions;
- (b) civil proceedings claiming improper collection and registration with credit protection services;
- (c) civil proceedings challenging contractual reviews of lending operations;
- (d) civil proceedings discussing Banco Sicoob's joint liability in relation to deposits made into credit unions:
- (e) civil proceedings discussing Banco Sicoob's civil liability for an error made by a credit union;
- (f) labor lawsuits;
- (g) tax and social security administrative proceedings (Accident Prevention Factor (FAP), Scholarships, and Social Integration Program (PIS);
- (h) action for annulment of a tax assessment, filed by the Bank. The tax assessment notice that the annulment action is intended to overturn refers to an amount deducted by Banco Sicoob from the tax base in 2008. The deduction arose from the compensatory nature of the amount paid by Banco Sicoob, as decided at an Extraordinary General Meeting, in relation to a faulty provision of services under the Bank's responsibility.

13.1.7 Contingencies classified as involving possible risk of loss

According to the legal counsel of Sicoob's entities, the lawsuits in which these entities are the defendants and involved possible risk of loss totaled R\$ 1,056,320 at December 31, 2023 (R\$ 1,000,373 at December 31, 2022). Such lawsuits include labor, civil, administrative and tax claims.

| Type of lawsuit | 12/31/2023 | 12/31/2022 |
|--------------------------|------------|------------|
| Tax | 223,113 | 206,337 |
| Labor | 122,319 | 103,352 |
| Civil and administrative | 710,889 | 690,684 |
| Total | 1 056 320 | 1 000 373 |

December 31, 2023

All amounts in thousands of reais, unless otherwise stated

13.2. Provisions for guarantees

The guarantees provided by Sicoob's entities through financial charges relating to endorsements and sureties totaled R\$ 19,784,818 at December 31, 2023 (R\$ 14,939,908 at December 31, 2022).

Provisions recorded in liabilities totaled R\$ 477,845 at December 31, 2023 (R\$ 388,447 at December 31, 2022).

Income from guarantees provided amounted to R\$ 4,307 in 2023 (R\$ 5,053 at December 31, 2022).

The provisions recorded for guarantees provided are subject to the same criteria established in Resolution 2,682/1999 for classifying the credit risk posed by the borrowers. Expenses incurred with provisions for guarantees totaled R\$ 572,866 at December 31, 2023 (R\$ 457,468 at December 31, 2022). In the same period, provisions of R\$ 500,021 (R\$ 362,254 at 12/31/2022) were reversed. The net balance of provisions for guarantees provided totaled R\$ 72,845 in 2023 (R\$ 95,214 at December 31, 2022).

⁽a) The Fund for Technical, Educational and Social Assistance (FATES) is intended for educational activities, providing assistance to the credit union members, their families and employees. The Fund is made up of the outcome of activities unrelated to the core business of the credit unions, plus a percentage of the net surplus from regular operational activities, as determined by the bylaws. These amounts are classified under liabilities, as determined by Accounting Chart for Institutions of the National Financial System (COSIF). In compliance with CMN Resolution 4,872/2020, amounts relating to FATES are recorded as liabilities and should be used for the corresponding expenses. At the end of the year, expenditures on FATES are reversed to the Accumulated Surpluses or Losses account, in accordance with Law 5,764/1971.

- (a) Relate mainly to the receipt of federal, state and municipal taxes, and FGTS and INSS amounts to be transferred.
- (b) Relate mainly to amounts received for the payment of public utility companies and agreements, such as: electricity and gas, water supply and sewage treatment, and telecommunications, among others.
- (c) Relate to payment orders pending settlement which had not been cleared up to December 31, 2023.
- (d) Relate to amounts received in checks and other papers.
- (e) Relates to provisions for the payment of expenses such as water, electricity, gas, rental, communication, publicity and advertising, among others.
- (f) Relate mainly to amounts received for payment of collection notes.
- (g) Relate to guarantee funds for assets and deposits, established by central credit unions.

Note 15 – Equity

15.1. Share capital

Share capital is comprised of units of R\$ 1.00 each, in a manner that each member of the System is entitled to one vote, irrespective of the number of units held.

Total number of members:

| Members | 12/31/2023 | 12/31/2022 |
|----------------|------------|------------|
| Individuals | 6,228,167 | 5,577,609 |
| Legal entities | 1,544,861 | 1,375,183 |
| Total | 7,773,028 | 6,952,792 |

15.1.1 Capital increase

During the year, capital was increased, through contributions from members, by R\$ 5,364,308, of which R\$ 3,623,351 was paid in with surpluses and R\$ 1,740,957 with interest on capital, net of tax effects (R\$ 4,914,376 at December 31, 2022, of which R\$ 3,517,173 was paid in with surpluses and R\$ 1,397,203 with interest on capital, net of tax effects).

Total share capital at December 31, 2023 amounted to R\$ 23,124,656 (R\$ 19,422,110 at December 31, 2022).

15.1.2 Return/refund of capital

Returns or refunds of capital correspond to the amount of share capital paid in by members who have left the Company, totaling R\$ 1,811,417 in the year (R\$ 1,616,370 at December 31, 2022).

15.1.3 Reversal of capital

Capital reversals, which totaled R\$ 89,548 at December 31, 2023 (R\$ 71,461 at December 31, 2022), relate to adjustments made to the members' share capital account for correction of errors or inaccuracies.

December 31, 2023

All amounts in thousands of reais, unless otherwise stated

15.2. Capital reserves

This reserve is formed by statutory allocations of surpluses, at a percentage established in the bylaws, and is used to offset losses and support the credit unions' activities. Capital reserves comprise reserve fund, reserves for expansion, reserves for contingencies, legal reserve and other reserves, which totaled R\$ 2,670 at December 31, 2023 (R\$ 1,812 at December 31, 2022).

15.3. Revenue reserves

Revenue reserves are comprised of the reserve fund, reserves for contingencies, reserves for expansion, and others. During the year, R\$ 3,396,043 was transferred to the reserve fund (R\$ 2,710,115 at December 31, 2022), and R\$ 4,448 was transferred to reserves for contingencies (reversal of R\$100,489 at December 31, 2022). The use of other reserves in the year totaled R\$ 21,174 (R\$ 490.099 was transferred to Other reserves at December 31, 2022). Total reserves amounted to R\$ 19,323,480 in the year (R\$ 15,286,021 at December 31, 2022).

15.4. Dividends

The shareholders of Banco Sicoob are entitled to mandatory minimum dividends corresponding to 5% of adjusted profit for the year. Banco Sicoob approved the distribution of dividends totaling R\$ 25,832, equivalent to R\$ 15.28 per thousand shares (R\$ 22,342, equivalent to R\$ 16.75 per thousand shares, at December 31, 2022).

15.5. Interest on capital

Interest on capital is computed on the balance of paid-up capital and adjusted by the SELIC rate, limited to 12% per year, as established by Law 5,764/1971.

The percentage used to adjust the members' balance of paid-up capital may vary among the credit unions. Expenses with interest on capital for the year is recorded in the combined statement of changes in equity as allocation of surplus for the period. Interest on capital is paid on the last day of the year, either by means of a deposit on current account, or as paid-in capital.

The provision for expenses with interest on capital for the year totaled R\$ 1,939,858 (R\$ 1,660,092 at December 31, 2022).

15.6. FATES - Fund for Technical, Educational and Social Assistance

As provided for in Law 130/2009, this fund is intended for educational activities and the provision of assistance to the credit unions' members, their relatives, and employees. Funds arising from activities unrelated to the core business of the credit unions, as well as at least 5% of the net surplus for the period, are allocated to FATES, as provided for in the bylaws. The amounts payable are recognized within a specific line item in liabilities, in accordance with the Accounting Chart for Institutions of the National Financial System (COSIF). The amounts allocated to FATES during the year totaled R\$ 474,533 (R\$ 503,189 at December 31, 2022).

15.7. Losses computed

Pursuant to Supplementary Law 130/2009, the losses computed for the year by credit unions are covered by the Legal Reserve funds. In the event of insufficiency of the aforementioned funds, losses

December 31, 2023

All amounts in thousands of reais, unless otherwise stated

will be apportioned among the members and covered by future years' surpluses, upon approval by the general meeting. In 2023, no losses were computed for the Sicoob group.

15.8. Surplus for the year (after interest on capital)

Surplus (net profit) is distributed and allocated in accordance with each entity's bylaws, and in compliance with BACEN standards, to be approved at the Annual General Meeting. Surplus for the second half of 2023 totaled R\$2,937,413 (R\$2,626,092 for the second half of 2022). Surplus for the year totaled R\$ 6,408,850 (R\$ 5,565,378 at December 31, 2022).

15.9. Other comprehensive income

These adjustments resulted from the mark-to-market of available-for-sale securities, net of the income tax and social contribution effects (Note 8.1), and applicable only to securities held by Banco Sicoob. The effects of these adjustments resulted in the negative amount of - R\$ 6,286 (- R\$ 40,488 at December 31, 2022), net of tax effects.

15.10. Approval of allocations

The allocations of prior year's surplus are approved by the end of April of the following year, in accordance with the legislation in force and the bylaws of central and individual credit unions. Surplus can be appropriated directly to reserve funds, to FATES, to other reserves, to increase capital, or to be transferred to the members' current account, net of tax effects.

The surplus from previous year, in the amount of R\$ 450,547 (R\$ 419,557 at December 31, 2022), was distributed to the members. The capital increase with surplus totaled R\$ 1,527,289 (R\$ 1,487,142 at December 31, 2022). The balance of surplus to be distributed totaled R\$ 8,119 (R\$ 22,974 at December 31, 2022).

15.11. Non-controlling interests

These are comprised of the balance of net assets of investment funds combined in the financial statements, which arise from investments made by non-members of Sicoob. They were combined in the financial statements in accordance with BCB Instruction 272/2022. These relate to shareholders' investments in the funds Sicoob Institucional and Sicoob Liquidez, which totaled R\$ 974,233 at December 31, 2023 (822,793 at December 31, 2022). The decrease was due to redemptions of investments in the above-mentioned funds.

15.12. Balances of credit unions merged

The balance sheet balances of the credit unions merged in the year, totaling R\$ 507,470 (R\$ 270,896 at December 31, 2022) are added to the corresponding columns representing the positions on the merger date, i.e. share capital, reserves and retained earnings.

December 31, 2023

All amounts in thousands of reais, unless otherwise stated

Note 16 - Operating revenue

16.1. Income from services rendered and banking fees

| Total | | 11,615,934 | 10,258,199 |

- (a) Provisions for expected credit losses amounted to R\$ 57,872 at December 31, 2023 (R\$ 62,164 at December 31, 2022)., at rates from 0.01% to 29% and maturities from 1 to 360 months.
- (b) Include demand deposits, savings account deposits, and time deposits (RCDs). Time deposits are linked to DI floating rates and have no minimum investment
- (c) Transactions with preponderantly floating rates linked to the DI with minimum investment period of 90 days, after which the amount can be redeemed.
- (d) Rates and terms not applicable.

Note 19 – Other information

19.1. Agreements for offsetting payables against receivables with the same financial institution

As established by CMN Resolution 3,263/2005, Banco Sicoob has investments in financial institutions which allow it to offset payables against receivables held with these institutions. The amounts receivable and payable are stated in the balance sheet in the respective line items, under assets and liabilities.

19.2. Insurance (unaudited)

The System's assets are insured against risks at amounts deemed sufficient by management to cover any losses, considering the nature of its activities.

19.3. Employee benefits - Private pension plan

The entities that comprise Sicoob are sponsors of the Sicoob Private Pension Foundation (Sicoob Previ). At December 31, 2023, the plan had 22,020 active participants (17,057 at December 31, 2022), whose consolidated contributions to Sicoob Previ totaled R\$ 37,936 (R\$ 27,719 at December 31, 2022).

19.4. Profit sharing

Sicoob offers profit sharing to its employees, which is calculated in accordance with the Collective Labor Agreement. total amounts provided for were as follows:

- 2nd half of 2023, R\$ 231,095 (2nd half of 2022, R\$ 176,172)
- Year ended 12/31/2023, R\$ 378,561 (Year ended 12/31/2022, R\$ 302,599).

December 31, 2023

All amounts in thousands of reais, unless otherwise stated

19.5. Plans for the implementation of accounting regulations for combined entities provided for in CMN Resolution 4,966/2021, BACEN Resolution 219/2022, and BACEN Resolution 309/2023 and amendments

On November 25, 2021, the Brazilian Monetary Council (CMN) issued Resolution 4,966/2021 and, in the same line, the Brazilian Central Bank issued Resolution 219 on March 30, 2022. Both resolutions will change the accounting concepts and criteria applicable to financial instruments, aiming at convergence with the main concepts of "IFRS 9 - Financial Instruments".

CMN Resolution 4966/2021 is applicable to financial institutions and other institutions authorized to operate by the Brazilian Central Bank. Within the scope of Sicoob, this Resolution applies to Banco Sicoob, the Central and Individual Credit Unions and Sicoob DTVM, while BCB Resolution 219/2022 applies to Sicoob Consórcios and Unicoob Consórcios.

In addition, in March 2023, the Brazilian Central Bank issued Resolution 309, which determines accounting procedures for the following: (i) SPPI test; (ii) methodology for determining the effective interest rate (EIR); (iii) minimum provisioning requirements and simplified methodology; and (iv) disclosure aspects.

CMN Resolution 5100/2023 amended some articles of CMN Resolution 4966/2021, among which the following should be highlighted: (i) a change in the concept of counterparty; (ii) application of the concept of materiality for the purposes of determining the effective interest rate; (iii) a change in the need to set up a provision for expected losses on securities classified at fair value through profit or loss; (iv) the frequency of applying the risk rating criteria; (v) simplification of the calculation of expected losses for short-term receivables with no significant credit risk component; (vi) postponed use of the new hedging criteria ,effective in 2027.

The new accounting rules will be effective from January 1, 2025, and the adjustments resulting from their application should be recorded as a corresponding entry to the retained earnings (accumulated deficit) account, net of tax effects. The exception is for the effective interest rate methodology, according to which the Institutions must recognize revenues and expenses related to transaction costs based on the effective interest rate, on a forward-looking basis, for financial instruments contracted after January 1, 2025.

19.5.1 Summary of the Implementation Plans of Sicoob members impacted by the new rules

In compliance with the provisions of Article 76, sole paragraph, item II of CMN Resolution 4,966/21, a summary of the implementation plan required by the above-mentioned regulation is disclosed below:

- Phase 1 Assessment (2022): This phase comprises diagnostic activities for understanding the
 main accounting changes introduced by the Resolution, with the mapping of the main impacted
 systems, the preparation of a matrix detailing the identified action plans, and the definition of a
 schedule with the respective assignment of the staff in charge. A specialized consulting firm was
 hired to assist in this assessment process;
- Phase 2 Design (2023): This phase involves activities intended to specify the necessary system changes, define the system architecture, and design the transition strategy, new processes, and policies.

December 31, 2023

All amounts in thousands of reais, unless otherwise stated

- Phase 3 Development (2023/2024): This phase comprises activities related to new system developments, calculation methodologies (e.g. effective interest rate method, expected loss models for financial instruments), preparation of "FROM-TO" for the new chart of accounts, and changes in accounting routines.
- **Phase 4 Tests and Approvals (2024):** Includes the testing of system changes (at the homologation environment) and the implementation of the tested system developments;
- Phase 5 Transition activities (2024): Definition of new disclosure model, calculation of the opening balance, and assessment of the impacts from the initial adoption. This phase also includes training activities, and the parallel running of some existing systems and new processes;
- Phase 6 Initial adoption (January 1, 2025): Effective adoption of CMN Resolution 4,966/2021.

During the implementation plan's Phase I, the following main impacts were mapped, which were considered in the definition of the activities to be performed in subsequent implementation phases.

- Classification requirements: determination of the classification of financial assets in the
 categories Amortized Cost, Fair Value through Other Comprehensive Income (FVOCI) and Fair
 Value through Profit or Loss (FVTPL), considering the business model used to manage the
 financial assets and the characteristics of their contractual cash flows.
- Initial recognition and measurement requirements: recognition of financial instruments net of origination costs and income.
- **Subsequent measurement:** new measurement methods for financial instruments after initial recognition, considering the accrual of interest at the effective interest rate, the suspension of interest accrual for non-performing financial assets, and new measurement methodology for renegotiated and restructured transactions.
- Recognition and measurement of foreign exchange proceeds: these amounts will no longer be accounted for separately or from special event, but will instead be treated as a financial instrument subject to the business model and cash flow characteristics, and subsequently measured in accordance with the classification in which they are included.
- **Expected losses**: the measurement of expected credit losses requires the use of complex models and assumptions regarding future economic conditions and credit behavior. The performance of these calculations has a significant impact, considering the need to collect consistent historical data, organize and cluster the portfolio data, develop statistical models of expected losses, and implement the modeling codes in a productive environment, in addition to all the required changes in the regulatory reporting.
- Transitory provisions: studies and discussions will be carried out to define the transition strategy, including the implementation of a process to recalculate the balances at December 31, 2024, in accordance with the criteria of CMN Resolution 4966/2021 and Resolution 219/2022, which allow for the adjustment to the new rule to start on January 1, 2025.

December 31, 2023

All amounts in thousands of reais, unless otherwise stated

Finally, it is important to clarify that the monetary authorities still need to issue new rules, including the new Chart of Accounts for Financial Institutions (COSIF), in complement to those already issued, which in turn will impact the implementation of all these new requirements.

Note 20 - Operational limits - Basel Accord

In accordance with CMN Resolutions 4,192 and 4,193, both of 2013, financial institutions authorized to operate by BACEN must calculate and maintain regulatory capital (PR) consistent with the risks of their activities. Accordingly, each entity that comprises the System must comply with the provisions of these Resolutions.

Note 21 - Sicoob's centralized risk and capital management

21.1. Risk management

The risk management framework of Sicoob, which is centralized at Sicoob Cooperative Center (CCS), seeks to identify, measure, evaluate, monitor, report, manage, control and mitigate the risks inherent in its activities, based on established policies, strategies, processes and limits.

The institutional policy for the integrated risk and capital management, as well as the related guidelines are approved by the Board of Directors of CCS.

The integrated risk management covers, at least, risks related to credit, market, interest rate variation, liquidity, operations, social and environmental, and business continuity management, and ensures, on an ongoing and integrated basis, that these risks are managed in accordance with the levels defined in the Risk Appetite Statement (RAS).

The risk management process is segregated, and the organizational structure involved ensures specialization, representation, and rationality, with proper dissemination of risk management information and culture across the Institution.

The procedures in place ensure the timely reporting, to the governance bodies, of data relating to normal and atypical situations with respect to risk policies, as well as the application of stress tests to assess critical situations, which would require the adoption of contingency measures.

This centralized risk and capital management framework is consistent with the nature of the operations and the complexity of the products and services offered, as well as proportional to the extent of the Sicoob's entities exposure to risks, and does not relieve the credit unions of their responsibilities.

21.1.1 Operational risk

The operational risk management guidelines are recorded in the Institutional Policy for Operational Risk Management, approved by the Board of Directors of Sicoob Confederation, which defines consistent procedures, metrics and actions for all Sicoob's entities.

The operational risk management process consists of a qualitative and quantitative assessment of operational risks through stages that involve identification, assessment, treatment, documentation, and storage of information on operational losses incurred and recovered, and the performance of tests on control, communication and information systems.

December 31, 2023

All amounts in thousands of reais, unless otherwise stated

Operational losses are reported to the Operational Risk and Business Continuity Management (GCN) department, which interacts with the managers of the respective areas and formally identifies the causes of losses, adjusts the controls in place, and determines the need for improving processes, which may require the implementation of new controls.

The results are submitted to the Executive Board and Board of Directors.

The capital allocation methodology used to compute the portion of operational risk (RWAopad) is the Basic Indicator Approach (BIA).

21.1.2 Credit risk

The credit risk management guidelines are recorded in the Institutional Policy for Credit Risk Management, approved by the Executive Board and the Board of Directors, which defines consistent procedures, metrics and actions for all Sicoob's entities.

CCS is responsible for managing Sicoob's credit risk, by standardizing processes and methodologies intended to analyze the risk posed by counterparties and transactions, and monitoring assets exposed to credit risk.

In order to mitigate such risk, CCS makes use of risk analysis and rating models based on quantitative and qualitative data, to support the risk calculation process and the establishment of credit limits for borrowers, with a view to maintaining the high quality of the portfolio. Periodic tests are performed on these models, ensuring that they are consistent with the economic and financial condition of the borrowers. Default on the portfolio and the respective ratings assigned to the operations are also monitored, in accordance with CMN Resolution 2,682/1999.

The credit risk management framework requires the adoption of the following procedures:

- (a) definition of policies and strategies, including risk limits;
- (b) validation of systems, models and internal procedures;
- (c) estimation (using consistent and prudent criteria) of losses associated with credit risk, and comparison between the estimated and actually incurred losses;
- (d) specific monitoring of related-party transactions;
- (e) procedures for monitoring loan portfolios;
- (f) identification and treatment of troubled assets;
- (g) systems, routines and procedures to identify, measure, assess, monitor, report, control, and mitigate the exposure to credit risk;
- (h) monitoring and reporting of risk appetite limits;
- (i) periodic submission of managerial information to the governance bodies;
- (j) responsibility for calculating the level of the provision for expected credit losses;
- (k) creation of models to assess the counterparty credit risk, according to the transaction and the public involved, which take into consideration specific characteristics of the borrowers, as well as industry-related and macroeconomic aspects;
- (I) application of stress tests identifying and assessing the Institution's potential vulnerabilities;

December 31, 2023

All amounts in thousands of reais, unless otherwise stated

- (m) establishment of credit limits for each counterparty and overall limits by portfolio or credit line;
- (n) specific risk assessment for new products and services.

The standards for internal credit risk management include the organizational and regulatory framework, risk rating models for borrowers and operations, overall and individual limits, and the use of computer systems and system-based monitoring to validate models and compliance of processes.

21.1.3 Market and interest rate risks

The guidelines for management of market and interest rate risks are recorded in the Institutional Policy for Credit Risk Management, approved by the Executive Board and the Board of Directors, which defines consistent procedures, metrics and actions for all Sicoob's entities.

Sicoob's framework for managing market and interest rate risks is consistent with the nature of its operations and the complexity of the products and services it offers, as well as proportional to the extent of Sicoob's entities exposure to risks.

Sicoob's market and interest rate risks are managed by a specialized department, which ensures that the risk is managed in accordance with the levels defined in the Risk Appetite Statement (RAS) and with the guidelines provided for in the institutional policies and manuals.

The system adopted by Sicoob for measuring, monitoring and controlling market and interest rate risks is based on the use of widely known tools, which rely on the best risk management practices and cover all the positions held by the Institution.

For the market risk portions in the trading portfolio RWAjur1, RWAjur2, RWAjur3, RWAjur4, RWAcam, RWAcom, and RWAacs, the methodologies used are based on regulations issued by the Brazilian Central Bank.

The interest rate risk of the banking portfolio (IRRBB) is managed through the use of good practices and consolidated assessment models, The risk management process uses the economic value and financial intermediation result approaches.

- (a) Economic Value of Equity (EVE): this methodology consists of assessing the effect of changes in interest rates on the present value of the cash flows of instruments included in the banking portfolio;
- (b) Non-interest Income (NII) approach: this methodology consists of assessing the effect of changes in interest rates on the result of financial intermediation included in the banking portfolio;

The monitoring of market risks and interest rate variations is carried out by means of periodical reports prepared by the specialized department and submitted to the governance bodies, committees, and senior management that include, at least:

(a) the value at risk and the use of the banking portfolio's limit, under the economic value and financial intermediation result approaches;

December 31, 2023

All amounts in thousands of reais, unless otherwise stated

- (b) the value at risk and the use of the trading portfolio's limit, under the standardized approaches provided by the Brazilian Central Bank;
- (c) an analysis of mismatches between asset and liability flows, segregated by maturity and risk factors;
- (d) maximum exposure limits to interest rate risks;
- (e) a sensitivity analysis to assess the impact on the market value of the portfolio's cash flows when subject to a parallel increase of one (1) basis point in the yield curve;
- (f) result of the embedded gains and losses (EGL);
- (g) stress tests; and
- (h) a contingency plan.

In addition, stress tests are performed on the banking and trading portfolios to assess the risk sensitivity to the limits defined in the RAS.

21.1.4 Liquidity risk

The liquidity risk management guidelines are recorded in the Institutional Policy for Financial Centralization Management and Institutional Policy for Liquidity Risk Management, approved by the Executive Board and the Board of Directors, which define consistent procedures, metrics and actions for all Sicoob's entities.

The liquidity risk management framework of Sicoob is consistent with the nature of its operations and the complexity of the products and services it offers, as well as proportional to the extent of its exposure to risks.

Sicoob's liquidity risk is managed by a specialized department, which ensures that the entities' risk is managed in accordance with the levels defined in the Risk Appetite Statement (RAS) and with the guidelines provided for in the institutional policies and manuals.

The liquidity risk management of Sicoob's entities complies with the aspects and standards set out by the regulatory authorities, and are constantly improved and aligned with good management practices.

Liquidity risk management instruments used:

- (a) monitoring, through periodic reports sent to the governance bodies, committees and senior management, addressing at least:
 - minimum liquidity limit;
 - projected cash flow;
 - application of stress scenarios;
 - definition of contingency plans;
- (b) performance of tests to assess the liquidity risk control systems;
- (c) preparation of reports that allow for the timely identification and correction of control weaknesses and management of liquidity risks;
- (d) existence of a contingency plan containing the strategies to be adopted to ensure the continuity of activities and limit losses arising from liquidity risks.

December 31, 2023

All amounts in thousands of reais, unless otherwise stated

Quarterly stress tests are performed for various scenarios, with a view to identifying any deficiencies and atypical situations that could compromise the liquidity of Sicoob's entities.

In managing liquidity risk, procedures for identification of short- and long-term risks are adopted, considering possible impacts on the liquidity of the Banco Sicoob Group.

As a control mechanism to assess the effectiveness of the contingency plan, the main measures are tested on a quarterly basis to evaluate the liquidity generation capacity.

21.1.5 Social, environmental, and climate risks

The guidelines for managing social, environmental and climate risks are designed to identify and mitigate significant risks that may impact the stakeholders, as well as the products and services provided by Sicoob.

Sicoob adopts the Institutional Policy for Social, Environmental and Climate Responsibility (PRSAC) to classify the exposure of lending operations to social, environmental and climate risks. The principles and guidance that stem from the established guidelines contribute to create an approach compatible with the relevance of the exposure to social, environmental, and climate risks.

Social risk: The social risk management process aims is to promote respect for diversity and protection of rights in business relationships and for individuals in general, by assessing and measuring both positive and negative impacts, and potential losses that could affect the Sicoob's reputation.

Environmental risk: The process of environmental risk management involves conducting systematic evaluations based on information about the environment provided by relevant agencies, as well as monitoring potential impacts.

Climate risk: The process of climate risk management involves a systematic assessment of potential damage that may arise from climate-related events. Additionally, it includes monitoring the transition and physical risks associated with climate change.

Social, environmental and climate risks are monitored in Sicoob's business lines, following the eligibility criteria below, and the evaluation procedures disclosed in internal manuals, in compliance with the rules and regulations in force:

- (a) sectors at greater exposure to social, environmental, and climate risks;
- (b) credit lines and borrowing facilities at greater exposure to social, environmental, and climate risks; and
- (c) amount of debt balance in lending operations at greater exposure to social, environmental, and climate risks.

Sicoob does not carry out transactions with counterparties included in the list of employers that have subjected workers to slavery-like conditions, or exploited child labor.

December 31, 2023

All amounts in thousands of reais, unless otherwise stated

21.1.6 Cybersecurity risk

Cybersecurity Risk Management is part of the Integrated Risk Management and covers risks related to the security of systems, networks, infrastructures, data and users, ensuring a comprehensive approach to protecting Sicoob entities against cybersecurity threats.

The process of identifying, assessing, treating and monitoring cybersecurity risks is carried out at least every two years.

December 31, 2023

All amounts in thousands of reais, unless otherwise stated

21.2. Business continuity management

The guidelines for business continuity management are recorded in the Institutional Policy for Business Continuity Management, approved by the Executive Board and the Board of Directors of Sicoob Confederation, which defines consistent procedures, metrics and actions for all Sicoob's entities.

The process of business continuity management requires the performance of the following activities:

- (a) identification of the possibility of stoppage of activities;
- (b) assessment of the results and consequences (potential impacts) to the entity that may arise from the stoppage of activities;
- (c) definition of the strategy to recover from potential discontinuity incidents;
- (d) implementation of the strategies (performance of the activities defined, with clear specification of what to do, by whom and when) for handling adverse incidents that could lead to a disruption in a process or activity considered critical;
- (e) planned continuity of operations (assets, including people, processes and systems), involving procedures for the periods before, during and after the stoppage; and
- (f) transition between the contingency and the resumption of the normal course of business (end of the event).
- (g) analysis of the procedures that ensure business continuity in a contingency situation, identifying aspects that performed well and those that need to be improved to prevent future failures, and implementing the necessary corrections.

The Impact Analysis (AIN) is performed by the CCS with the aim to identify the system's critical processes and define strategies for their continuity, to protect the organization from prolonged interruptions that could threaten business continuity. This analysis considers financial, legal, and reputation impacts.

Business Continuity Plans, which are prepared, reviewed, and tested annually, include key procedures to be performed for the purpose of ensuring that the activities are maintained at an acceptable level in the event of contingencies. These Plans are classified into: Operational Continuity Plan (OCP), and Disaster Recovery Plan (DRP).

The effectiveness of the Business Continuity Plans is tested annually.

21.3. Capital management

Capital management of Sicoob's entities is an ongoing forward-looking process that aims to assess the institutions' capital requirements, considering Sicoob's strategic goals for a minimum time horizon of three years.

The guidelines for ongoing monitoring and control of capital are included in Sicoob's Institutional Policy for Capital Management, to which all Sicoob members have formally adhered.

The capital management process relies on a set of methodologies that enable the Sicoob Cooperative Center to identify, assess, and control major exposures, so as to maintain a capital level compatible with

December 31, 2023

All amounts in thousands of reais, unless otherwise stated

the risks incurred by Sicoob's entities. A specific capital plan in place provides for capital targets and forecasts that consider the strategic goals, the main sources of capital and the contingency plan. Additionally, severe events and extreme market conditions are simulated, and the related results and impacts on the capital framework are submitted to the Executive Board and Board of Directors.
