Sistema de Cooperativas de Crédito do Brasil - Sicoob

Combined financial statements at December 31, 2024 and independent auditor's report

Independent auditor's report

To the Management and Members Sistema de Cooperativas de Crédito do Brasil - Sicoob

Opinion

We have audited the accompanying combined financial statements of Sistema de Cooperativas de Crédito do Brasil - Sicoob ("Sistema Sicoob" or "Institution"), consisting of the entities listed in Notes 2.5 and 2.6, which comprise the combined balance sheet as at December 31, 2024 and the combined statements of income, comprehensive income, changes in equity and cash flows for the year and six-month period then ended, and notes to the combined financial statements, including the significant accounting policies and other explanatory information.

In our opinion, the combined financial statements referred to above present fairly, in all material respects, the combined financial position of Sistema de Cooperativas de Crédito do Brasil - Sicoob as at December 31, 2024, and its combined financial performance and cash flows for the year and six-month period then ended, in accordance with the guidelines for the preparation of combined financial statements established by Resolution 4,151 of the National Monetary Council CMN, dated October 30, 2012, and the additional regulations issued by the Brazilian Central Bank (BACEN), whose main criteria and accounting practices are described in Notes 2 and 3.

Basis for opinion

We conducted our audit in accordance with Brazilian and International Standards on Auditing. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the combined financial statements section of our report. We are independent of the Institution in accordance with the ethical requirements established in the Code of Professional Ethics and Professional Standards issued by the Brazilian Federal Accounting Council, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of matter - Basis of preparation of the combined financial statements

We draw attention to Note 2 to the combined financial statements, which describes that the Institution's combined financial statements were prepared by management in order to meet the requirements of CMN Resolution 4,151/2012, as well as BACEN's additional regulations. Consequently, our report on these combined financial statements was prepared, exclusively, to meet these specific requirements and, therefore, may not be suitable for other purposes. Our opinion is not modified in respect of this matter.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the combined financial statements for the current period. These matters were addressed in the context of our audit of the combined financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Why it is a key audit matter

How the matter was addressed in the audit

Provisions for expected losses associated with credit risk (Notes 3.9 and 6.3.2 and 6.3.6)

The estimate of the provisions for expected losses associated with credit risk involves management's judgment, considering the expected realization of the loan portfolio based on past experience, current scenario and future expectations and specific risks of the loan portfolios.

The provisions for expected losses associated with credit risk are recorded in accordance with the regulatory requirements of the National Monetary Council (CMN) and the Brazilian Central Bank (BACEN), especially CMN Resolution 2,682, and are based on the analyses of outstanding receivables (past due and not yet due).

Accordingly, this area remained as an area of focus in our audit, since the use of judgment in the calculation of the provision for expected losses associated with credit risk could result in significant variations in its estimate.

We updated our understanding of and tested the significant internal controls for the calculation and recognition of the provisions for expected losses associated with credit risk of Banco Cooperativo Sicoob S.A., mainly: (i) approval of the credit policy; (ii) credit analysis; (iii) credit granting and renegotiated transactions; (iv) attribution of rating considering the risk of the recoverable amount of transactions; (v) processing and recording of provisions; (vi) reconciliation of account balances with the analytical position; and (vii) preparation of the notes to the combined financial statements.

Additionally, for Banco Cooperativo Sicoob S.A. and for other entities of the Sistema Sicoob considered on a sample basis, we performed tests to verify the integrity of the database used to calculate the provisions for expected losses associated with credit risk, in addition to tests to verify the application of the calculation methodology for these provisions in relation to the ratings attributed, the assumptions adopted, as well as the comparison of the account balances with the analytical reports.

We consider that the criteria and assumptions adopted by Management to determine and record provisions for expected losses associated with credit risk are reasonable and consistent with the information analyzed in our audit.

Provisions for contingent liabilities (Notes 3.20 and 13)

The institutions comprising the Sistema Sicoob are party to tax, labor and civil proceedings, at the administrative and judicial levels, resulting from their normal course of business.

The determination of the likelihood of loss involves judgment by management, which counts on the support of its internal and external legal advisors.

In general, these proceedings are only concluded after a lengthy period and involve not only discussions on merits, but also complex procedural aspects, in accordance with applicable legislation.

The decision to recognize a contingent liability and the measurement bases require the judgment of management, which is periodically reassessed, including Our audit procedures included, among others, the updating of our understanding and tests related to the identification, the recognition of contingent liabilities and their disclosures in the explanatory notes to the combined financial statements.

Additionally, we performed confirmation procedures with the legal advisors responsible for accompanying the judicial and administrative proceedings, on a sample basis, to confirm the assessment of the loss prognosis, including considering the main new events that occurred in the period, the completeness of information and the value of provisions, comparing with the analytical reports that originate the accounting balances.

Why it is a key audit matter

How the matter was addressed in the audit

when preparing the financial statements, and considering new events. Under these circumstances, this by management to determine and record the provisions matter remained as an area of focus in our audit.

We consider that the criteria and assumptions adopted for contingent liabilities are reasonable and consistent with the information analyzed in our audit.

Information Technology Environment

Banco Cooperativo Sicoob S.A. has a business environment that is highly dependent on technology, requiring a complex infrastructure to support the high volume of transactions processed daily by its several systems.

The risks inherent to Information Technology, associated with the processes and controls that support the technology systems, in view of the legacy systems and existing technology environments, may result in the incorrect processing of critical information, including those used for the preparation of the Combined financial statements. This matter remained an area of focus in our audit.

With the assistance of our system experts, we reviewed our evaluation of the design and tested the operating effectiveness of the internal controls related to the management of the Information Technology environment.

Our audit procedures comprised a combination of control tests of the key processes related to information security, the development and maintenance of systems, and the operation of computers related to the infrastructure that supports the Banco Cooperativo Sicoob S.A. and its subsidiaries.

As a result of our work, we consider that the technology environment processes and controls provided a reasonable basis to determine the nature, period and extent of our audit procedures for the financial statements.

Other information accompanying the combined financial statements and the auditor's report

The Institution's management is responsible for the other information that comprises the Management Report.

Our opinion on the combined financial statements does not cover the Management Report, and we do not express any form of audit conclusion thereon.

In connection with the audit of the combined financial statements, our responsibility is to read the Management Report and, in doing so, consider whether this report is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement in the Management Report, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the combined financial statements

Management is responsible for the preparation and fair presentation of the combined financial statements in accordance with CMN Resolution 4,151/2012, as well as BACEN's additional regulations, the main criteria for which and respective accounting practices are described in Notes 2 and 3 to the combined financial statements, and for such internal control as management determines is necessary to enable the preparation of combined financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the combined financial statements, management is responsible for assessing the Institution's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Institution or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Institution's financial reporting process.

Auditor's responsibilities for the audit of the combined financial statements

Our objectives are to obtain reasonable assurance about whether the combined financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Brazilian and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these combined financial statements.

As part of an audit in accordance with Brazilian and International Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the combined financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Institution's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Institution's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the combined financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Institution to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the combined financial statements, including the disclosures, and whether these financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the combined financial statements. We are responsible for the direction, supervision and performance of the Sistema Sicoob audit. We remain solely responsible for our audit opinion.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the combined financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the Key Audit Matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

December 31,2024

To the Managers and Members of Sicoob

We are pleased to present the Combined Financial Statements of Sistema de Cooperativas de Crédito do Brasil – Sicoob as at December 31, 2024, which discloses the highlights of its performance and the significant events during the year.

Macroeconomic scenario

In 2024, the Brazilian economy exhibited contrasting dynamics. Despite the solid performance in several indicators — including GDP growth, a resilient labor market, income gains, and credit expansion — renewed inflationary pressures and fiscal concerns eroded market confidence, resulting in a depreciation of the local currency. On the international front, the global economic outlook was primarily influenced by the United States, where the Federal Reserve implemented moderate interest rate cuts, while the outcome of the presidential election, combined with expectations of more aggressive fiscal policies, strengthened the US dollar and pushed interest rates higher. China, in turn, implemented measures to stimulate its economy and counteract the slowdown.

Economic activity remained positive in Brazil, with GDP growing 3.3% in the first three quarters of 2024, mainly driven by the service sector which recorded a 3.8% increase. The industry rose by 3.5%, with electricity, gas, and civil construction standing out. The agricultural sector faced difficulties, with a 3.5% drop in GDP, reflecting the impact of a severe drought and high temperatures, which affected corn, soybean, and wheat production.

Livestock production grew, boosted by strong international demand, particularly for beef and poultry. Household consumption increased by 5.1%, supported by rising income and credit expansion. Investments also performed strongly, growing by 6.6% and outpacing the growth in consumption. However, exports slowed, while imports rose by 14.2%, reflecting stronger domestic demand.

The labor market continued to expand compared to 2023, with the creation of 1.69 million new formal jobs. The unemployment rate declined to 6.2%, while real average income rose by 4.5%. Household consumption benefited from a 7.7% increase in total income. Bank credit grew significantly, expanding by 10.5%, driven in particular by a notable 12.6% increase in corporate lending. However, tighter financial conditions contributed to a slowdown in economic activity toward the end of the year.

Companies also resorted to the capital market, with issuances totaling R\$ 770.2 billion, a real increase of 61.4% over 2023, with debentures accounting for 61.5% of total issues. Financial conditions in the banking sector remained under control, with bank interest rates for individuals below 2023 levels. Some areas, however, such as revolving credit cards, experienced an increase in defaults.

Official inflation, as measured by the IPCA, rose 4.8%, accelerating at the end of the year due to higher prices in the Food and Beverages group, particularly meat, oils, and milk. The IGP-M, in turn, rose by 6.4%, reflecting the currency depreciation and higher wholesale prices. Rising inflation prompted the Brazilian Central Bank to pause its Selic rate-cutting cycle, keeping the rate at 12.25% by the end of the year, where it remained through early 2025.

December 31,2024

On the fiscal front, public accounts improved, with the central government deficit narrowing from R\$ 230.5 billion in 2023 to R\$ 43 billion in 2024. Net revenues grew by 8.9% in real terms, driven by heated economic activity, while total expenditures declined by 0.7%. The debt-to-GDP ratio rose to 76.1%. Although foreign trade recorded a surplus of US\$74.6 billion, higher volume of imports led to a current account deficit of US\$56 billion. International reserves ended the year at US\$329.7 billion.

Major economies abroad, such as the US, continued to perform well, recording a 2.8% growth, and inflation of 2.9%. The Federal Reserve started the year by cutting interest rates, but the easing cycle was suspended in 2025. In China, GDP grew by 5%, while the Eurozone posted modest growth of just 0.7%. Global markets benefited from lower interest rates, with the S&P 500 rising 23.3% and the Nasdaq climbing 24.8%, as a result of gains in the technology sector and the continued growth of artificial intelligence.

In Brazil, financial assets had a challenging year, affected by the local currency depreciation and a deteriorating fiscal outlook. The Ibovespa index was down 10% and the 10-year interest rate rose to 15.1%. In summary, 2024 was a year of economic contrasts, with solid performance in some indicators but growing fiscal and macroeconomic concerns, which weighed on investor confidence in the short term. The international backdrop — particularly in the United States and China — was also significantly affected.

Sicoob

Sicoob is part of the largest credit union system in Brazil, with over 8,520,748 members and 4,672 service units spread throughout the Brazilian territory. The system is comprised of credit unions and supporting companies, which, together, provide Sicoob members with services related to current account, credit, investment, credit card, social security, consortium, insurance, bank collection, and acquiring operations by electronic payment means, among other. Despite not being a bank, Sicoob provides the same services as banking networks, operating as a financial credit union owned by the clients themselves, who therefore, share the results, either direct or indirectly, since part of the earnings is earmarked for community projects.

Fitch Rating

In October 2024, Sicoob had its credit rating upgraded to "Triple A" (AAA) by Fitch Ratings, which corresponds to the highest level of confidence assigned by one of the three largest credit rating agencies. This rating reflects Sicoob's financial strength, efficient management, and institutional responsibility, as well as reinforces the Bank's credibility with its members and the market.

Sicoob's solid financial indicators, as well as the stability and sustainability of its operating environment were key factors for the rating upgrade. Fitch highlighted the cooperative model as the strategic competitive advantage driving the Bank's growth, stable deposit funding, and strong earnings performance. The analysis considered key aspects such as the Institution's liquidity, governance, and risk management capabilities.

With a Triple A rating, Sicoob has reinforced its position as one of the leading players in the financial market, supported by effective capital management and risk mitigation strategies that enhance its ability to adapt, innovate, and respond to the demands of an increasingly competitive environment.

The report featuring Sicoob's analyses is available at Fitch Ratings website.

December 31,2024

Performance

a. Total assets

At December 31, 2024, total assets reached R\$ 359.7 billion, up 20.5% compared to December 31, 2023, an increase mainly driven by lending operations and investments in marketable securities.

b. Loan portfolio

The loan portfolio net of provision reached R\$ 181.7 billion, a significant increase of 14.4% in relation to the previous year. Loans and discounted bills grew by 17,3%, with a total portfolio of R\$ 113.7 billion. Financing increased by 23.8%, totaling R\$ 27.6 billion. The balance of rural and agribusiness financing totaled R\$ 51.7 billion at the end of the six-month period, while the provisions increased by 31.1%, totaling R\$ 12.3 billion.

c. Expanded loan portfolio

At December 31, 2024, the expanded loan portfolio, which includes credit card operations, sureties and guarantees honored, receivables on purchases of assets and other credits, totaled R\$ 196,1 billion, net of provision, increasing by 14.2% in relation to December 31, 2023.

d. Credit cards

Banco Sicoob's card issuance segment, comprised of cards issued by Sicoob and other credit union systems, reached 12.70 million cards issued at the end of 2024. The expansion of the card base through partner credit union systems accounted for approximately 18.68% of total operations.

The volume of purchases with cards increased by 12.15% in relation to 2023, reaching R\$ 118.03 billion. Considering only transactions carried out using the credit function, the volume totaled R\$ 71.87 billion.

e. Acquiring operations

In 2024, acquiring operations, which combine the Sicoob's client base and those of partner systems, recorded a decrease of 22.21% in the number of authorized licensees of the Sipag card machine when compared to 2023.

Despite such decrease, the accumulated volume of transactions totaled R\$ 62.08 billion, up 36.18% in relation to the same period last year.

f. Funding transactions - Deposits, LCA and LCI

Total deposits amounted to R\$ 230.5 billion in the year, up 26.4% when compared to the R\$ 182.3 billion recorded at the end of 2023. This result reflects the high confidence level of credit union members in the System's management. Time deposits (Credit Union Deposit Receipts (RDCs)) increased by 37.5%, from R\$ 111.1 billion at December 31, 2023 to R\$ 152.8 billion at December 31, 2024. The funds raised with Agribusiness Credit Notes (LCAs) and Real Estate Credit Notes (LCIs) decreased 13.8%, from R\$ 39.6 billion in December 2023 to R\$ 34.1 billion at December 31, 2024.

g. Equity

Equity totaled R\$ 54.5 billion at the end of the year. up 18.2% in relation to the amount recorded at December 31, 2023, mainly due to the increase in share capital and the recording of surplus for the period. In 2024, the average annualized return on average equity was 19.71%.

December 31,2024

h. Surplus (net result)

Surplus for the year, net of interest on capital, totaled R\$ 6.3 billion, a decrease of 1.7% when compared to the R\$ 6.4 billion recorded for 2023. This reduction resulted mainly from an increase in provisions for loan losses, in line with the growth of the loan portfolio.

Increase in the number of Sicoob members

In 2024, the number of Sicoob members grew by 10%, with over 700,000 new members, which reflects the society's interest in alternatives to the traditional banking system. The number of members that are legal entities reached 1,703,396, accounting for 20% of Sicoob's membership base.

Sicoob provides its members with a wide service network, featuring 4,672 branches in 2,427 Brazilian municipalities. It should be noted that in 414 of these municipalities, Sicoob is the only financial institution in operation, with full assistance to the general public (comfortable premises, open from Monday to Friday, offering all products and services and providing personal support). Services are also available through 7,881 Electronic Service Units (PAEs) owned by the Institution, and over 24 thousand ATMs shared with the Banco24Horas Network.

The opening of new accounts has been simplified, being offered through the Bank's digital channels. New associations now benefit from a faster mechanism, which reduces the time between the application for opening an account and the full use of the new account. In 2024, Sicoob's digital channel - Sicoob App received approximately 415,000 associations.

Information technology and Digital transformation

Recognizing the critical importance of investments in innovation in an increasingly connected and demanding world, Sicoob has been actively engaged in its digital transformation, by focusing on business growth, operational efficiency, enhanced cybersecurity, effective risk management, and the introduction of new products and services. Through these efforts, Sicoob aims to foster the credit unions' development to fully meet the needs of its members. This approach is significantly reflected in the figures presented.

Data for 2024 alone shows the huge volume of transactions carried out by members on Sicoob's Digital Platform for Financial Services - Sisbr. Over 20 billion transactions were carried out in the period, a number approximately 23% higher than in 2023. Of these transactions, 97.13% were completed through digital channels (cell phone, internet and Application Programming Interfaces (APIs). Sicoob's Super App accounts for nearly 73% of these financial transactions and continues to gain in preference among the members, as confirmed by the excellent reviews received by the online stores (rating of 5 on the Apple Store and PlayStore).

During the year, the volume of card authorization requests increased from 820 million to 888 million transactions. 1.9 billion transactions were carried out through the Pix functionality, totaling approximately R\$ 1.9 trillion. The contactless technology, which allows purchases to be made by simply tapping the card on a machine, has also experienced a significant growth of over 75%, with 484 million transactions totaling approximately R\$ 41.9 billion.

Another major topic in the agenda of Sicoob Cooperative Center (CCS) teams were regulatory requirements, notably CMN Resolution 4.966, which establishes new accounting and financial asset measurement criteria, requiring adjustments to various Sisbr modules, in particular, credit products,

December 31,2024

risk, cards, current accounts, marketable securities and accounting, in addition to RFB Regulatory Instruction 2.229, which changes the format of the Brazilian National Register of Legal Entities (CNPJ) to include letters in response to the growing market demand for new registration numbers.

All this upward movement reinforces the belief that investments in technology, security, usefulness, and convenience are both valuable and worthwhile.

Cyber resilience

The infrastructure that supports the Sisbr platform and enables its significant growth is subject to continuous updating, in compliance with international standards, and also to internal and external audits, so as to ensure its strength, safety, reliability, and resilience.

In 2024, we reached a significant milestone in terms of service quality, reflected in the performance of the Cyber resilience indicator, which rose from 98.94% in 2023 to 99.69% in 2024. This achievement resulted from a strategy focused on the fundamental pillars of Availability, Performance and Quality of IT solutions. By investing heavily in the modernization of its technological architecture, the streamlining of internal processes and the launch of overt monitoring, Sicoob has not only been able to provide a more effective response to incidents, but has also improved the stability and reliability of its digital services. The ongoing improvement of these indicators is a key priority, as we recognize that the experience of our members is directly influenced by the accessibility and performance of our systems.

In addition, the enforced traceability has been essential to further raise the quality of our services. Real-time data monitoring and analysis have enabled us to anticipate problems and respond quickly to solve them, minimizing any impact on our members. As a result of the efforts targeted to the above-mentioned pillars, Sicoob's Super App has become three times faster than its previous version, both in logging in and in browsing and performing transactions. Thanks to a faster transaction processing, the level of our members' loyalty and satisfaction has increased significantly, reflecting our ongoing commitment to innovation and excellence in technology. This outstanding performance not only strengthens the Cyber Resilience indicator, but also enhances the member experience, and reinforces our focus on maintaining high indicator levels which represent our clients' trust and satisfaction in using our services.

Investment in technology

A crucial challenge for our business lies in upholding, streamlining and enhancing our technological platform. Approximately R\$ 297 million were invested in 2024, for the maintenance and improvement of products and services. These investments are essential to ensuring the sustainable growth of Sicoob's business, as the continuous evolution of our services fundamentally relies on strategic investments in technological infrastructure. The innovation and modernization of our systems — which drive greater operational efficiency, information security, and scalability — enable us to keep pace with market demands and deliver increasingly agile solutions tailored to the needs of our members. It is through these initiatives that we reinforce our commitment to excellence and competitiveness, further consolidating Sicoob as a leading example among credit union systems.

December 31,2024

Innovation - New opportunities

Undoubtedly, Sicoob stands out among the most important agribusiness financing agents in Brazil. In this regard, it has been implementing new technologies and guidelines to facilitate the operation of all the modules that relate to Rural Credit. These initiatives are intended to prepare the credit unions for the 2024/2025 Crop Season Plan, aiming at improving the performance of environmental compliance indicators, and data linked to credit granting, enterprise control, and the use of financial resources from the National Bank for Economic and Social Development (BNDES), Constitutional Funds and the ProAgro program, among others.

Our investments are not restricted to technology, but are also targeted to expand the range of new funds offered, which allows for even greater diversification of our members' portfolios. We are boosting client loyalty and long-term engagement by providing options focused on companies with smaller capitalization but great growth potential; on shares for investors who seek more consistent and secure returns or for those who value alternatives that are more sustainable, strategic, relevant and up-to-date in the money market.

The recently launched new fixed-income module ("*Renda Fixa*") offers a faster and more efficient product management experience, enabling operators to define rates, grace periods and intermediation options directly in the system, making the products available on the investment platform, either in the Super APP or in Sisbr 3.0, which provides more flexibility for each credit union.

In response to a long-awaited request from our members, Sicoob cards are now available on Apple Pay, offering even greater convenience and security. This new feature simplifies the use of our cards, making them more accessible, and providing a cutting-edge experience that aligns with the expectations of our members, who can now make payments in a fast, secure, and contactless manner.

MOOB is the communication platform intended to facilitate interaction between credit unions and their members, through which the credit union shares news, results, figures, event broadcasts, and topics for discussion. This has been a fundamental tool in supporting our credit unions through the process of holding meetings for accountability, disclosure of results, and voting on issues of interest to members. Each year, MOOB consolidates its position as the institutional digital communication channel linking credit unions with their members, responsible for 274 events (AGMs and EGMs) and 1 million votes cast in 2024.

The future is now

At Sicoob, the use of artificial intelligence has already come to fruition! Significant effort has been devoted to researching and implementing solutions involving Artificial Intelligence. Aligned with the ongoing digital transformation, we have been actively training our staff, allocating resources to enhance existing tools, fostering knowledge sharing across teams, and collaborating to improve the experience of both our members and employees in the use of technological solutions.

This approach is currently widely applied in the business processes automated by Sisbr. Examples include processing large volumes of data, defining the different variables used to assess members' risk levels and set limits, enabling members to contract credit seamlessly and quickly both at

December 31,2024

branches and via the SuperApp, validating fraud prevention on digital channels, enhancing the intelligence of our virtual assistant Alice, and powering various co-pilots that support our solutions.

Currently, 63 digital employees perform manual labor around the clock, using complex codes that emulate human cognitive processes such as vision, hearing, and the manipulation of data input devices like a mouse and keyboard. This digital workforce is applied to repetitive, low-level intellectual tasks—mainly data entry—during work shifts that would be unfeasible for our human workforce.

Our robots extract information from documents, images, and videos, which is then used to integrate with applications that keep the business processes running, with gains in efficiency, quality, and cost reduction for the CSC and other related areas. Employees who were previously responsible for performing these time-consuming tasks, can now focus on duties that require greater intellectual input, thus making a more significant contribution to achieving better business results. Our digital employees have already replaced more than 340,000 hours of human labor since the start of their activities.

In line with the trend towards an increasingly connected economy, Sicoob has enabled the generation of new digital businesses through APIs available to its members, thereby providing a fluid, fast, dynamic and secure connection for financial transactions. In 2024 alone, approximately 87 million financial transactions were carried out using this channel, accounting for 14.35% of total movement.

Cybersecurity continued to be a priority for Sicoob. One of the highlights was the great progress made in the Systemic Management of Cyber Risk and Cybersecurity Project, with the implementation of security solutions in 341 credit unions and more than 4,000 service points, all of which are monitored 24/7 by the Security Operations Center (SOC), in addition to the launch of penetration testing in the credit unions' environment.

The investments made in researching Artificial Intelligence technologies, particularly Generative AI, are beginning to bear fruit. They are used in generic intelligent assistants, such as those currently available on Sisbr, but also in co-pilots that extend human capabilities in the performance of specialized tasks. In the Super App, a co-pilot assists our members with credit simulations and contracting. Sisbr Intelligent Assistant was developed using co-pilot technology, extending the capabilities of our professionals across a range of specialized and niche applications. This translates into greater productivity and excellence—doing more, and doing it better—delivering significant benefits to the Sicoob's business areas.

As part of defining our future strategy, we have approved the new IT Plan for the 2024–2026 period, which is in line with Sicoob's Systemic Strategy Pact and reflects our mission of making the Sisbr technological platform increasingly fast, connected and intelligent. A total of 558 initiatives were completed in the first half of this year.

This is the result of Sicoob's constant investment in technology and know-how to fulfill its purpose of "connecting people and promoting financial justice and prosperity".

December 31,2024

Awards

• In recognition for being constantly aligned with the main industry trends and in search of innovations and technological advances to deliver greater comfort to its members, Sicoob was awarded major prizes in 2024, namely:

100+ Innovative Companies in Technology - IT Forum

• Ranked among the 100+ Innovative Companies in the Use of IT in the annual environment review carried out by IT Forum, Sicoob was recognized as one of the leading institutions in the use of technology to drive innovative projects.

Sicoob SuperApp awarded a prize in the Agilidade Brasil 2024 ranking - Agile Trends

• The Sicoob SuperApp project was awarded the 'Most Agile Cases in Brazil' digital seal in the Agilidade Brasil 2024 ranking, promoted by Agile Trends, which recognizes companies that are committed to agility and have obtained consistent results by applying the methodology.

Energy Efficiency Certification (CEEDA) for the CCS data center - Silver Level

• The CCS data center has been recognized by Data Center Dynamics (DCD) with CEEDA certification, which attests to an organization's application of the world's best practices in energy efficiency and sustainability. Sicoob is now the only institution in Latin America awarded with a Silver level certification.

Digital Growth Award received at the World Credit Union Conference (WCUC)

• At the World Council of Credit Unions, held in Boston, USA, Sicoob received further international recognition for promoting financial justice and wealth. Our case Sipag 2.0 has demonstrated the extent to which our services can change the reality of an entire community by presenting the impact generated in the municipality of Rio Pardo - RO

Top 3 best Brazilian banks - Forbes

• For the second consecutive year, Sicoob was ranked as the third best financial institution in Brazil, according to the "World's Best Banks 2024" survey conducted by Forbes in partnership with the market research company Statista.

The 100 largest banks - Valor 1000

• For the third consecutive year, Sicoob has ranked among the 10 largest financial institutions in Brazil, according to the "Valor 1000" classification. With over 8.3 million members, the System has proven its consistency and soundness in the financial market.

"Estadão Finanças Mais" Award

• Sicoob won first place in the Banks – Financing category at the 8th edition of the "Estadão Finanças Mais 2024" Awards, held by the newspaper "Estadão" on December 2. This recognition, awarded for the fifth time, reaffirms the relevance of credit unions as a solid, fair, and efficient alternative in the sector.

December 31,2024

Banking Transformation Award - Cantarino Brasileiro

• Sicoob was a highlight at the 20th edition of the Banking Transformation Award, promoted by "Cantarino Brasileiro", a Market and Communication company that rewards the most innovative initiatives in the National Financial System. The Institution was the winner in the Open Finance category, with its case study on the portability of Payroll-deductible loans based on Open Finance data. In addition, Sicoob also ranked among the top three in two other categories: Digital Assets, with its case study on Sicoob's Intelligent Assistant, and Banking Anywhere, a case study on the Sicoob Super App.

"Marcas Mais Estadão" Award

• With its more than 8.3 million members, Sicoob ranked third in the "Credit Unions" category in the special 10th anniversary edition of "*Marcas Mais Estadão*".

New agreements

In 2024, new corporate agreements for the collection of bar-coded invoices/payment slips and direct debits were signed, totaling 970 partnership agreements. The following partnerships are worth mentioning: DETRAN DF, GDF (GNRE), Municipal Government of Niterói RJ, Municipal Government of Maringá PR, Municipal Government of Viana ES, Municipal Government of Joinville SC, Municipal Government of Tapurah MT, Municipal Government of Augusto Pestana RS, Municipal Government of Quirinópolis/GO, SAAE Itabira/MG, Águas de Jaru/RO, and SAAE Indaiatuba/SP.

The portfolio of agreements, which is highly relevant to the National Financial System, is available to Sicoob's credit unions, as well as to other systems and banking institutions.

Citizenship and Sustainability

In the Systemic Strategy Pact (2024/2026), the "Citizenship and Sustainability" aspect reflects the challenges faced to fulfill our purpose, and to positively enhance the economic, social and environmental impact on the credit unions and the communities in which Sicoob operates, through cooperative education, financial citizenship, and sustainable development of the business and society.

To effectively address these challenges, the Sicoob Cooperative Center (CCS) has established a 'Citizenship and Sustainability' department, which is responsible for managing the three agendas that are relevant to both the business and its stakeholders: Sustainability Agenda, Financial Citizenship Agenda and Strategic Social Investment/Sicoob Institute.

December 31,2024

Sicoob Sustainability Agenda

The financial sector plays an essential role in the process of raising and allocating capital in support of a more sustainable economy. Brazilian Central Bank – aligned with the global sustainability agenda, and consistent with other central banks and best practices – has included the topic in its strategic agenda as one of the five dimensions of the BC# Agenda. In recent years, it has also issued a series of specific measures and standards, notably CMN Resolution 4.945/2021¹ and BCB Resolution 139/2021.²

The Sicoob Sustainability Agenda was established in order for Sicoob to comply with its role as a promoter of sustainable practices. Within the scope of the project, significant deliveries have been made since 2022, such as, for example, the creation of the <u>Sustainability Committee</u>; preparation of the <u>Sustainability Plan</u>; publication of <u>Commitments with Sustainable Development</u>; and publication of the Social, Environmental, and Climate Responsibility Policy – <u>PRSAC</u> (CCS Resolution 125/2022).

In 2023, Sicoob implemented the Sustainability Plan in all central credit unions and the Sicoob Cooperative Center (CCS). This initiative, which aimed to foster engagement and commitment to the Plan, was conducted through workshops coordinated by the Citizenship and Sustainability department, in partnership with the Finance and Integrated Risk Management departments. These events were also intended to raise awareness about sustainability among the leaders and professionals of the central credit unions. Afterwards, the credit unions received individual guidance on how to improve the Plan drawn up at the workshops.

Sicoob has developed two essential internal documents that underpin the Sustainability Plan and Materiality, namely: 1) Practical Guide to the Sustainability Plan: sets out the Plan's objectives and background, and details the process of its development and implementation; 2) Guide to Sustainability Materiality: provides both concepts and practical applications of materiality, examining the topic in a general context and within the specific reality of Sicoob.

¹ Provides for the Social, Environmental, and Climate Responsibility Policy (PRSAC).

 $^{^{1}}$ Provides for the disclosure of the Report on Social, Environmental and Climate-related Risks and Opportunities (GRSAC).

December 31,2024

Sicoob has also published the Report on Social, Environmental and Climate-related Risks and Opportunities (GRSAC), available on Sicoob website (<u>sicoob.com.br</u>), with a view to providing transparency to the strategies and actions taken to manage these risks.

The CCS governance function has approved the institutional sustainability indicators, consisting of 40 indicators that monitor Sicoob's performance in its seven material sustainability topics. These indicators are reported to the CCS governance bodies every six months.

The Sicoob's Greenhouse Gas (GHG) Inventory Project, which has the purpose of mapping the climate impacts of the Institution's activities, was completed in 2024. Led by a CCS multidisciplinary team, the Project covered scopes 1, 2, and 3, including financed operations, based on the year 2023. In order to keep the central and individual credit unions informed about new developments related to sustainability, 28 editions of the monthly newsletter "*Papo Sustentável*" [Sustainable Chat] were published.

Sicoob attended the United Nations Climate Change Conference (COP29), held in Baku, Azerbaijan, from November 11 to 22, 2024. The Superintendent of Sicoob Institute presented Sicoob's strategy in the Sustainability Agenda, at the panel "Cooperativism and Green Finance." Organized by the OCB System (Organization of Brazilian Cooperatives) the panel also included representatives from BNDES, Sicredi, and Cresol. The participants reaffirmed their commitment to sustainability and to building a greener future, highlighting cooperativism as a business model that effectively integrates economic and social development with environmental preservation.

All of Sicoob's efforts towards sustainability are documented in the Sicoob Sustainability Report, which follows the reporting standards of the Global Reporting Initiative (GRI) since its first edition in 2018. The Report is available on the Sicoob website at Sicoob.com.br.

And for the second consecutive year, Sicoob's Sustainability Report was given special recognition by the World Business Council for Sustainable Development (WBCSD), in collaboration with the Brazilian Business Council for Sustainable Development (CEBDS) and the Report Group. In addition to improving its score from the previous edition, Sicoob was highlighted in the survey Reporting Matters Brasil 2024 as a best practice in the "Engagement with Stakeholders" criterion, which reflects the organization's commitment to sustainability and its endeavor to build transparent and supportive relationships with its stakeholders.

System-based Financial Citizenship Agenda

Sicoob's Financial Citizenship Agenda has the purpose of monitoring the activities related to financial education and inclusion carried out by the credit unions, in an integrated manner with Sicoob's Systemic Strategy Pact, BCB Communiqué 34.201, of August 12, 2024, as well as CMN-BCB Joint Resolution 8, of December 21, 2024.

By fostering financial education, Sicoob contributes to the soundness and efficiency of the National Financial System (SFN), providing benefits for both the institutions operating in the financial sector and the citizens. Such is the importance of this aspect that the Brazilian Central Bank's strategic agenda includes Education as a topic that "aims to raise awareness so that everyone becomes a market participant and develops the habit of saving".

December 31,2024

The relevance of this issue has gained prominence in recent years with the enactment of laws that guarantee access to financial education. In 2021, the Over-indebtedness Law ³updated the Consumer Defense Code⁴, granting consumers the "right to responsible credit practices, financial education and prevention of over-indebtedness". In 2023, the "Desenrola Brasil" ⁵Law requires financial institutions to "adopt financial education measures for their consumers in order to prevent the default of operations and avoid the over-indebtedness of individuals".

In compliance with the provisions of the "Desenrola Brasil" Law, as well as following up on the work started in Communiqué 34.201, of August 12, 2019, the National Monetary Council, together with the Brazilian Central Bank, published Joint Resolution 8, of December 21, 2023, which provides for financial education measures to be adopted by financial institutions, payment institutions and other financial institutions authorized to operate by the Brazilian Central Bank, among which the following stand out: the establishment of a financial education policy (Art. 3, CMN-BCB Joint Resolution 8-2023) and monitoring and control mechanisms (Art. 4, CMN-BCB Joint Resolution 8-2023).

The System-based Financial Citizenship Agenda is built on this background, through which Sicoob implemented:

- Sicoob's Financial Citizenship Policy, approved by the Board of Directors of Sicoob Confederation and Banco Sicoob on April 25, 2023, and updated on May 29, 2024;
- Sicoob's Commitments with Financial Citizenship, approved by the Board of Directors of Sicoob Confederation and Banco Sicoob on June 30, 2023;
- Plan for Evaluating and Monitoring the System-based Financial Citizenship Agenda, approved by the Board of Directors of Sicoob Confederation and Banco Sicoob on June 21, 2023,
- Inclusion of financial education initiatives focused on the rules of engagement with members, particularly during key moments such as joining the digital system, activating and post-activating their credit card functions, paying their credit card bill, and taking out pre-approved loans.
- Development of a Financial Health Score methodology for Sicoob members, based on the Brazilian Financial Health Index (I-SFB)⁶, model, scheduled to be implemented in 2025.

Strategic Social Investment / Sicoob Institute

Sicoob Institute, a private non-profit institution deemed of public utility, is the Sicoob's strategic social investment agency. It was founded in 2004, for the purpose of developing and sharing social methodologies by means of programs, projects and other initiatives aimed at increasing Sicoob's positive social impact on the communities where it operates.

Headquartered in Brasília (DF), the Institute operates in close collaboration with Central Credit Unions, Individual Credit Unions, and entities that make up the Sicoob Cooperative Center (CCS). The integration across all levels and the system-base alignment create a broad interactive and

December 31,2024

operational network that enables the Institute's initiatives to be implemented on a large scale in all the regions where Sicoob is present.

The Governance Framework of Sicoob Institute is based on the best practices of cooperative governance and on governance principles applicable to Third Sector organizations. The Institute's architecture includes both executive and non-executive bodies that combine the necessary skills, resources, and tools to maximize the positive impact of its activities on the communities.

Its actions are driven by the mission of spreading the cooperative culture and contributing to the sustainable development of communities. The scope of its activities is grounded on the 5th and 7th principles of cooperative systems, namely, education, training and information, and interest for the community, respectively, as well as on the Regulatory Bodies' strategic agenda, particularly in relation to the Financial Education Strategy and the 2030 Agenda for Sustainable Development promoted by the United Nations (UN). Sicoob's entities, comprising central and individual credit unions, have been working under the coordination of Sicoob Institute on national campaigns such as National Financial Education Week, Global Money Week, and World Investor Week, reaching more than 10 million people in 2024.

The Institute's core activities were defined based on the alignment between the social return of the business and the challenges that credit unions face in promoting social justice and financial inclusion. Its portfolio of programs and projects comprises initiatives that are integrated across the following themes: Cooperativism and Entrepreneurship, Financial Citizenship, and Sustainable Development. These three strategic lines of action guide the planning, development, implementation, and investment of available resources in initiatives that comply with Sicoob's social responsibility standards.

Social Actions - Highlights

	Note	12/31/2024	12/31/2023
Number of people reached*	(a)	R\$ 14.4 million	R\$ 8.3 million
Number of people benefited*	(b)	R\$ 4.4 million	R\$ 2 million
Beneficiaries of the cooperativism and entrepreneurship program		1,213,433	1,308,814
Beneficiaries of the financial citizenship program		1,760,407	757,087
Registered volunteers		15,083	11,023
Dedicated volunteer hours		93,742	44,332

⁽a) Number of people reached through communication actions (information published in the press - radio, TV and newspaper) and/or social media (Facebook, Instagram, etc.).

1.8 million people benefited from the Financial Citizenship program in 2024 and 1.2 million people from the Cooperativism and Entrepreneurship program, through the Sicoob Institute's Portfolio of initiatives, as well as from other activities, such as Global Money Week (GMW), National Financial Education Week (WIW), Cooperativism Week and World Investor Week (ENEF).

Last, but not least, Sicoob Institute was recognized by the Voluntário Transformador (Transforming Volunteer) program in 2024, receiving the VOL Award, promoted by VOL, a technology platform created to enhance and provide intelligent solutions for volunteerism in Brazil and Latin America. Furthermore, Citizenship and Sustainability Manager Emanuelle Moraes was named Professional of the Year for her leadership in social responsibility and volunteer programs.

Guarantor Credit Union Fund (FGCoop)

⁽b) Total number of people directly benefited by the program and/or action.

December 31,2024

Deposits in credit unions are protected by the Guarantor Credit Union Fund (FGCoop), which guarantees deposits and credits maintained in individual credit unions or cooperative banks in the event of intervention or out-of-court liquidation of these institutions. Currently, the ceiling value of this protection is the same in force for depositors of other financial institutions covered by the Credit Guarantee Fund (FGC).

Code of ethics

All members of Sicoob signed up to the Code of Ethics proposed by the Sicoob Cooperative Center, a commitment also assumed by all new employees who join the System.

Institutional policy for social and environmental responsibility

This policy introduces the principles and guidelines that govern Sicoob's social and environmental actions in the conduction of its business and relations with stakeholders, with a view to contributing for the effective implementation of cooperative activities supported by sustainable development.

Ombudsman

The Sicoob Ombudsman channel is a vehicle of communication between the credit unions and the users of their products and services, intended for those who may not have been satisfied with the solution provided by the usual customer service channels. Regulated by CMN Resolution 4.860/2020, CVM Resolution 43/2021 and CNSP Resolution 445/2022, its structure is centralized at Banco Sicoob and shared by Sicoob entities.

Based on the outcome of the situations that have been monitored, Sicoob's ombudsman function presents, every six months, suggestions to improve the routines and procedures developed by the management areas of Sicoob Cooperative Center and the credit unions, in line with the interests and satisfaction of the members.

Acknowledgments

We would like to thank our members, the central and individual credit unions, and Sicoob Confederation for their collaboration towards the achievement of the System's goals; our external partners for their trust in the solutions offered by Sicoob; and all our employees for their dedication and commitment.

Notes to the combined financial statements

December 31, 2024 and 2023

All amounts in thousands of Brazilian Reais, unless otherwise stated

Note 1 – Operations

Sistema de Cooperativas de Crédito do Brasil - Sicoob ("Sicoob" or "System") is made up of 328 first-level individual credit unions, which operate in 2,247 municipalities in 27 Brazilian states, featuring 4,672 branches, and 547 Correspondent banks, in addition to 8,176 Electronic Service Units (PAEs) and over 24 thousand ATMs, providing services to more than 8.5 million members. The System also includes 14 central credit unions, Banco Cooperativo do Brasil S.A ("Banco Sicoob" or "Bank"), Confederação Nacional das Cooperativas do Sicoob ("Sicoob Confederation"), and the subsidiaries of the Bank and of the credit unions.

Banco Sicoob is controlled by the following 14 central credit unions: Sicoob Central ES, Sicoob Central BA, Sicoob Central Crediminas, Sicoob Nova Central, Sicoob Central SC/RS, Sicoob SP, Sicoob Norte, Sicoob Central Cecreme, Sicoob Central Cecreme, Sicoob Central NE, Sicoob Central Rondon, Sicoob Central Unicoob, Sicoob Uni, and Sicoob Unimais Rio.

Sicoob is a multi-service bank established pursuant to Resolution 2.193 of November 30, 2000, of the National Monetary Council (CMN), and the controlling shareholder of Sicoob Distribuidora de Títulos e Valores Mobiliários ("Sicoob DTVM"), Sicoob Administradora de Consórcios Ltda. ("Sicoob Consórcios"), Sicoob Pagamentos Ltda., which is responsible for processing Sicoob's credit cards, and Sicoob Participações em Seguridade S.A. ("Sicoob PAR"), holder of 50% equity interest in Sicoob Seguradora.

("Sicoob Confederation"), a third-level entity engaged in the provision of representation and oversight services, standardization of operational procedures, implementation of the internal control system, and information technology services.

Sicoob also manages Fundação Sicoob Previ ("Sicoob Previ"), a private pension entity established in November 2006 for the purpose of offering the participants and their dependents pension benefits that supplement those provided by the government's social security system.

Note 2 - Presentation of the combined financial statements

2.1. Preparation of the combined financial statements

These combined financial statements ("financial statements") are the responsibility of Sicoob's Management, and have been prepared based on the individual financial statements of the Institutions that comprise the System. The financial statements have been prepared for the purpose of presenting, in a single set of accounting statements, the consolidated position of all activities carried out by Sicoob, through the entities that comprise the System.

Although these combined financial statements have been prepared based on the corporate, internal control and governance structures of each member of the System, and in compliance with the requirements for financial statement presentation and disclosure pursuant to the standards issued by the CMN and the Brazilian Central Bank (BACEN), they are not representative of the individual financial statements of Sicoob members, and neither can the information herein be used for calculations of dividends and taxes, performance assessments, or for any other corporate or statutory purposes, which should be based on each entity's individual financial statements.

Note to the combined financial statements

December 31, 2024 and 2023

All amounts in thousands of Brazilian Reais, unless otherwise stated

CMN Resolution 4.151/2012 and BACEN Circular Letter 3.669/2013 establish procedures and requirements for the preparation and disclosure of combined financial statements of financial cooperative systems in Brazil.

These combined financial statements have been prepared in accordance with the accounting practices adopted in Brazil, based on Law 6.404/1976 and amendments introduced by Laws 11.638/2007 and 11.941/2009, the standards issued by BACEN and CMN for purposes of compliance with the Accounting Chart for Institutions of the National Financial System (COSIF), as well as the Technical Pronouncements issued by the Accounting Pronouncements Committee (CPC), approved by the monetary authority (Note 3.22).

2.2. Segregation of assets and liabilities between current and non-current

Receivables and payables with terms up to 360 days are classified as current assets or liabilities, and those with longer terms are classified as non-current, according to the corresponding explanatory notes.

2.3. Approval of the combined financial statements

The Executive Board of Sicoob CCS submitted these combined financial statements to the Board of Directors, which approved them on April 15, 2025.

2.4. Criteria used in the combination of balances

The balance sheet and income statement balances of the entities that comprise Sicoob were included in the preparation of these combined financial statements; the balances of transactions carried out between these entities were excluded.

2.5. Entities that comprise Sicoob included in the combined financial statements

Pursuant to Art. 4 of CMN Resolution 4.151/2012, a cooperative system is made up of individual credit unions, central credit units, a credit confederation, a cooperative bank, as well as other financial institutions or entities authorized to operate by the Brazilian Central Bank, except for consortium administrators directly or indirectly linked to these institutions by means of an equity interest or actual control of operations, characterized by joint administration/management, or by operations in the market under the same trademark or trade name.

As determined by the Brazilian Central Bank, from June 30, 2021, these combined financial statements include the Confederação Nacional das Cooperativas do Sicoob Ltda.

Sicoob Participações em Seguridade S/A ("Sicoob PAR") and Sicoob Soluções de Pagamentos Ltda. ("Sicoob Pagamentos"), which are all subsidiaries of Banco Cooperativo do Brasil - S/A, were not included in the combined financial statements for purposes of compliance with the provisions of the above-mentioned Resolution. The subsidiaries of central credit unions were also excluded from these combined financial statements (Note 9).

Sicoob Previ was not included in these combined financial statements, because although being part of the System as Sicoob's private pension entity, it has no corporate relationship with the entities that make up the combined financial statements.

In addition, Art.6 of Circular Letter 3.669/2013 establishes that all the investment funds in which the entities that comprise a cooperative system have or retain substantial risks and rewards, in any form,

Note to the combined financial statements

December 31, 2024 and 2023

All amounts in thousands of Brazilian Reais, unless otherwise stated

must be included in the combined trial balance. Therefore, these combined financial statements include the funds, whether managed by Sicoob DTVM or not, in which Banco Sicoob or the credit unions retain substantial risks and rewards.

The following institutions were included in the preparation of these combined financial statements, in accordance with CMN Resolution 4.151/2012:

• Banco Cooperativo Sicoob S.A. ("Banco Sicoob" or "Bank"): Multiple service bank established pursuant to Resolution 2.193/1995, revoked by Resolution 2.788, of November 30, 2000, was authorized to operate by BACEN on July 21, 1997, and started activities on September 1, 1997.

Banco Sicoob was created to provide financial, technical and operational services to credit unions, in accordance with Article 88 of Law 5.764/1971.

• Sicoob Distribuidora de Títulos e Valores Mobiliários Ltda. ("Sicoob DTVM"): A sole proprietorship limited company under the control of Banco Cooperativo Sicoob S/A, Sicoob DTVM operates in the management of third-parties' funds by entering into contracts or charging a commission.

Sicoob DTVM is engaged in the subscription of securities for resale, either on a stand-alone basis or in a consortium with other authorized companies; intermediation of public offerings and distributions of securities in the market; and purchase and sale of securities on its own account or on behalf of third parties, in compliance with the regulations issued by CMN, BACEN, and CVM in their respective areas of competence.

Sicoob DTVM manages the funds listed in items (a) and (b) of the "Investment funds" group.

- Confederação Nacional das Cooperativas do Sicoob Ltda. ("Sicoob Confederation"): A third-level entity under the control of the central credit unions, Sicoob Confederation is engaged in providing representation and oversight services, standardization of operational procedures, implementation of internal control system, and information technology services for all Sicoob's entities.
- **Sicoob Administradora de Consórcios Ltda. ("Sicoob Consórcios"):** A subsidiary of Banco Cooperativo Sicoob S.A., Sicoob Consórcios is a sole proprietorship limited company headquartered in Brasilia, which started operations on July 3, 1972, mainly engaged in the administration of consortium groups for acquisition of movable and immovable goods and services, Sicoob, through the individual credit unions, is the main partner in the distribution of its products to the members of the System.
- Administradora de Consórcio Unicoob Ltda. ("Unicoob Consórcios"): Subsidiary of Sicoob Central Unicoob, the consortium administrator was established, pursuant to authorization of the Brazilian Central Bank issued on May 19, 2010, to meet the needs of the individual credit unions affiliated to the central, which are also part of the corporate structure. Unicoob Consórcios operates in the automobile, motorcycle, real estate, and service segments, pursuant to the regulations.
- **Sicoob's central credit unions:** These are independent financial institutions authorized to operate by the Brazilian Central Bank, made up of at least three affiliated individual credit unions,

Note to the combined financial statements

December 31, 2024 and 2023

All amounts in thousands of Brazilian Reais, unless otherwise stated

engaged in integrating the System's credit unions at both regional and state levels. Sicoob has 16 central credit unions (Note 1), which act on a proactive manner to prevent and correct situations that pose risk to the safety and soundness of the credit unions and the System. The services provided by central credit unions include: centralization of the funds raised by their credit unions; standardization and oversight of operating systems and control of deposits and loans; auxiliary supervision; education and training; adoption of corrective measures; legal advice, communication advice; common procurement; exchanges for quality improvement, and professional training.

• Individual credit unions: These are non-bank financial institutions authorized to operate by the Brazilian Central Bank, resulting from the association of individuals formed to meet their financial needs, both as users and owners of the credit union's products and services.

In accordance with CMN Resolution 5.051/2022, individual credit unions are classified based on their specific operations, as follows: **Full, Classic, or Capital and Loans**.

Individual credit unions classified under the Full category can carry out all the operations inherent in credit unions. Those classified as Classic credit unions, among other restrictions, are not authorized to operate with foreign currency, foreign exchange variation, or derivatives. The credit unions classified as of Capital and Loans are non-depository institutions, whose funding arises exclusively from the capital paid by its members.

Sicoob's individual credit unions, in accordance with the classification provided for in CMN Resolution, are distributed as follows:

Classification	Number
Classic	307
Capital and Loans	10
Full	11
Full Total	328

• **Investment funds:** The following investment funds were considered in the preparation of these combined financial statements:

(a) Funds in which the central and/or individual credit unions retain substantial risks and rewards:

- Minascoop Fixed-income investment fund Private Credit
- Sicoob Institucional Fixed-income investment fund Private Credit
- Sicoob Liquidez Master Fixed-income investment fund Private Credit
- Sicoob Cecresp Fixed-income investment fund Private Credit
- Minasverde Fundo de Investimento em Direitos Creditórios

(b) Fund in which Banco Sicoob retains substantial risks and rewards:

• Sicoob Agências - Real estate investment fund

2.9. Events after the reporting period

These are events that took place between the base date of the financial statements and the date their issuance was authorized, classified as:

- **Adjusting events**: relate to events that evidence conditions existing at the base date of the financial statements; and
- **Non-adjusting events**: relate to events evidencing conditions that did not exist on the base date of the financial statements.

There were no events after the reporting period.

2.10. Changes to be implemented in future periods:

2.10.1 Effects of the adoption of CMN Resolution 4.966/2021 and BCB Resolution 352/2023 on Sicoob:

CMN Resolution 4.966/2021, as amended by CMN Resolutions 5.019/2022, 5.100/2022, and 5.146/2024 and BCB Resolution 352/2023, establish the accounting concepts and criteria applicable to financial instruments from January 1, 2025, with regard to the following aspects:

i) classification of financial instruments based on business models and analysis of contractual cash flow characteristics; ii) effective interest rate of transactions; iii) recognition of provisions for loan losses; iv) non-performing assets and stop accrual; v) disclosures in explanatory notes regarding methodologies, as well as guidelines for the recognition of hedging relationships (hedge accounting) by financial institutions and other entities authorized to operate by the Brazilian Central Bank, effective from January 1, 2027. In addition to standardize and enhance the accounting practices of

December 31, 2024 and 2023

All amounts in thousands of Brazilian Reais, unless otherwise stated

Brazilian financial institutions, the resolution also aims to reduce the discrepancies between the accounting standards issue by the Accounting Chart for Institutions of the National Financial System (COSIF) and international standards (IFRS).

Given the complexity of the Resolutions and the accounting impact resulting from the revocation of 19 regulations — particularly CMN Resolution 2.682/1999, which sets forth criteria for the classification of loan transactions and rules for the recognition of provisions for loan losses — the implementation project for the new standards was carried out in a centralized manner, conducted by Sicoob Cooperative Center (CCS). With a view to implementing a more efficient transition, this Project was broken down into stages. The Institution began by analyzing and identifying areas of asymmetry in relation to the rules and policies in effect through December 31, 2024, taking into account the impacts of the required changes on technology, process redesign, definition of roles and responsibilities, process management, and the establishment of deadlines for adjusting the action plans developed in 2022. The Project phases are detailed below

- . **Phase 1 Assessment (2022):** This phase comprises diagnostic activities for understanding the main accounting changes introduced by the Resolution, with the mapping of the main impacted systems, the preparation of a matrix detailing the identified action plans, and the definition of a schedule with the respective assignment of the staff in charge. A specialized consulting firm was hired to assist in this assessment process;
- . **Phase 2 Design (2023):** This phase involves activities intended to specify the necessary system changes, define the system architecture, and design the transition strategy, new processes, and policies.
- . Phase 3 Development (2023/2024): This phase comprises activities related to new system developments, calculation methodologies (e.g. effective interest rate method, expected loss models for financial instruments), preparation of "FROM-TO" for the new chart of accounts, and changes in accounting routines.
- . Phase 4 Tests and Approvals (2024): Includes the testing of system changes (at the homologation environment) and the implementation of the tested system developments;
- . **Phase 5 Transition activities (2024):** Definition of new disclosure model, calculation of the opening balance, and assessment of the impacts from the initial adoption. This phase also includes training activities, and the parallel running of some existing systems and new processes;
- . **Phase 6 Initial adoption (January 1, 2025):** Effective adoption of CMN Resolution 4.966/2021 and analysis of the estimated impacts on the Institution's results and financial position with the implementation of the accounting regulation established in the Resolution.

Among the activities carried out in Phase 6, during the second half of 2024, the Institution simulated expected losses to better understand the potential effect of adopting CMN Resolution 4.966/2021 on the balance sheet and statement of income.

1) Effects of the adoption of CMN Resolution 4.966/2021 and BCB Resolution 352/2023 on Sicoob:

The main aspects of the standard with an impact on disclosures and on the adjustment to equity are described below:

December 31, 2024 and 2023

All amounts in thousands of Brazilian Reais, unless otherwise stated

- Classification based on business models: As required by the standard, the Business Model Policies applicable to all the system entities were approved by the governing bodies. Accordingly, Banco Sicoob classified the assets subject to financial management into the following models and respective accounting measurements:
 - **Business Model 1:** Keep the assets to collect contractual cash flows **Accounting measurement and recognition:** Measurement at amortized cost with the effects recognized in profit or loss for the period.
 - **Business Model 2:** Generate return both from the receipt of contractual cash flows and from the sale of the financial asset.
 - **Accounting measurement and recognition:** Measurement at fair value through other comprehensive income, with the effects of interest on the transaction recognized in the statement of income for the period, and the mark-to-market (MtM) adjustments recognized in equity (net of tax effects).
 - Business Model 3: Other business models
 Accounting measurement and recognition: Measurement at fair value through profit or loss with the effects recognized in the statement of income for the period.

The remeasurements of financial assets were assessed by management considering the definitions in the business models and the SPPI Test for instruments classified in Business Models 2 and 3, as provided for in Article 4 of CMN Resolution 4.966/2021, and BCB Resolution 352/2023. As a result, no significant impacts arising from the regulatory requirement were identified.

- **Effective Interest Rate**: In compliance with CMN Resolution 4.966/2021, Sicoob will adopt the Effective Interest Rate Method prospectively and will consider the income and expenses arising from new transactions that qualify for the application of the Effective Interest Rate Method, effective from January 1, 2025. Therefore, these expenses and income will be included in the gross accounting balances of the transactions and recognized in the statement of income.
- **Stop accrual:** Pursuant to CMN Resolution 4.966/2021, interest on a contract must be suspended when the asset is classified as non-performing, or when there is a delay of over 90 days, unlike the provisions of CMN Resolution 2.682/1999, which established that interest should only be suspended for transactions with delays exceeding 59 days.

Based on guidelines in BCB Communiqué 42.403/2024, the Institution adjusted the stop accrual position in its loan portfolio for transactions carried out at December 31, 2024, which do not meet the criteria for classification as non-performing assets.

- **Allocation by stage:** based on regulatory requirements, all of Sicoob's financial assets must be allocated by stage as follows:
 - **Stage 1:** financial assets that, upon initial recognition, do not indicate credit impairment, i.e., assets that were not classified as non-performing, and for which there has been no significant increase in credit risk:
 - **Stage 2:** financial assets for which the credit risk has increased significantly in relation to the risk assessment made at the time of the transaction's initial allocation in Stage 1, or financial assets that are no longer characterized as credit-recoverable assets;
 - **Stage 3:** credit-impaired financial assets.

December 31, 2024 and 2023

All amounts in thousands of Brazilian Reais, unless otherwise stated

- **Expected losses:** The simulations performed at Sicoob indicated an increase in expected credit losses, primarily due to the transition to the new expected loss estimation methodology. As a result, the expected losses for financial assets reflected potential effects arising from floor limits and/or the application of internal models developed by Sicoob's risk modeling team. It should be noted that all Sicoob entities will adopt the entire methodology for expected losses, in accordance with CMN Resolution 5.146/2024.

Regarding the above criteria, Sicoob used its best estimates to assess the effect of the expected loss calculation required by CMN Resolution 4.966/2021, and BCB Resolution 352/2023, and the result was an approximate supplementary provision on the currently expected loss of R\$ 1,238,199, corresponding to 2.27% of equity, net of tax effects. The adjustments will be accounted for on January 1, 2025, in a separate account under Equity.

- Write-Off of financial assets (derecognition): The financial asset must be written off when it is no longer probable that the institution will recover its value that is, when recovery is considered remote. The criteria established for writing off financial assets must be consistent and verifiable.
- **Fair value hierarchy:** Sicoob's financial instruments will be classified according to the fair value hierarchy described below.
 - **Level 1:** financial instruments with quoted prices (unadjusted) in active markets for identical assets or liabilities available on the measurement date;
 - **Level 2:** financial instruments with prices that include inputs that are observable for the asset or liability, either directly or indirectly. In the absence of a market price, the assets are priced internally.
 - Level 3: financial instruments for which there is no active market or observable inputs for a market price.
- Tax effects on credit unions, consortium administrator and DTVM: there are no tax effects to be recorded for credit unions, consortium administrators, and DTVM as a result of the adoption of CMN Resolution 4.966/2021 and BCB Resolution 352/2023, given that Law 14.467/2022 does not apply to these entities.
- Tax effects on Banco Sicoob: Regarding the tax effects arising from the adoption of the criteria established in CMN Resolution 4.966/2021, Law 14.467 was enacted in 2022, subsequently amended by Law 15.078/2024, modifying the taxable treatment of loan losses for financial institutions and other institutions authorized to operate by Bacen. From January 1, 2025, when the rule takes effect, the institutions will no longer apply the provisions of Law 9.430/96 and will start to deduct losses from non-performing loans regardless of the date on which the loan was taken out. In transactions with legal entities undergoing bankruptcy or court-supervised reorganization, losses may be deducted from the moment bankruptcy is declared or court-supervised reorganization is granted. The tax deductibility of losses for income tax and social contribution purposes must comply with the percentages established by law, based on the length of default of the transactions.

Losses calculated on non-performing loans at December 31, 2024, and not previously used may be deducted from the calculation of the above-mentioned taxes starting January 1, 2026, also in accordance with the legally established percentages.

December 31, 2024 and 2023

All amounts in thousands of Brazilian Reais, unless otherwise stated

2) Other regulatory aspects:

The reformulation of the Accounting Chart for Institutions of the National Financial System (COSIF) runs concurrently with the changes brought about by the aforementioned Resolutions. The COSIF chart of accounts was restructured by Brazilian Central Bank, with the establishment of new structures and limits to the levels of account aggregation. The changes were published by the regulatory agency in the following rules:

- i) BCB Regulatory Instruction 318/2022: defines the accounting subgroups for the COSIF chart of accounts;
- ii) BCB Resolution 390/2024: addresses the use and structure of COSIF chart of accounts;
- **iii)** BCB Regulatory Instructions 426 to 433, amended by BCB Regulatory Instructions 537 to 544: define the accounting line items within the COSIF chart of accounts corresponding to the following groups: (i) realizable and permanent assets; (ii) active and passive memorandum accounts; (iii) liabilities; (iv) equity; and (v) income and expense accounts.

The impacts arising from the adoption of the aforementioned regulations were assessed by Sicoob and will be reflected in the accounting records as of January 1, 2025, when they become effective.

2.10.2 Adoption of CMN Resolution 4.975/2021 - Leases

From January 1, 2025, financial institutions and other institutions authorized to operate by the Brazilian Central Bank must apply the rules set forth in CMN Resolution 4.975, of December 16, 2021, and subsequent amendments to CMN Resolution 5.101, of August 24, 2023, which prescribe the accounting criteria applicable to leases, both as lessor and lessee. The standard establishes the requirements for the recognition, measurement, presentation, and disclosure of finance lease transactions by financial institutions based on CPC 06 (R2) - Leases, and applies to all lease agreements; however, in accordance with Article 2, paragraph 5 of the aforementioned Resolution, financial institutions are permitted a prospective application.

Based on the analyses carried out and the option provided for in the Resolution, Sicoob will adopt the standard for its member entities prospectively, that is, for lease agreements to be entered into on or after January 1, 2025, the date when the standard becomes effective, as determined by the monetary authority.

2.10.3. Adoption of CMN Resolution 5.185/2024 - Information relating to ESG disclosures

Resolution 5.185 was issued by the National Monetary Council (CMN) on November 21, 2024, confirming the general criteria for the preparation and disclosure of individual and consolidated financial statements by financial institutions and other entities authorized to operate by the Brazilian Central Bank. The Resolution requires the adoption of Technical Pronouncements CBPS 01 and CBPS 02 issued by the Brazilian Committee for Sustainability Pronouncements (CBPS). These standards are based on international standards IFRS S1 - General Requirements for Disclosure of Sustainability-related Financial Information and IFRS S2 - Climate-related Disclosures, both issued by the International Sustainability Standards Board (ISSB). In accordance with the Resolution, in addition to institutions registered as publicly-held companies, leading institutions of prudential conglomerates classified in segments S1 or S2 must also disclose the "Sustainability-Related Financial Information Report" starting in 2026. The main requirements of the above-mentioned pronouncements are outlined below:

December 31, 2024 and 2023

All amounts in thousands of Brazilian Reais, unless otherwise stated

Technical Pronouncement - CBPS 01 - General Requirements for Disclosure of Sustainability-related Financial Information

This standard provides a unified set of requirements for disclosure of sustainability-related risks and opportunities. IFRS S1 addresses various aspects, such as health, occupational safety, and data protection, and is based on four pillars:

- **1. Governance:** Oversight and accountability frameworks for sustainability;
- **2. Strategy**: Impacts of sustainability on the business in the short, medium, and long terms;
- **3. Risk management:** Identification, assessment, and mitigation of sustainability-related risks;
- **4. Metrics and targets:** Indicators used to monitor the performance and achievement of targets.

• Technical Pronouncement - CBPS 02 - Climate-related Disclosures

Built on the same pillars of IFRS S1, this standard is focused on the disclosure of climate-related risks and opportunities. The standard has the purpose of ensuring an integrated assessment of climate-related impacts on companies, avoiding duplication of information and promoting greater transparency in the disclosure of physical and transition risks associated with climate change.

In order to ensure compliance with the new requirements, the companies must identify material issues that are relevant to their business and incorporate them into their strategic and financial plans, considering the impacts on both the company and the environment and society.

These standards mark a significant step forward in the standardization and transparency of ESG disclosures, enhancing comparability and reliability for investors, regulatory authorities, and other stakeholders.

Sicoob is adapting its practices for adoption of the standard and disclosure of reports in 2026.

Note 3 - Summary of significant accounting policies

3.1. Accounting estimates and judgments

The preparation of combined financial statements in accordance with the accounting practices described in Note 3 requires Management to use its judgment to determine and record accounting estimates, where applicable. Significant items subject to the application of estimates and assumptions include the valuation of the recoverable amounts of property and equipment and intangible assets, the provision for loan losses, the estimated realization of tax assets, the provision for cash outflows in connection with tax, labor and civil contingencies, and the valuation of securities and derivative financial instruments. The settlement amounts of the transactions may differ from the estimates presented in the combined financial statements due to inaccuracies inherent in their determination process. The estimates and assumptions are reviewed on a half-yearly basis, in order to reflect the best available information.

3.2. Determination of results of operations

The results of operations are determined on the accrual basis of accounting. Service revenue, typical to the financial system, is recognized as the service is rendered to the member or third party.

December 31, 2024 and 2023

All amounts in thousands of Brazilian Reais, unless otherwise stated

3.3. Foreign currency

Monetary assets denominated in foreign currency were translated into Brazilian reais at the exchange rate in effect on the balance sheet date, and currency translation differences were recorded in profit or loss for the period.

3.4. Functional and presentation currency

These combined financial statements are presented in Brazilian reais (R\$), which is the functional currency of the entities included in the consolidated balance sheet of Banco Sicoob. Unless otherwise indicated, quantitative financial information is presented in thousands of Brazilian reais (R\$ thousand).

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing on the dates of the transactions or valuation when the items are remeasured.

3.5. Cash and cash equivalents

Cash and cash equivalents comprise cash in local and foreign currency, and short-term interbank investments maturing in up to 90 days from the investment date, and subject to immaterial risk of change in fair value. Cash and cash equivalents are used by Sicoob to manage its short-term obligations (Note 4).

3.6. Short-term interbank investments

Short-term interbank investments are stated at the amount of the investment or acquisition, plus income earned up to the balance sheet date, and comprise transactions backed by federal government securities (Note 6.2).

3.7. Marketable securities

Where applicable, securities are classified into three specific categories, based on a set of criteria for registration and valuation of security portfolios, defined by BACEN Circular Letter 3,068/2001, and on Management's intention to use them, int accordance with the following recognition criteria:

- **(a) Trading securities -** securities acquired to be frequently and actively traded, adjusted to market value with a corresponding entry to profit or loss for the period.
- **(b) Held-to-maturity securities -** securities acquired to be held to maturity, based on financial capacity studies, accounted for at acquisition cost plus any income earned.
- **(c) Available-for-sale securities -** securities that are neither classified as trading nor as held-to-maturity. These securities are adjusted to market value, and the result of the adjustment, net of tax effects, is recorded in a separate account in equity. Where applicable, gains and losses are recognized in the statement of income.

The methodology used for adjusting marketable securities to market was determined in compliance with consistent and verifiable criteria, which consider the average trading price on the day of the calculation or, in the absence thereof, pricing models that reflect the probable net realizable value.

Income from securities, irrespective of the category in which they are classified, is accrued on a daily pro-rata basis, under the exponential or straight-line method, based on the return clauses and acquisition cost distributed over the term of the investment, and is recognized directly in the statement of income for the period.

December 31, 2024 and 2023

All amounts in thousands of Brazilian Reais, unless otherwise stated

When available-for-sale securities are sold, the difference between the selling price and the initial acquisition cost, adjusted for accrued income, is considered as the result of the transaction, and recognized on the transaction date as "Gains (losses) on securities".

3.8. Derivative financial instruments

In compliance with BACEN Circular Letter 3.082/2002, derivative financial instruments are measured at market value at least at the time the monthly trial balances and balance sheets are prepared. Any appreciation or depreciation is recognized directly in income or expense accounts for the respective derivative financial instrument (Note 6.1.1).

3.9. Provisions for expected credit losses

The provision for expected credit losses is calculated based on management's judgment concerning the risk level, considering the analysis and rating of the borrower and the transaction, in compliance with the parameters established in CMN Resolution 2.682/1999. This Resolution requires a periodic analysis of the loan portfolio, as well as the classification of its operations into nine levels, of which "AA" is the lowest risk level and "H" the highest risk level. These rules also apply to the provisions for guarantees provided, recorded within liabilities.

Income from lending operations overdue for more than 60 days, irrespective of their risk level, is only recognized in profit or loss when received.

Operations classified as "H" risk level are transferred to the offsetting account, with the corresponding debit entry to the provision account, six months after their classification into that risk level. Renegotiated operations are maintained at the same risk level in which they were classified before the renegotiation, and operations which had been previously recorded as losses start to be classified as "H" risk level. These operations are only transferred to a lower risk level category after significant amortization has occurred, or when new relevant facts justify a change in their risk classification. Any gains arising from renegotiations are only recognized as income when actually received. The provisions for expected credit losses, which are considered sufficient by management, comply with the minimum requirement established in the aforementioned Resolution.

3.10. Investments

Investments are recorded at acquisition cost, and equity interests in subsidiaries and associates are accounted for under the equity method (Note 9).

3.11. Property and equipment

Property and equipment items are recorded at acquisition, formation or construction cost, including interest and other capitalized financial charges (Note 10). Depreciation is calculated on a straight-line basis, in accordance with the following annual rates, based on the useful lives of the assets: properties in use - 5%; equipment in use - 10%; vehicles and data processing equipment - 20%.

Other expenditures are capitalized only when they can be associated with an increase in the economic benefits related to the asset. Any other type of expenditure is expensed in the statement of income when incurred.

3.12. Intangible assets

These correspond to rights acquired that are intended for the maintenance of Sicoob entities, or used for this purpose (Note 11). Intangible assets with a defined useful life are usually amortized on a

December 31, 2024 and 2023

All amounts in thousands of Brazilian Reais, unless otherwise stated

straight-line basis during an estimated period of economic benefit. Intangible assets comprise software acquired from third parties, and are amortized at an annual rate of 20%.

3.13. Impairment test

Items of property and equipment as well as intangible assets are subject to the annual impairment test in accordance with CPC 01 (R1). Where there is clear evidence that the assets are not stated at their recoverable amount, an impairment loss is recognized in profit or loss for the period reducing, consequently, the balances of items in which such losses were identified (Notes 10 and 11).

3.14. Other current and non-current assets

These are stated at net realizable value.

3.15. Deposits

These comprise demand deposits, savings account deposits, time deposits, which include credit union deposit receipts (RDCs) and bank deposit certificates (CDBs), interbank deposits, and notice deposits (Note 12.1).

Savings accounts earn interest at rates established by the regulation in force and are recorded at the amount of the deposit plus any income earned in the period.

Funds from time deposits (RDC and CDB) are stated at the amount raised, plus any accrued income, on a *pro-rata* daily basis, at floating or fixed rates, and become redeemable on a pre-established date.

3.16. Repurchase agreements

These obligations are stated at known or determinable amounts, which include accrued charges and monetary variations, net of the corresponding unrecognized expenses, where applicable (Note 12.3).

3.17. Borrowing and onlending obligations

Borrowings and onlendings are stated at known or determinable amounts, including accrued charges and monetary variations, net of the corresponding unrecognized expenses, where applicable, and comprise mainly funding obtained from government agencies such as the National Bank for Economic and Social Development (BNDES)/Government Agency for Machinery and Equipment Financing (FINAME), Ministry of Agriculture, Livestock and Food Supply (MAPA)/Funcafé, and Constitutional Funds (Note 12.5).

3.18. Employee benefits - Private pension plan

Banco Sicoob provides a defined contribution pension plan to the entire Sicoob network. The sponsor's monthly contributions to the plan are recognized as an expense in the statement of income for the period.

3.19. Income tax and social contribution - tax credits and deferred tax liabilities

The provision for income tax was calculated at the rate of 15%, plus a 10% surtax. The provisions for social contribution, which were computed at rates that vary according to the legal nature of each company, are described below: Banco Sicoob - 20%; Credit Unions and Sicoob DTVM – 15%; and Sicoob Consórcios – 9%.

Both, income tax and social contribution were calculated based on taxable profit, in compliance with the legal provisions in force.

December 31, 2024 and 2023

All amounts in thousands of Brazilian Reais, unless otherwise stated

Income tax and social contribution credits were calculated in accordance with the aforementioned tax rates. Tax credits are recognized considering the expected generation of future taxable profit, over a maximum period of ten years, pursuant to BCB Resolution 15/2020 for Sicoob Consórcios and CMN Resolution 4.842/2020 for the other companies. The expected generation of future taxable profit is supported by a technical study prepared by management and updated on a half-yearly basis.

The tax credits recorded and presented in Sicoob's combined financial statements arise from those recorded in Banco Sicoob, Sicoob DTVM, and Sicoob Consórcios.

3.20. Contingent assets and liabilities and legal obligations

Provisions are recognized in the balance sheet when Sicoob has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of funds will be required to settle the obligation. Provisions are recorded based on the best estimates of the risk involved. (Note 13.1.2).

The recognition, measurement, and disclosure of provisions and contingent assets and liabilities are carried out in accordance with CMN Resolution 3.823/2009, which requires financial institutions and other institutions authorized to operate by BACEN to comply with Technical Pronouncement CPC 25, issued by the Accounting Pronouncements Committee (CPC), as follows:

- **(a) Contingent assets** Contingent assets are not accounted for, except when backed by real guarantees or final court decisions in which a favorable outcome is virtually certain. Contingent assets for which a favorable outcome is classified as probable are only disclosed in the notes to the financial statements.
- **(b) Contingent liabilities** Contingent liabilities are recognized based on the opinion of legal advisors, the nature of the lawsuits, similarities with previous proceedings, and the complexity of the lawsuits, when the risk of an unfavorable outcome is classified as probable, generating an outflow of funds to settle the obligation, and the amounts involved can be measured reliably. The lawsuits for which an unfavorable outcome is classified as possible are only disclosed in the notes to the financial statements when considered material on a standalone basis.
- **(c) Legal obligations** These are obligations that derive from a contract, through implicit or explicit terms, a law or other legal instrument, which should be recognized by Sicoob's entities.

3.21. Other current and non-current liabilities

These are stated at known or estimated amounts including, where applicable, the corresponding charges and indexation accruals.

3.22. Technical Pronouncements - CPCs

The National Monetary Council (CMN) has approved the adoption of the following Technical Pronouncements issued by the CPC. The following pronouncements applicable to institutions authorized to operate by the Brazilian Central Bank were adopted in the preparation of these combined financial statements:

- CPC 00 (R2) Basic conceptual pronouncement approved by CMN Resolution 4.924/2021;
- CPC 01(R1)- Impairment of assets approved by CMN Resolution 4.924/2021;
- CPC 03 (R2) Statement of cash flows approved by CMN Resolution 4.910/2021;

December 31, 2024 and 2023

All amounts in thousands of Brazilian Reais, unless otherwise stated

- CPC 05 (R1) Related-party disclosures approved by CMN Resolution 4.818/2020;
- CPC 10 (R1) Share-based payments approved by CMN Resolution 3.989/2011;
- CPC 23 Accounting policies, changes in accounting estimates and correction of errors approved by CMN Resolution 4.924/2021;
- CPC 24 Events after the reporting period approved by CMN Resolution 4.818/2020;
- CPC 25 Provisions, contingent liabilities and contingent assets approved by CMN Resolution 3.823/2009;
- CPC 33 (R1) Employee benefits approved by CMN Resolution 4.877/2020; and
- CPC 46 Fair value measurement approved by CMN Resolution 4.924/2021.

The remaining Technical Pronouncements issued by CPC will be applied when approved by the National Monetary Council. The following CPCs have been partially adopted by CMN through the issue of the following standards:

- CPC 02 (R2) Effects of changes in exchange rates and translation of financial statements CMN Resolution 4.524/2016;
- CPC 04 (R1) Intangible assets CMN Resolution 4.534/2016; and
- CPC 27 Events after the reporting period approved by CMN Resolution 4.535/2016;

Note 4 - Cash and cash equivalents

Cash and cash equivalents, presented in the statement of cash flows, are broken down as follows:

Cash and cash equivalents	Note	12/31/2024	12/31/2023
Available funds		2,207,344	1,768,917
Local currency		2,133,908	1,724,614
Foreign currency		73,436	44,303
Cash equivalents	(a)	31,091,841	23,373,600
Short-term interbank investments	6.2	31,091,841	23,373,595
Investments in savings account deposits		-	5
Total		33,299,185	25,142,517

⁽a) Investments classified as cash equivalents are those maturing in up to 90 days from the date of issue, and which are not subject to significant changes in value and interest rates. They are comprised of repurchase agreements entered into by Banco Sicoob with other institutions of the National Financial System

Note 5 - Compulsory deposits with the Brazilian Central Bank

Non-current		-	
Current		4.323.452	2,624,905
Total		4,323,452	2,624,905
Other deposits with the Brazilian Central Bank	(a)	640,000	33,999
BACEN - Mandatory payments		3,060,263	2,497,557
BACEN - Compulsory reserves in cash		217	40
BACEN - Instant payments		622,972	93,309
Breakdown	Note	12/31/2024	12/31/2023

⁽a) (a) Relates to Voluntary Deposits with Bacen, pursuant to BCB Resolution 129 and BCB Communiqué 38.282, which allows financial institutions to make voluntary deposits directly to the Brazilian Central Bank.

Compulsory investments in the year amounted to R\$ 192,719 (R\$ 186,696 at December 31, 2023).

Note 6 - Financial assets

6.1. Marketable securities and derivative financial instruments

Securities are classified as "available for sale", "held-for-trading" and "held-to-maturity". Their market value was calculated considering the following parameters:

(a) Federal government securities (LTNs, LFTs, NTNs) - the index disclosed by the Brazilian Association of Capital and Financial Markets Institutions (ANBIMA) is used.

December 31, 2024 and 2023

All amounts in thousands of Brazilian Reais, unless otherwise stated

- **(b) Investment funds (FIs)** the value of the fund shares on the last working day, disclosed by the fund's administrators, is used.
- **(c) Private securities** are marked to market periodically, using an in-house methodology that considers primarily the prices available on liquid markets. Alternatively, fair values are calculated based on a method that considers the average spreads (for similar private securities) adopted for the own portfolio, in accordance with the size of the issuer.
- **(d) Derivative financial instruments** the methodology used for the mark-to-market of securities was established in compliance with consistent and verifiable criteria, which consider the average trading price on the day of the calculation or, in the absence thereof, pricing models that reflect the probable net realizable value in accordance with the characteristics of the derivative.

Marketable securities, including derivative financial instruments and short-term interbank investments, are held under the custody of B3 or the Special System for Settlement and Custody (SELIC), except for investment fund shares for which records are kept by the respective administrators.

Securities classified as "held to maturity" are supported by a study that proves the financial capacity and Management's intention to hold them to maturity.

The credit unions are released from the obligation to classify the securities held in their portfolios into the three categories foreseen in Circular Letter 3.068/2001. Accordingly, for purposes of presentation of the combined financial statements, the securities held by these credit unions were classified as "Available for sale", since they do not fit into the other categories.

⁽a) Relate to deposits in court made by Sicoob entities, upon court order, or following a strategy adopted by the System's entities, without actual settlement of the contingent liability.

Note 8 - Tax credits

8.1. Balances

The tax credits recorded and presented in Sicoob's combined financial statements arise from those recorded in Banco Sicoob, Sicoob DTVM, and Sicoob Consórcios, as shown below:

12/31/2024		/2024	12/31/2023		
Breakdown	Income tax	Social contribution	Income tax	Social contribution	
Provision for loan losses	580,521	580,521	428,847	428,847	
Contingent liabilities	24,177	24,177	20,277	20,277	
Adjustment of securities to market value	867	867	7,692	7,692	
Profit sharing	24,334	24,334	23,686	23,686	
Provisions for the national sales campaign	18,981	18,981	8,389	8,389	
Incentive Program - Credit	160,137	160,137	9,618	9,618	
Administration fees received in advance	-	-	10,452	10,452	
Provision for fraudulent practices	49,167	49,167	83,338	83,338	
Other provisions	121,465	121,465	45,821	45,821	
Amount	979,649	979,649	638,120	638,120	
Tax rates	25%	(a)	25%	(a)	
Tax credits recognized	244,912	190,683	159,530	121,755	

⁽a) Tax credits recognized at rates varying among 20%, 15% and 9%, depending on the legal nature of the companies.

⁽b) Properties received in lieu of payment for loan debts.

⁽c) Refers basically to the inventory of plastic cards, commissions on credit operations and commissions on sales of consortium quotas. Also recorded in this group are the credit unions' prepaid expenses related to insurance premiums, cooperative contributions, property taxes (IPTU), among others.

⁽d) The balances of payment transactions (Note 6.4), foreign exchange portfolio (Note 6.5), income receivable, honored sureties and guarantees, and other assets with loan characteristics (Note 6.6) that comprised the group of Other assets were reclassified in the Balance sheet to the group of Financial assets for better comparability with the financial statements at December 31, 2023. The closing balances remained unchanged.

December 31, 2024 and 2023 All amounts in thousands of Brazilian Reais, unless otherwise stated

Tax credits derecognized	(1,923)	(1,538)	(23,540)	(18,832)
Changes in deferred taxes	(11,498)	(9,197)	-	-
Changes	73,501	59,593	(5,680)	(7,690)
At December 31, 2024/December 31, 2023				
Deferred tax assets	244,912	190,683	159,530	121,755
Deferred tax liabilities	(12,821)	(9,673)	(940)	(338)
	232,091	181,010	158,590	121,417

8.3. Expected realization of tax credits

Based on a study conducted by management, which considered the expected generation of future taxable profit, the tax assets will be realized within ten years, as follows:

Years	Nominal amount	Present value
2025	152,302	141,160
2026	63,182	49,268
2027	48,002	33,957
2028	47,349	30,382
2029	38,952	22,670
2030 to 2034	85.808	45,298
Total tax credits	435,595	322,735

The present value of tax credits was calculated considering the SELIC rate projected for the realization years.

December 31, 2024 and 2023

All amounts in thousands of Brazilian Reais, unless otherwise stated

Note 9 - Investments

The investments in Sicoob Pagamentos, Sicoob PAR, Minaseg Corretora, and Sancor Seguros are valued at the equity method of accounting. Results from these equity interests were included in the combined statement of income, within "Equity in the results of subsidiaries and associates".

Note 13 - Provisions for contingencies and legal obligations

13.1. Contingencies

The entities that comprise Sicoob are parties to tax-related lawsuits and administrative proceedings. These lawsuits are classified by internal and external legal advisors according to the likelihood of a successful outcome, and taking into consideration the nature and specifics of each lawsuit, as well as former decisions of higher courts.

The provisions for lawsuits are recognized, measured and disclosed as follows:

A provision is recognized only when:

- (a) Sicoob's entities have a present legal or constructive obligation as a result of past events;
- (b) it is probable that an outflow of resources will be required to settle the obligation; and
- **(c)** the amount of the obligation can be estimated reliably. In the event any of the above conditions is not met, the provision is not recognized.

Based on these assumptions, where it is probable that a present obligation exists at the balance sheet date, Sicoob records a provision, and, where this is not probable, the contingent liability is disclosed, unless the possibility of an outflow of resources is considered remote.

Management understands that the provision recorded is sufficient to cover any losses arising from the existing lawsuits, as shown below.

13.1.1 Lawsuits classified as involving probable risk of loss

The contingencies classified as involving risk of probable loss basically arise from labor and tax lawsuits and administrative proceedings inherent in the normal course of business, filed by third parties, former employees and public agencies.

13.1.2 Judicial deposits and provisions for contingencies

December 31, 2024 and 2023

All amounts in thousands of Brazilian Reais, unless otherwise stated

13.1.4 Nature of lawsuits classified as involving probable risk of loss

The nature of lawsuits classified by the legal advisors as involving risk of probable loss is described below:

- (a) Tax these lawsuits are being discussed at the administrative level, and relate to tax assessment notices received from the Federal Revenue Service with respect to Corporate Income Tax (IRPJ), Social Contribution on Net Income (CSLL), Social Integration Program (PIS), and Social Contribution on Revenues (COFINS) levied on returns from financial investments, as well as to the increase in the COFINS tax rate.
- **(b) Civil** these relate basically to contractual terms, registration of clients with credit protection services, and pain and suffering.
- (c) Labor relate mainly to lawsuits filed by former employees disputing severance pay.

13.1.5 Schedule of expected cash outflows

Due to the nature of existing contingencies and the complexity of Brazilian legal environment, there are uncertainties that make it difficult to estimate a schedule for the future settlement of the lawsuits.

13.1.6 Contingencies classified as involving possible risk of loss

Lawsuits classified as involving possible risk of loss are not recognized, and are only disclosed when the amount involved is material. This classification includes:

- (a) civil lawsuits claiming pain and suffering and material damage caused by the credit unions;
- (b) civil lawsuits claiming improper collection and registration with credit protection services;
- (c) civil lawsuits challenging contractual reviews of lending operations;
- (d) civil lawsuits discussing Banco Sicoob's joint liability in relation to deposits made into credit unions;
- (e) civil lawsuits discussing Banco Sicoob's civil liability for an error made by a credit union;
- (f) labor lawsuits;
- (g) tax and social security administrative proceedings (Accident Prevention Factor (FAP), Scholarships, and Social Integration Program (PIS);
- (h) action for annulment of a tax assessment, filed by the Bank. The tax assessment notice that the annulment action is intended to overturn refers to an amount deducted by Banco Sicoob from the tax base in 2008. The deduction arose from the compensatory nature of the amount paid by Banco Sicoob, as decided at an Extraordinary General Meeting, in relation to a faulty provision of services under the Bank's responsibility.

13.1.7 Contingencies classified as involving possible risk of loss

According to the legal counsel of Sicoob's entities, the lawsuits in which these entities are the defendants and involved possible risk of loss totaled R\$ 1,311,213 at December 31, 2024 (R\$ 1,056,320 at December 31, 2023). Such lawsuits include labor, civil, administrative and tax claims.

Type of lawsuit	12/31/2024	12/31/2023
Tax	244,895	223,113
Labor	134,371	122,319

Total	1,311,213	1,056,321

December 31, 2024 and 2023

All amounts in thousands of Brazilian Reais, unless otherwise stated

13.2. Provisions for guarantees provided

The guarantees provided by Sicoob's entities through financial charges relating to endorsements and sureties totaled R\$ 25,250,057at December 31, 2024 (R\$ 19,784,818 at December 31, 2023).

Provisions recorded in liabilities totaled R\$ 667,140 at December 31, 2024 (R\$ 477,845 at December 31, 2023).

Income from guarantees provided amounted to R\$ 3,870 in 2024 (R\$ 4,307 at December 31, 2023).

The provisions recorded for guarantees provided are subject to the same criteria established in Resolution 2.682/1999 for classifying the credit risk posed by the borrowers.

Expenses incurred with provisions for guarantees provided totaled R\$ 790,020 at December 31, 2024 (R\$ 572,866 at December 31, 2023). In the same period, provisions of R\$ 667,011 (R\$ 500,021 at December 31, 2023) were reversed. The net balance of provisions for guarantees provided totaled R\$ 123,009 in 2024 (R\$ 72,845 at December 31, 2023).

⁽a) The Fund for Technical, Educational and Social Assistance (FATES) is intended for educational activities, providing assistance to the credit union members, their families and employees. The Fund is made up of the outcome of activities unrelated to the core business of the credit unions, plus a percentage of the net surplus from regular operational activities, as determined by the bylaws. These amounts are classified under liabilities, as determined by Accounting Chart for Institutions of the National Financial System (COSIF). In compliance with CMN Resolution 4.872/2020, amounts relating to FATES are recorded as liabilities and should be used for the corresponding expenses. At the end of the year, expenditures on FATES are reversed to the Accumulated Surpluses or Losses account, in accordance with Law 5.764/1971.

- (g) The balances of payment transactions (Note 12.6) and foreign exchange portfolio (Note 12.7) that comprised the Other payables note were reclassified in the Balance sheet from Other payables to Financial payables when compared to the financial statements at December 31, 2023.

Note 15 - Equity

15.1. Capital

Share capital is comprised of units of R\$ 1.00 each, in a manner that each member of the System is entitled to one vote, irrespective of the number of units held.

Total number of members:

Members	12/31/2024	12/31/2023
Individuals	6,817,352	6,228,167
Legal entities	1,703,396	1,544,861
Total	8,520,748	7,773,028

15.1.1 Capital increase

During the year, capital was increased, through contributions from members, by R\$ 5,933,277, of which R\$ 4,254,824 was paid in with surpluses and R\$ 1,678,453 with interest on capital, net of tax effects (R\$ 5,364,308 at December 31, 2023, of which R\$ 3,623,351 was paid in with surpluses and R\$ 1,740,957 with interest on capital, net of tax effects).

Total share capital at December 31, 2024 amounted to R\$ 27,074,791 (R\$ 23,124,656 at December 31, 2023).

15.1.2 Return/refund of capital

Capital returns or refunds represent the share capital paid in by members who have left the system. Surplus for the year totaled R\$ 2,435,370 (R\$ 1,811,417 at December 31, 2023).

15.1.3 Reversal of capital

Capital reversals refer to adjustments made to members' share capital accounts to correct errors or inaccuracies, whether as debits for capital payments or some mistake made by the member. Surplus for the year totaled R\$ 67,591 (R\$ 89,548 at December 31, 2023).

December 31, 2024 and 2023

All amounts in thousands of Brazilian Reais, unless otherwise stated

15.2. Capital reserves

This reserve is formed by statutory allocations of surpluses, at a percentage established in the bylaws, and is used to offset losses and support the credit unions' activities. Capital reserves comprise reserve fund, reserves for expansion, reserves for contingencies, legal reserve and other reserves, which totaled R\$ 2,670 at December 31, 2024 (R\$ 2,670 at December 31, 2023).

15.3. Revenue reserves

Revenue reserves are comprised of the reserve fund, reserves for contingencies, reserves for expansion, and others. During the year, R\$ 3,430,977 was transferred to the reserve fund (R\$ 3,396,043 at December 31, 2023), and R\$ 713,599 was transferred to reserves for contingencies (reversal of R\$ 4,448 at December 31, 2023). Other reserves for the year totaled R\$ 11,079 (the amount of R\$ 21.174 was used in 2023). Total reserves amounted to R\$ 23,602,994 at December 31, 2024 (R\$ 19,323,480 at December 31, 2023).

15.4. Dividends

The shareholders of Banco Sicoob are entitled to mandatory minimum dividends corresponding to 5% of adjusted profit for the year. Banco Sicoob approved the distribution of dividends totaling R\$ 28,113, equivalent to R\$ 14.13 per thousand shares (R\$ 25,832, equivalent to R\$ 7.02 and R\$ 15.28 per thousand shares, at December 31, 2023).

15.5. Interest on capital

Interest on capital is computed on the balance of paid-up capital and adjusted by the SELIC rate, limited to 12% per year, as established by Law 5.764/1971.

The percentage used to adjust the members' balance of paid-up capital may vary among the credit unions. Expenses with interest on capital for the year is recorded in the combined statement of changes in equity as allocation of surplus for the period. Interest on capital is paid on the last day of the year, either by means of a deposit on current account, or as paid-in capital.

The provision for expenses with interest on capital for the year totaled R\$ 1,976,179 (R\$ 1,939,858 in 2023).

15.6. FATES - Fund for Technical, Educational and Social Assistance

As provided for in Law 130/2009, this fund is intended for educational activities and to provide assistance for the credit unions' members, their relatives, and employees. Funds derived from non-cooperative acts, as well as at least 5% of the net surpluses for the six-month period, are allocated to FATES, as provided in the articles of incorporation. The amounts payable are recognized within a specific line item in liabilities, in accordance with the Accounting Chart for Institutions of the National Financial System (COSIF). The amounts allocated to FATES during the year totaled R\$ 478,966 (R\$ 474,533 at December 31, 2023).

15.7. Losses computed

Pursuant to Supplementary Law 130/2009, the losses computed for the year by credit unions are covered by the Legal Reserve funds. In the event of insufficiency of the aforementioned funds, losses

December 31, 2024 and 2023

All amounts in thousands of Brazilian Reais, unless otherwise stated

will be apportioned among the members and covered by future years' surpluses, upon approval by the general meeting. In 2024, no losses were computed for the Sicoob group.

15.8. Profit after interest on capital

Surplus for the second half of 2024 totaled R\$2,938,120 (R\$2,937,413 for the second half of 2023). Surplus for the year totaled R\$ 6,294,249 (R\$ 6,408,850 at December 31, 2020).

15.9. Other comprehensive income

These adjustments resulted from the mark-to-market of available-for-sale securities, net of the income tax and social contribution effects (Note 8.1), and applicable only to securities held by Banco Sicoob. The effects of these adjustments resulted in the negative amount of - R\$ 29,207 (- R\$ 6,286 at December 31, 2023), net of tax effects.

15.10. Approval of allocations

The allocations of prior year's surplus are approved by the end of April of the following year, in accordance with the legislation in force and the bylaws of central and individual credit unions. Surplus can be appropriated directly to reserve funds, to FATES, to other reserves, to increase capital, or to be transferred to the members' current account, net of tax effects.

The surplus from previous year, in the amount of R\$ 458,509 (R\$ 450,547 at December 31, 2023), was distributed to the members. The capital increase with surplus totaled R\$ 1,845,908 (R\$ 1,527,289 at December 31, 2023). The balance of surplus to be distributed totaled R\$ 47,943 (R\$ 8,119 at December 31, 2023).

15.11. Non-controlling interest

These are comprised of the balance of net assets of investment funds combined in the financial statements, which arise from investments made by non-members of Sicoob. They were combined in the financial statements in accordance with BCB Instruction 272/2022. The balance relates to shareholders' investments in the funds Sicoob Institucional and Sicoob Liquidez, which totaled R\$ 1,258,547 at December 31, 2024 (974,233 at December 31, 2023).

15.12. Balances of credit unions merged

The balance sheet balances of the credit unions merged in the year, totaling R\$ 518,313 (R\$ 507,470 at December 31, 2023) are added to the corresponding columns representing the positions on the merger date, i.e. share capital, reserves and retained earnings. The balance of surplus to be distributed totaled R\$ 518,316 (R\$ 507,470 at December 31, 2023).

December 31, 2024 and 2023

Capital units held at credit unions	(d)	881,108	851,620
Total		12,904,061	11,615,934

⁽a) Provisions for expected credit losses amounted to R\$ 115,375 at December 31, 2024 (R\$ 57,872 at December 31, 2023), at rates from 0.01% to 29% and maturities from 1 to 360 months.

Note 19 - Other information

19.1. Agreements for offsetting payables against receivables with the same financial institution

As established by CMN Resolution 3.263/2005, Banco Sicoob has investments in financial institutions which allow it to offset payables against receivables held with these institutions. The amounts receivable and payable are stated in the balance sheet in the respective line items, under assets and liabilities.

19.2. Insurance (unaudited)

The System's assets are insured against risks at amounts deemed sufficient by management to cover any losses, considering the nature of its activities.

⁽b) The amounts above are included in the balances before eliminations.

⁽b) Include demand deposits, savings account deposits, and time deposits (RCDs). Time deposits are linked to DI floating rates and have no minimum investment

⁽c) Transactions with preponderantly floating rates linked to the DI with minimum investment period of 90 days, after which the amount can be redeemed.

⁽d) Rates and terms not applicable.

December 31, 2024 and 2023

All amounts in thousands of Brazilian Reais, unless otherwise stated

19.3. Employee benefits - Private pension plan

The credit unions that comprise Sicoob are sponsors of the Sicoob Private Pension Foundation (Sicoob Previ), which was established in November 2006, in the form of a defined contribution plan, to provide its participants and their dependents with pension benefits that supplement the benefits provided by the official social security system. The monthly contributions to the plan are recognized as an expense in the statement of income for the period.

At December 31, 2024, the plan had 26,770 active participants (22,020 at December 31, 2021), whose consolidated contributions to Sicoob Previ totaled R\$ 48,969 (R\$ 37,936 at December 31, 2023).

19.4. Profit sharing

Sicoob offers profit sharing to its employees, which is calculated in accordance with the Collective Labor Agreement. The amount of R\$416,595 was accrued and recorded as an expense in the statement of income in the first half of 2024 (R\$378,560 in 2023).

Note 20 - Operational limits - Basel Accord

In accordance with CMN Resolutions 4.192 and 4.193, both of 2013, financial institutions authorized to operate by BACEN must calculate and maintain regulatory capital (PR) consistent with the risks of their activities. Accordingly, each entity that comprises the System must comply with the provisions of these Resolutions.

At December 31, 2024, all combined entities are compliant with the Basel requirements established by the Brazilian Central Bank.

Note 21 - Sicoob's centralized risk and capital management

21.1. Risk management

The risk management framework of Sicoob, which is centralized at Sicoob Cooperative Center (CCS), seeks to identify, measure, evaluate, monitor, report, manage, control and mitigate the risks inherent in its activities, based on established policies, strategies, processes and limits.

The institutional policy for the integrated risk and capital management, as well as the related guidelines are approved by the Board of Directors of CCS.

The integrated risk management covers, at least, risks related to credit, market, interest rate variation, liquidity, operations, social and environmental, and business continuity management, and ensures, on an ongoing and integrated basis, that these risks are managed in accordance with the levels defined in the Risk Appetite Statement (RAS).

The risk management process is segregated, and the organizational structure involved ensures specialization, representation, and rationality, with proper dissemination of risk management information and culture across the Institution.

The procedures in place ensure the timely reporting, to the governance bodies, of data relating to normal and atypical situations with respect to risk policies, as well as the application of stress tests to assess critical situations, which would require the adoption of contingency measures.

December 31, 2024 and 2023

All amounts in thousands of Brazilian Reais, unless otherwise stated

This centralized risk and capital management framework is consistent with the nature of the operations and the complexity of the products and services offered, as well as proportional to the extent of the Sicoob's entities exposure to risks, and does not relieve the credit unions of their responsibilities.

21.1.1 Operational risk

The operational risk management guidelines are recorded in the Institutional Policy for Operational Risk Management, approved by the Board of Directors of Sicoob Confederation, which defines consistent procedures, metrics and actions for all Sicoob's entities.

The operational risk management process consists of a qualitative and quantitative assessment of operational risks through stages that involve identification, assessment, treatment, documentation, and storage of information on operational losses incurred and recovered, and the performance of tests on control, communication and information systems.

Operational losses are reported to the Operational Risk and Business Continuity Management (GCN) department, which interacts with the managers of the respective areas and formally identifies the causes of losses, adjusts the controls in place, and determines the need for improving processes, which may require the implementation of new controls.

The results are submitted to the Executive Board and Board of Directors.

The capital allocation methodology used to compute the portion of operational risk (RWAopad) is the Basic Indicator Approach (BIA).

21.1.2 Credit risk

The credit risk management guidelines are recorded in the Institutional Policy for Credit Risk Management, approved by the Executive Board and the Board of Directors, which defines consistent procedures, metrics and actions for all Sicoob's entities.

CCS is responsible for managing Sicoob's credit risk, by standardizing processes and methodologies intended to analyze the risk posed by counterparties and transactions, and monitoring assets exposed to credit risk.

In order to mitigate such risk, CCS makes use of risk analysis and rating models based on quantitative and qualitative data, to support the risk calculation process and the establishment of credit limits for borrowers, with a view to maintaining the high quality of the portfolio. Periodic tests are performed on these models, ensuring that they are consistent with the economic and financial condition of the borrowers. Default on the portfolio and the respective ratings assigned to the operations are also monitored, in accordance with CMN Resolution 2.682/1999.

The credit risk management framework requires the adoption of the following procedures:

- (a) definition of policies and strategies, including risk limits;
- (b) validation of systems, models and internal procedures;
- (c) estimation (using consistent and prudent criteria) of losses associated with credit risk, and comparison between the estimated and actually incurred losses;
- (d) specific monitoring of related-party transactions;

December 31, 2024 and 2023

All amounts in thousands of Brazilian Reais, unless otherwise stated

- (e) procedures for monitoring loan portfolios;
- (f) identification and treatment of troubled assets;
- (g) systems, routines and procedures to identify, measure, assess, monitor, report, control, and mitigate the exposure to credit risk;
- (h) monitoring and reporting of risk appetite limits;
- (i) periodic submission of managerial information to the governance bodies;
- (j) responsibility for calculating the level of the provision for expected credit losses;
- (k) creation of models to assess the counterparty credit risk, according to the transaction and the public involved, which take into consideration specific characteristics of the borrowers, as well as industry-related and macroeconomic aspects;
- (1) application of stress tests identifying and assessing the Institution's potential vulnerabilities;
- (m) establishment of credit limits for each counterparty and overall limits by portfolio or credit line:
- (n) specific risk assessment for new products and services.

The standards for internal credit risk management include the organizational and regulatory framework, risk rating models for borrowers and operations, overall and individual limits, and the use of computer systems and system-based monitoring to validate models and compliance of processes.

21.1.3. Market and interest rate risks

The guidelines for management of market and interest rate risks are recorded in the Institutional Policy for Credit Risk Management, approved by the Executive Board and the Board of Directors, which defines consistent procedures, metrics and actions for all Sicoob's entities.

Sicoob's framework for managing market and interest rate risks is consistent with the nature of its operations and the complexity of the products and services it offers, as well as proportional to the extent of Sicoob's entities exposure to risks.

Sicoob's market and interest rate risks are managed by a specialized department, which ensures that the risk is managed in accordance with the levels defined in the Risk Appetite Statement (RAS) and with the guidelines provided for in the institutional policies and manuals.

The system adopted by Sicoob for measuring, monitoring and controlling market and interest rate risks is based on the use of widely known tools, which rely on the best risk management practices and cover all the positions held by the Institution.

For the market risk portions in the trading portfolio RWAjur1, RWAjur2, RWAjur3, RWAjur4, RWAcam, RWAcom, and RWAacs, the methodologies used are based on regulations issued by the Brazilian Central Bank.

The interest rate risk of the banking portfolio (IRRBB) is managed through the use of good practices and consolidated assessment models, The economic value and financial intermediation result approaches are used in the risk management process.

December 31, 2024 and 2023

All amounts in thousands of Brazilian Reais, unless otherwise stated

- (a) Economic Value of Equity (EVE): this methodology consists of assessing the effect of changes in interest rates on the present value of the cash flows of instruments included in the banking portfolio;
- (b) Non-interest Income (NII)) approach: this methodology consists of assessing the effect of changes in interest rates on the result of financial intermediation included in the banking portfolio;

The monitoring of market risks and interest rate variations is carried out by means of periodical reports prepared by the specialized department and submitted to the governance bodies, committees, and senior management that include, at least:

- (a) the value at risk and the use of the banking portfolio's limit, under the economic value and financial intermediation result approaches;
- (b) the value at risk and the use of the trading portfolio's limit, under the standardized approaches provided by the Brazilian Central Bank;
- (c) an analysis of mismatches between asset and liability flows, segregated by maturity and risk factors:
- (d) maximum exposure limits to interest rate risks;
- (e) a sensitivity analysis to assess the impact on the market value of the portfolio's cash flows when subject to a parallel increase of one (1) basis point in the yield curve;
- (f) result of the embedded gains and losses (EGL);
- (g) stress tests; and
- (h) a contingency plan.

In addition, stress tests are performed on the banking and trading portfolios to assess the risk sensitivity to the limits defined in the RAS.

21.1.4 Liquidity risk

The liquidity risk management guidelines are recorded in the Institutional Policy for Financial Centralization Management and Institutional Policy for Liquidity Risk Management, approved by the Executive Board and the Board of Directors, which define consistent procedures, metrics and actions for all Sicoob's entities.

The liquidity risk management framework of Sicoob is consistent with the nature of its operations and the complexity of the products and services it offers, as well as proportional to the extent of its exposure to risks.

Sicoob's liquidity risk is managed by a specialized department, which ensures that the entities' risk is managed in accordance with the levels defined in the Risk Appetite Statement (RAS) and with the guidelines provided for in the institutional policies and manuals.

The liquidity risk management of Sicoob's entities complies with the aspects and standards set out by the regulatory authorities, and are constantly improved and aligned with good management practices.

December 31, 2024 and 2023

All amounts in thousands of Brazilian Reais, unless otherwise stated

The liquidity risk management instruments used are:

- (a) monitoring, through periodic reports sent to the governance bodies, committees and senior management, addressing at least:
 - minimum liquidity limit;
 - projected cash flow;
 - application of stress scenarios;
 - definition of contingency plans;
- (b) performance of tests to assess the liquidity risk control systems;
- (c) preparation of reports that allow for the timely identification and correction of control weaknesses and management of liquidity risks;
- (d) existence of a contingency plan containing the strategies to be adopted to ensure the continuity of activities and limit losses arising from liquidity risks.

Quarterly stress tests are performed for various scenarios, with a view to identifying any deficiencies and atypical situations that could compromise the liquidity of Sicoob's entities.

In managing liquidity risk, procedures for identification of short- and long-term risks are adopted, considering possible impacts on the liquidity of the Banco Sicoob Group.

As a control mechanism to assess the effectiveness of the contingency plan, the main measures are tested on a quarterly basis, to evaluate the liquidity generation capacity.

21.1.5 Social, environmental, and climate-related risks

The guidelines for managing social, environmental and climate risks are designed to identify and mitigate significant risks that may impact the stakeholders, as well as the products and services provided by Sicoob.

Sicoob adopts the Institutional Policy for Social, Environmental and Climate Responsibility (PRSAC) to classify the exposure of lending operations to social, environmental and climate risks. The principles and guidance that stem from the established guidelines contribute to create an approach compatible with the relevance of the exposure to social, environmental, and climate risks.

Social risks: The social risk management process aims is to promote respect for diversity and protection of rights in business relationships and for individuals in general, by assessing and measuring both positive and negative impacts, and potential losses that could affect the Sicoob's reputation.

Environmental risks: The environmental risk management process involves conducting systematic evaluations based on information about the environment provided by relevant agencies, as well as monitoring potential impacts

Climate-related risks: The process of managing these risks involves a systematic assessment of potential damage that may arise from weather events. Additionally, it includes monitoring the transition and physical risks associated with climate change.

December 31, 2024 and 2023

All amounts in thousands of Brazilian Reais, unless otherwise stated

Social, environmental and climate-related risks are monitored in Sicoob's business lines, following the eligibility criteria below, and the evaluation procedures disclosed in the internal manuals, in compliance with the rules and regulations in force:

Sicoob does not carry out transactions with counterparties included in the list of employers that have subjected workers to slavery-like conditions, or exploited child labor.

21.1.6 Cybersecurity risk

Cybersecurity Risk Management is part of the Integrated Risk Management and covers risks related to the security of systems, networks, infrastructures, data and users, ensuring a comprehensive approach to protecting Sicoob entities against cybersecurity threats.

The cybersecurity risk management guidelines are recorded in the Institutional Policy for Cybersecurity Risk, and in the Cybersecurity Risk Manual approved by the Executive Board and the CCS Board of Directors, which defines consistent metrics and procedures for all Sicoob's entities.

The Cyber Risks department carries out essential monitoring, which follows up on cyber vulnerabilities and incidents, and participates in specific forums on the subject, contributing to the development of its functions and the protection of Sicoob's digital assets. Regular surveys are also carried out on the entire Sicoob system's cyber maturity, allowing for the assessment and prioritization of actions, measures and controls aimed at mitigating cyber and information security risks.

The process of identifying, assessing, treating and monitoring cybersecurity risks is carried out at least every two years. In exceptional cases, the CCS Executive Board may extend or anticipate the cycle deadline.

21.2. Business continuity management

The guidelines for business continuity management are recorded in the Institutional Policy for Business Continuity Management, approved by the Executive Board and the Board of Directors of Sicoob Confederation, which defines consistent procedures, metrics and actions for all Sicoob's entities.

The process of business continuity management requires the performance of the following activities:

- (a) identification of the possibility of stoppage of activities;
- (b) assessment of the results and consequences (potential impacts) to the entity that may arise from the stoppage of activities;
- (c) definition of the strategy to recover from potential discontinuity incidents;
- (d) implementation of the strategies (performance of the activities defined, with clear specification of what to do, by whom and when) for handling adverse incidents that could lead to a disruption in a process or activity considered critical;
- (e) planned continuity of operations (assets, including people, processes and systems), involving procedures for the periods before, during and after the stoppage; and
- (f) transition between the contingency and the resumption of the normal course of business (end of the event).

December 31, 2024 and 2023

All amounts in thousands of Brazilian Reais, unless otherwise stated

(g) analysis of the procedures that ensure business continuity in a contingency situation, identifying aspects that performed well and those that need to be improved to prevent future failures, and implementing the necessary corrections.

The Impact Analysis (AIN) is performed by the CCS with the aim to identify the system's critical processes and define strategies for their continuity, to protect the organization from prolonged interruptions that could threaten business continuity. This analysis considers financial, legal, and reputation impacts.

Business Continuity Plans, which are prepared, reviewed, and tested annually, include key procedures to be performed for the purpose of ensuring that the activities are maintained at an acceptable level in the event of contingencies. These Plans are classified into: Operational Continuity Plan (OCP), and Disaster Recovery Plan (DRP).

The effectiveness of the Business Continuity Plans is tested annually.

21.3. Capital management

Capital management of Sicoob's entities is an ongoing forward-looking process that aims to assess the institutions' capital requirements, considering Sicoob's strategic goals for a minimum time horizon of three years.

The guidelines for ongoing monitoring and control of capital are included in Sicoob's Institutional Policy for Capital Management, to which all Sicoob members have formally adhered.

The capital management process relies on a set of methodologies that enable the Sicoob Cooperative Center to identify, assess, and control major exposures, so as to maintain a capital level compatible with the risks incurred by Sicoob's entities. A specific capital plan in place provides for capital targets and forecasts that consider the strategic goals, the main sources of capital and the contingency plan. Additionally, severe events and extreme market conditions are simulated, and the related results and impacts on the capital framework are submitted to the Executive Board and Board of Directors.
